Sri D.K. Shivakumar
Hon'ble Deputy Chief Minister
Govt. of Karnataka

Pradhan Mantri Kisan Urja Suraksha Evam Utthaan Mahabhiyan (PM-KUSUM) Component - C

(Central Finance Assistance of 30%)

A Boon for our Farmers

Pradhan Mantri Kisan Urja Suraksha Evam Utthaan Mahabhiyaan (PM KUSUM)- Component C : Sustainable Energy Solutions for Agriculture Pumpset.

1. It focuses on installing grid-connected solar power plants at the distribution level, primarily to supply power to agricultural feeders, reducing dependence on conventional energy.
2. It provides reliable day-time power to farmers, promoting solar-based sustainable irrigation.
3. It contributes to India's goal of increasing solar capacity and reducing carbon emissions under the National Solar Mission.

Significant Milestone of the Energy Department

- Capacity: **2,400 MW**
- Sub stations: **389**
- Agriculture Feeders: **1,555**
- Agri IP Sets: **6,32,794**

Unveiling of the Pradhan Mantri Kisan Urja Suraksha Evam Utthaan Mahabhiyan (PM-KUSUM) Component - C Scheme

11.06.2025 | 10.30 a.m. | Netaji Ground, Gouribidanur, Chikkaballapur District.

: Inauguration :

Shri Siddaramaiah
Hon'ble Chief Minister,
Government of Karnataka

: August Presence :

Shri Pralhad Joshi
Hon'ble Minister of New and Renewable Energy & Consumer Affairs, Food and Public Distribution, Government of India

Shri D.K. Shivakumar
Hon'ble Deputy Chief Minister,
Government of Karnataka

Shri Shripad Yesso Naik
Hon'ble Union Minister of State for Ministry of New and Renewable Energy
Government of India

: Dedicated by :

Shri K.J. George
Hon'ble Energy Minister, Government of Karnataka

: Honorary Presence :

Shri Krishna Byregowda
Hon'ble Revenue Minister,
Government of Karnataka

Dr. M.C. Sudhakar
Hon'ble Higher Education Minister
Government of Karnataka &
Chikkaballapura District Incharge Minister

: Presided by :

Shri K.H. Puttaswamy Gowda
Hon'ble MLA, Gouribidanur Assembly Constituency

Shri Pralhad Joshi, Hon'ble Minister of New and Renewable Energy & Consumer Affairs, Food and Public Distribution, Government of India, inspecting the solar plant.

Hon'ble Chief Minister **Shri Siddaramaiah** along with Hon'ble Energy Minister **Shri K.J. George** inspecting the solar plant.

All Are Welcome

Dr. Shalini Rajneesh, I.A.S.
Chief Secretary
Government of Karnataka

Shri Gaurav Gupta, I.A.S.
Additional Chief Secretary to Government,
Energy Department, Government of Karnataka and Managing Director, KPCL

Shri Pankaj Kumar Pandey, I.A.S.
Managing Director,
KPTCL

Dr. N. Shivashankar, I.A.S.
Managing Director,
BESCOM

Karnataka Renewable Energy Development Limited | Bangalore Electricity Supply Company Limited | Chamundeshwari Electricity Supply Company Limited | Karnataka Power Transmission Corporation Limited | Hubballi Electricity Supply Company Limited | Gulbarga Electricity Supply Company Limited | Mangalore Electricity Supply Company Limited

As enshrined in our Constitution, "to strive towards excellence in all spheres of individual and collective activity so that the nation constantly rises to higher levels of endeavour and achievement" is the fundamental duty of every citizen of India.

India's population has hit 146.39 crore: UNFPA

The country's fertility rate falls below replacement mark of 2.1 to 1.9, it says; number of people in the 'world's most populous nation' expected to peak at 170 cr. before declining in around 40 years

The Hindu Bureau
NEW DELHI

India's population is estimated to have reached 146.39 crore by April, says a new UN demographic report, which adds that the country's total fertility rate (TFR) has declined to 1.9, falling below the replacement level of 2.1.

The population is expected to grow to 170 crore before starting to dip in about 40 years, the report titled "State of the World Population 2025: The Real Fertility Crisis" says. It calls India the "world's most populous nation", while pegging China's current population at 141.61 crore.

The demographic indicators in the United Nations Population Fund report for 2025 are close to India's own projection of its population published in 2019 by a technical group of experts. According to these projections, India, as of 2025, will have a population of 141.10 crore.

The decennial Census, due to have been conducted in 2021, has been delayed and the government has now announced that it will be completed by March 2027. The last Census was conducted in 2011.

Replacement level TFR

According to the latest Sample Registration System statistical report published by the Office of the Registrar General of India for 2021, the TFR in India was 2.0, the same as the year before, with the report saying that the replacement level TFR "has been attained" nationally.

The TFR measures the number of children a woman is expected to have throughout her reproductive age.

Caste data to be re-enumerated to address concerns of communities

The Hindu Bureau
BENGALURU

The Congress high command on Tuesday suggested to the Karnataka government to hold re-enumeration of caste data within a stipulated time to address concerns of some communities who complained of being left out of the Socio-economic and Educational Survey (caste census) that was conducted in 2015-16.

A special Cabinet meeting scheduled to be held on June 12 at Nandi Hills in Chickballapur district is expected to announce the calendar of events for conducting the resurvey of castes.

The party high command had summoned Chief Minister Siddaramaiah and KPCC president and Deputy Chief Minister D.K. Shivakumar to New Delhi to discuss the political development in the State following the stampede in Bengaluru which claimed 11 lives and left 56 injured.

Congress leader Rahul Gandhi, AICC president Mallikarjun Kharge, along with Chief Minister Siddaramaiah, and Deputy Chief Minister D.K. Shivakumar during a meeting in New Delhi on Tuesday.

Agreed in-principle

Briefing the media in New Delhi, AICC general secretary and MP K.C. Venugopal said, "The Congress party thinks that whatever the Karnataka government has done in the caste census should be agreed to in-principle. But there are some apprehensions from some sections and communities about the counting of the caste."

Politically dominant castes, especially Lingayats and Vokkaligas, had been demanding a resurvey, while those in other backward classes (OBCs) had been demanding implementation of the recommendations of the caste census report. The caste census emerged as one of the key State issues discussed in a party meeting attended by Congress president Mallikarjun Kharge, senior leader Rahul Gandhi, AICC general secretary in charge of Karnataka Randeep Singh Surjewala, Mr. Venugopal, Mr. Siddaramaiah, and Mr. Shivakumar in New Delhi.

The State government had conducted the caste census a decade ago and the data was now outdated, Mr. Venugopal said.

"The Congress has suggested to the Chief Minister to do a re-enumeration process within a stipulated time, say 60, 70 or 80 days. This is what we decided about the caste census in the meeting," he said.

The caste census report was tabled in the State Cabinet meeting held on April 17 and discussed in the subsequent meetings. But the government was unable to reach consensus on the matter owing opposition from Ministers belonging to the Veerashaiva-Lingayat and Vokkaliga communities, besides Opposition parties, seers and community organisations of dominant castes.

Blaze on cargo vessel sparks oil spill alert off Kerala coast

The Hindu Bureau
KOZHIKODE

Authorities issued a potential oil spill advisory on Tuesday even as explosions and a massive fire rocked the *M.V. Wan Hai 503*, a Singapore-flagged vessel that caught fire nearly 88 nautical miles off the Kerala coast near Kozhikode on Monday. Efforts to control the fire were still on through Tuesday and four crew members are still reported missing, while six others have been admitted to hospital.

The ship was en route from Colombo to Mumbai when fire broke out after a container explosion. The vessel is currently adrift and the Indian National Centre for Ocean Information Services (INCOIS) has issued advisories warning of drifting containers and a potential oil spill.

According to its cargo manifest, the ship is carrying 157 containers with hazardous substances – including flammable liquids and solids, solids that can spontaneously combust and substances harmful to human health – due to which firefighting operations require caution and expert advice.

Fuel tanks

There are also approximately 2,000 tonnes of fuel oil and 240 tonnes of diesel in tanks located adjacent to the fire zone on the ship, creating an imminent threat of explosion.

Meitei group lifts shutdown in Manipur, seeks release of its leader

Rahul Karmakar
GUWAHATI

The Arambai Tenggol (AT), an armed Meitei radical group in Manipur, has withdrawn the 10-day shutdown it had called to protest the June 7 arrest of its senior leader Asem Kanan Singh.

Announcing the withdrawal of the shutdown on Tuesday, AT spokesperson Robin Mangang said the group had heeded public appeals to take the decision. "We decided to suspend the shutdown to lessen the inconvenience faced by the people across the valley," he told journalists in the State's capital, Imphal.

However, he added that the group will continue with democratic forms of protest until their leader is released unconditionally.

Protesting arrest

"We have come to know his arrest is related to some of his personal issues, but we cannot remain silent as he is one of the main leaders of our organisation," Mr. Mangang said.

"Our group was formed as an unarmed socio-cultural organisation to preserve and promote the culture and traditions of Manipur. Circumstances forced us to take up arms," he said.

"Unfortunately, our fight to protect Manipur from drug-dealing terrorists has made the National Investigation Agency and Central Bureau of Investigation start arresting our members," he added.

Don't withhold RTE funds over NEP row: Madras HC to Centre

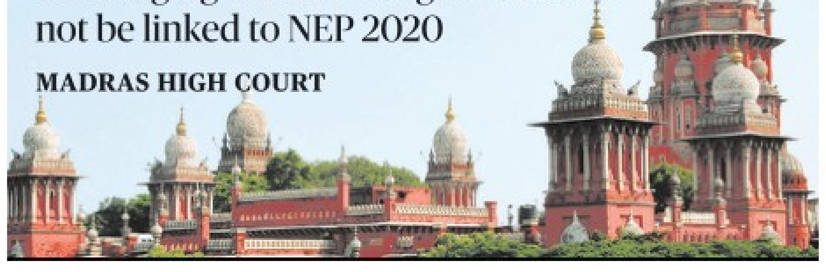
Mohamed Imranullah S.
CHENNAI

The Madras High Court on Tuesday directed the Union Ministry of Education to consider splitting the disbursal of funds to the Tamil Nadu government under its flagship Samagra Shiksha scheme, so that money needed to reimburse private schools under the Right of Children to Free and Compulsory Education (RTE) Act can be disbursed.

The RTE component amounts to about ₹200 crore, while the total amount pending to Tamil Nadu under the SSS amounts to ₹2,151.59 crore, amidst a row over the State's refusal to implement the National Education Policy, 2020.

The court also told the State government that non-receipt of funds from the Centre cannot be used as a "reason to wriggle out" of its own obligation to pay the private schools.

> Section 7 of the RTE Act states that the Central government and the State governments have concurrent responsibility for providing funds for carrying out the provisions of the Act... Therefore, funds payable to the State Government representing the Central Government's share towards discharging the RTE obligations need not be linked to NEP 2020
>
> MADRAS HIGH COURT



Independent obligation

A Division Bench of Justices G.R. Swaminathan and V. Lakshminarayanan noted that the Centre had some issues in releasing SSS funds as the State government has not adopted the NEP. However, it has an independent obligation under the RTE Act of 2009, which has nothing to do with non-adoption of NEP, the judges said. "Section 7 of the RTE Act states that the Central government and the State governments have concurrent responsibility for providing funds for carrying out the provisions of the Act..." the Division Bench observed.

Investigating the case of 'kidnap' of pet cat proves costly for city police

The Hindu Bureau
BENGALURU

Putting the police machinery to investigate the complaint of alleged "kidnap and wrongful confinement" of a pet cat has proved costly for the Bengaluru city police as the High Court of Karnataka on Tuesday admonished them for "allowing themselves to be swept into whimsical pursuit of justice for a cat" in the absence of ingredients of any cognisable offence.

"The cat named Daisy appears to have driven everyone crazy and even the criminal justice system. The police ought not to have entertained the complaint, which did not even indicate any cognisable offence at the outset. As a matter of fact, the complaint does not even indicate a non-cognisable offence. But, the police entertain the complaint, ostensibly, for extraneous reasons," the court observed.

High Court admonishes police for entertaining complaint and filing charge sheet 'in the absence of ingredients of any cognisable offence'

Allowing continuation of criminal proceeding "would be a travesty and putting a premium on the litigious persistence of the complainant and reducing the criminal justice system to conduct a trial, in a melodrama woven around a cat," the court said.

Justice M. Nagaprasanna passed the order while allowing the petition filed by Taha Hussain, a resident of Siraj Layout of Shikharipalya near Electronics City, Bengaluru. The petitioner had questioned the complaint lodged by his woman neighbour in February 2022, and the charge sheet filed by the Hebbagodi police.

Though the court refrained from permitting the petitioner to prosecute the complainant as she had not responded to the its notice, the court said the "police deserve stern admonishing, for allowing themselves to be swept into to whimsical pursuit of justice for a cat".

The court noted that allegations were that the petitioner had allegedly "kidnapped and wrongfully confined" the complainant's pet feline, the petitioner had criminally intimidated her when she went to his house to enquire about the cat.

The CCTV footage that was handed over to the police demonstrated that the cat was jumping from one window to another and never stayed on the premises of the petitioner, the court said.

"The entire police machinery gets involved in the case of a missing cat, records statements of neighbours, sees CCTV footage and finds nothing but files a charge," the court said.

The FIR was lodged under Sections 428 (mischief by killing or maiming animal), 504 (intentional insult), 506 (criminal intimidation), and 509 (acts intended to insult the modesty of a woman) of the Indian Penal Code, and the charge sheet was filed by dropping the offence under Section 428.

A moment to cherish for an extraordinary leader of men

The former India skipper's induction into ICC's Hall of Fame reflects his contribution to the game, both as a 'keeper and as a finisher in the white-ball format; that his legion want to see more of him is purely down to him staying away from the public eye, which has added to his aura

R. Kaushik

Nearly a month before his 44th birthday (July 7), Mahendra Singh Dhoni received an early gift. On Monday in London, he was inducted into the ICC Hall of Fame, a little less than six years after his last international outing. There was no fairytale exit for the former captain, whose final game for the country ended in unshed tears and bitter disappointment following the semifinal elimination by New Zealand in the 50-over World Cup in Manchester on July 10, 2019. But Dhoni's propensity for detached attachment means he would have put that heartbreak behind him not long after the loss and geared up for the next phase of his life.

In a world where people measure the currency of their popularity by the number of followers on social media - of whom he has millions - and a constant desire, whether by choice or otherwise, to keep staying in the public eye, Dhoni is a spectacular exception. He is still an enigma to his vast legion of supporters, assiduously refusing to court attention, surfacing in the lead-up to a fresh season of the Indian Premier League and then retreating to relative obscurity, inasmuch as someone of his stature can become obscure, for months on end, happy in his own world of parents, wife, daughter, bikes, dogs…

This isn't a calculated, well-planned formula to ensure that the fans keep wanting more of him, to see more of him. That's how he is wired. That's how he always has been. When he was the captain, the door to his hotel room was open till such time that he was awake. No one needed to ring him up to ascertain if he was free or if they could drop in. It was literally open door, but when he closed it shut late at night, he was oblivious to the world.

No surprise

There is a fascinating story of how, when a former senior functionary of the Board of Control for Cricket in India passed away, the support staff just couldn't get in touch with him even though they were all in the same hotel. His cell phone was switched off, he had put the hotel phone on 'Do not disturb'. By then, Dhoni had retired from Test cricket but he was still the limited-overs captain and had great regard for the administrator who was no more. Out of respect for his skipper and to ensure that tongues didn't wag about (non-existent) differences were they to travel separately to pay their respects, Test captain Virat Kohli waited patiently and accompanied Dhoni in a later flight while some of the senior management staff flew out early in the morning.

Dhoni evokes such emotions, without making an effort to do so. His presence in the Hall of Fame should come as no surprise. After all, he is his country's most successful captain, rising from the hinterlands to establish himself as the ultimate poster boy of Indian cricket even when the likes of Sachin Tendulkar, Rahul Dravid, Yuvraj Singh, Virender Sehwag and Zaheer Khan, among others, were going strong.

Every year for the last five seasons, towards the end of Chennai Super Kings' IPL campaign, speculation reaches fever pitch over Dhoni's imminent retirement. Each year, he has smiled enigmatically, made a few off-hand remarks and allowed the speculation to mount for the next several weeks. It was no different last month when he pithily remarked that he didn't have to make an immediate decision about his future when he had months to do so. Door open, you say?

Dhoni had already played for nearly five seasons since his First Class and List-A debuts for Bihar in 1999-2000 when he travelled with the India-A side for a triangular series in Nairobi, under Sairaj Bahutule, in August 2004. One afternoon, the phone warbled – a former India fast bowler who was commentating on the tournament from the venue was on the line, almost demanding that one switched on the TV and watched 'this guy, this incredible guy' take the bowling apart. Batting at No. 3 in a league fixture against a Pakistan 'A' side helmed by Misbah-ul-Haq, Dhoni smashed a 122-ball 120 at the Nairobi Gymkhana as India batted first.

Three days later, on a slightly trickier surface with India chasing 235 for victory against the same opponents, he was a lot more measured, guiding the successful chase with an unbeaten 119 off 134 deliveries, the five towering sixes reiterating that he was batting well within himself. His contribution in the final, which India won by six wickets also against Pakistan 'A', was just 15 but Dhoni topped the run-scoring charts with 362 at an average of 72.40 and a strike-rate of 90.15.

Four months later, he turned out in India colours for the first time, inauspiciously run out without scoring on his ODI debut in Chattogram. It was ironically coincidental that in his last international innings too, he would be run out, courtesy a fabulous direct hit from the deep from Martin Guptill that practically ensured India's exit at the World Cup. But between those two incidents, Dhoni set the world afire with his astonishing batting and composure in white-ball cricket, with his unbelievably slick hands behind the stumps, with his supreme mastery of captaincy, especially in limited-overs internationals, with the felicity with which he marshalled teams that included a host of not just former captains but also legends of the game like V.V.S. Laxman.

India aren't huge on left-field decisions when it comes to the captaincy of the national side. In modern times, Mohammad Azharuddin was the first to be pulled out of reasonable anonymity to marshall the 'Team of the '90s' by Raj Singh Dungarpur at the start of the first decade of the last millennium. More than a decade and a half later, Dilip Vengsarkar's selection panel identified Dhoni as the man best suited to take India into the future, appointing him captain for the T20 World Cup in 2007 after the triumvirate of Dravid (then the Test and ODI leader), Tendulkar and Sourav Ganguly decided to give the tournament a miss.

That squad of 15 included Sehwag, who had already led India, as well as Gautam Gambhir, Harbhajan Singh and Yuvraj. Dhoni's ascension took many by surprise and didn't go down well with many others, including some picked to play under him. But the wisdom of the Vengsarkar-led panel's move became evident when, out of the blue, he masterminded a wonderful charge to the title that would inexorably change the landscape of Indian cricket. When Dravid stepped down from the captaincy, Dhoni was made the full-fledged white-ball skipper and was the captain-in-waiting

when it came to the five-day version, benefiting immensely from the one-year apprenticeship under the champion that Kumble is.

Dhoni's captaincy career that ran between 2007 and the end of 2016 (he didn't receive the Test captaincy until December 2008 and gave it up in December 2014, when he abruptly retired from the longer format) was a bountiful phase for Indian cricket.

The T20 World Cup triumph was followed in alternate years by India's ascension to the No. 1 spot in Test cricket (December 2009), the 50-over World Cup title run at home (April 2011) and Champions Trophy glory in England (June 2013).

There was also the small matter of a Test series win in New Zealand in early 2009, India's first victory in that country for 33 years. But Dhoni did give the impression that he was more at home in the demanding, compressed cauldron of limited-overs internationals than the slow burn of Test cricket where he didn't quite have the pace resources for his team to compete consistently outside the sub-continent.

The legend of Dhoni the Finisher grew with time, his insistence on taking the game 'deep' and invariably getting the job done lending a surreal, otherworldly aura to the bruiser. He shed his flowing locks on being entrusted with greater responsibility, perhaps his subtle well of telling himself - he hasn't really bothered too much about sending messages to the world - that it was time for the boy to become a man.

He oversaw some of India's bleakest Test campaigns, marked by successive whitewashes in four-Test overseas series in England (2011) and Australia (2011-12, where he missed the first Test). But he had enough credit points and the confidence of the men who ran Indian cricket to not just survive these misadventures but also come out stronger.

One only has to consider the sea of yellow at every IPL venue for the last several years, no matter where Chennai Super Kings are playing, to grasp the true extent of the love, regard, respect and admiration India's cricket followers have for the one immortalised as 'Thala' in the Tamil Nadu capital. His sense of timing was never more apparent than in 2018 when he spearheaded CSK's fairytale title charge as they returned to the IPL after a two-year suspension. That period perhaps was the only time Dhoni allowed his emotions to overwhelm him in public space. Otherwise, he has been inscrutable and equanimous in the face of victory and defeat, in light of dizzying heights and terrible depths, both of which he has encountered in ample measure.

India's 11th entrant into the hallowed Hall of Fame is in excellent company. He made all the right noises to 'celebrate' his induction, including saying it was something he would 'cherish forever'. He will, yes, just as Indian cricket too will cherish him forever.

A regular Joe with the same fears and apprehensions and doubts and insecurities as anyone else, but an extraordinary performer who has found the fortitude and the wherewithal to overcome the odds and set himself up as an inspiration for millions, especially those from one-time cricketing outposts who could dare to dream that their dreams would come to fruition. Take a bow, MS.

THE GIST

- Dhoni's captaincy career that ran between 2007 and the end of 2016 was a bountiful phase for Indian cricket
- The legend of Dhoni the Finisher grew with time, his insistence on taking the game 'deep' and invariably getting the job done lending a surreal, otherworldly aura to the bruiser
- India's 11th entrant into the hallowed Hall of Fame is in excellent company. He made all the right noises to 'celebrate' his induction, including saying it was something he would 'cherish forever'

BCU convocation: Farmer's daughter, 52-year-old MA French graduate among gold winners

Anusha S.

Lichumthung Kikon

Priya Bhalachandra

The Hindu Bureau
BENGALURU

Anusha S., an Msc Chemistry student from Central College, will be awarded the most gold medals (five) during the fourth convocation ceremony of Bengaluru City University (BCU) on Wednesday.

Her father is a farmer and her mother works in a garment factory. Everyday, she travelled for two hours one-way from her house in Electronics City to college. "Some days I would have labs until 5.30 p.m. and it would take at least two hours to get home after that. Studying in a government college, I thankfully did not face any financial difficulties," Ms. Anusha said. She scored a CGPA of 8.4 in her course and wishes to pursue a PhD.

French at 52

Priya Bhalachandra, a 52-year-old working woman who took a break to pursue her MA degree in French at Central College, is among the graduating students and she secured two gold medals. She had obtained a score of 72.8%. "I would like to teach French in the university and hopefully enroll for a PhD programme," she said about her future plans.

There is also Lichumthung Kikon, a student from Nagaland, who has won two gold medals in Masters of Hotel Management. He came to Bengaluru in 2022 to pursue MTTM in The Oxford College of Hotel Management. He secured 71% and he plans to write the Nagaland public service exam.

Degrees

A total of nine PhD, 7,285 postgraduate, and 32,486 undergraduate students will receive their degrees during the convocation ceremony.

"A total of 64 students will receive the rank certificates, gold medals and cash prizes during the convocation. Out of 41 gold medals instituted by the university, 36 gold medals and cash prizes will be awarded to postgraduate students and five gold medals and cash prizes will be awarded to undergraduate students In addition to the gold medals instituted by the university, the students will also receive 16 gold medals instituted by donors," said K.R. Jalaja, Vice-Chancellor of BCU addressing a press conference on Tuesday.

Governor Thaawarchand Gehlot will preside over the convocation while Justice P.B. Bajanthri, judge, The High Court of Judicature at Patna, Bihar will deliver the convocation address.

NMC yet to give nod for enhancing medical seats

Department of Medical Education submitted a proposal to the National Medical Commission this March to increase 800 MBBS and 700 PG medical seats for Karnataka

Jayanth R.
BENGALURU

The National Eligibility-cum-Entrance Test (NEET-2025) results will be out in a few days, and this time, the Karnataka Examinations Authority (KEA) has made preparations to conduct the Common Entrance Test (CET-2025) and NEET counselling simultaneously for admission to various professional courses, including medical and engineering.

However, even though the deadline given by KEA has expired, the Department of Medical Education (DME) has not submitted the medical seat matrix.

It has been learnt that the reason for the delay is that the National Medical Commission (NMC) has not yet given permission for the enhancement of undergraduate (UG) and postgraduate (PG) medical seats in the State's medical colleges for 2025-26.

The DME had submitted a proposal to the NMC in March 2025 for the enhancement of a total of 800 MBBS and 700 PG medical seats for the State. However, even after three months of submitting the request, permission has not been granted for the seat enhancement.

Attentive: Students at Bangalore Medical College and Research Institute. FILE PHOTO

The last date for submitting the seat matrix was June 4, 2025.

The Technical Education Department has submitted the seat matrix, according to which a total of 69,717 government quota engineering seats are available for 2025-26. This year, there has been an increase of 7,650 (11.9%) engineering seats, all of them Computer Science and related courses.

Tentative seat matrix

However, the DME has already prepared a tentative medical seat matrix for 2025-26, including the number of additional seats proposed in the request submitted to the NMC and the seats available in government medical college proposed to be established in Ramanagara and the Farookh Academy of Medical Education in Mysuru starting this year.

There are a total of 71 medical colleges in the State, out of which 12,395 MBBS seats will be available this year. In addition, 3,355 dental seats are available in 45 dental colleges, 39,595 BSc Nursing seats in 650 nursing colleges, 16,441 Allied Health Sciences seats in 202 Allied Health Sciences Colleges, and 5,710 seats in 120 Physiotherapy colleges.

In addition, 4,027 PG medical seats are available in 47 postgraduate medical colleges, 846 MDS seats in 31 postgraduate dental colleges, 4,772 seats in 204 postgraduate nursing colleges, 1,217 seats in 43 PG allied health sciences colleges, and 819 seats in 41 PG physiotherapy colleges.

Speaking to *The Hindu*, B.L.Sujatha Rathod, director, Directorate of Medical Education said, "It is not known why the NMC is delaying the increase in seats in medical courses. Already, the NMC has served show-cause notices to 22 government medical colleges and several private medical colleges that are facing problems, including non-appointment of necessary faculty. We have given an appropriate response to the NMC in this regard. So, we are hoping that we may get permission to increase the UG and PG medical seats before the NEET results. The matrix will be submitted as soon as the NMC gives permission."

25 children escape after school bus overturns

The Hindu Bureau
BENGALURU

As many as 25 children escaped with minor injuries after a bus belonging to a private school overturns after colliding with another bus near Madawara junction on the outskirts of the city on Tuesday.

The bus, belonging to Delhi Public School, was heading to the school after picking up the children. The driver was allegedly speeding and crashed into another bus. Passers-by pulled out all the children to safety. The Madanayakanahalli police, with the help of a crane, moved the bus away to the side. The police called the parents to update them about the incident.

The police have detained the driver and subjected him to medical examination.

IIMB gets top ranking in Positive Impact Rating 2025

The Hindu Bureau
BENGALURU

IIM-Bangalore has been ranked among the world's leading business schools in the 2025 edition of the Positive Impact Rating (PIR). The Institute secured a Level 5 'Pioneering School' position with a PIR score of 9.3 out of 10, surpassing the global average of 7.8.

The Positive Impact Rating assesses a business school's contribution to societal progress and global good. It was initiated by a coalition of business school experts and is governed by a Swiss association. It is supported by founding endorsers, including WWF, Oxfam International, and the UN Global Compact Switzerland, with funding from VIVA Idea and the Institute for Business Sustainability (IBS).

Across PIR's seven core impact dimensions, IIMB delivered strong scores with Governance (9.42), Culture (9.32), and Public Engagement (9.29). Additionally, the institute recorded high scores in Programs, Learning Methods, Student Support, and Institute as a Role Model.

"Over the last decade, IIMB has steadily deepened its engagement with the principles of sustainable, responsible business. Our efforts have been deliberate and in close alignment with the institute's mission to create value for business, government, and society. It is encouraging to see that these efforts are recognised through consistent leadership across all impact dimensions," said Rishikesha T. Krishnan, Director, IIMB, commenting on the achievement.

A file photo of Indian Institute of Management Bangalore

The sixth edition of the PIR saw a record participation of 86 business schools across 28 countries. Notably, this year's rating introduced a Faculty Survey alongside the student assessment, offering a dual-stakeholder perspective and a comparative view of how both students and faculty perceive their institution's commitment to societal impact.

Expedite work to fill potholes: BBMP chief

The Hindu Bureau
BENGALURU

Following rain forecast for Bengaluru by the India Meteorological Department, Bengaluru, chief civic commissioner M. Maheshwar Rao reviewed rain preparedness in the city on Tuesday and instructed civic officials to prioritise filling potholes and monitor flood-prone areas.

Directing officials to expedite the filling of potholes, Mr. Rao asked officials to prioritise arterial and sub-arterial roads and complete pothole repair work. He also asked officials to use cold mix to fill potholes during the rains.

"Work on roads identified for asphalting must be completed swiftly to ensure smooth vehicular movement," he said.

Mr. Rao also said: "With heavy rainfall predicted, special attention must be given to flood-prone zones. Any existing issues in such areas must be addressed with permanent solutions to avoid disruptions."

He directed civic officials to install water pumps permanently in flood-prone Sai Layout. "A jackwell has already been constructed by the Bangalore Development Authority to pump out water, and the BBMP has been instructed to permanently install pumpsets in the area to prevent flooding. Additionally, officials have been directed to expedite the completion of railway vent works," he said.

Sensitive German experiment sets new limit on maximum neutrino mass

KATRIN closely observes the disintegration of tritium to estimate neutrino mass; it focuses on maximum energies of electrons emitted; these energies carry information on mass value to set the latest constraint; KATRIN collected data from 36 million electrons; the experiment is the latest in a long history of similar attempts which began in 1991

Nirmal Raj

The city of Deggendorf in Germany is about 350 km by road from Karlsruhe. Yet when the spectrometer of the Karlsruhe Tritium Neutrino Experiment (KATRIN) was constructed in Deggendorf in 2006, it took an 8,600-km detour to Karlsruhe. Of this, only 7 km was by land, transported on a truck with great care and police protection.

For the rest of its journey, it floated on the Danube, the Black Sea, the Mediterranean Sea, the Atlantic Ocean, and the Rhine. Such elaborate measures had to be taken because the spectrometer – the core instrument of the experiment – was a 200-tonne affair, making land transport dangerous.

Why make such a massive detector? For that is what it takes to attempt to determine the mass of the hardest-to-detect subatomic particle in the universe: the neutrino. Recently, the KATRIN collaboration published an upper limit on the sum of the masses of the three known neutrino types using 259 days of measurements recorded across five data-taking runs between March 2019 and June 2021.

The collaboration said that this sum couldn't exceed 8.8 x 10^{-7} times the heft of the electron – a 2x improvement on the previous best constraint. This is a significant feat.

When the spectrometer for KATRIN was constructed in Deggendorf in 2006, it took an 8,600-km detour to Karlsruhe. KATRIN COLLABORATION/KIT.EDU

One puzzle after another

Physicists are so keen to study neutrinos because since their discovery in 1938, these particles have confronted them with one puzzle after another about nature. Here are some central questions pertaining to neutrinos' masses that drive research today.

1. How much does a neutrino weigh? Neutrinos come in three types. It has been established, through a phenomenon called particle oscillations, that at least two types of neutrinos have more than zero mass. It was an experimental triumph so intricate with profound theoretical implications that the physicists who led the discovery teams won the 2015 Nobel Prize for physics for making such a seemingly diminutive observation.

Unfortunately, particle oscillations can only measure the differences in the squares of the neutrino masses, not the masses themselves.

Measuring the actual masses is more challenging. This is what sophisticated devices like KATRIN are designed to attempt.

2. A neutrino's mass is so small that in almost every situation it travels nearly at the speed of light (a particle that does travel at the speed of light, the photon, is massless). It is this unbearable lightness that makes their weight difficult to pinpoint in an experiment. Also, physicists don't understand why neutrinos are so light.

3. In the Standard Model – the current best framework scientists have to explain the ways particles interact with each other – there is no way to theoretically confer masses to neutrinos. Said differently, neutrinos are *predicted* as massless, in conflict with the Nobel-winning oscillation data. This implies the presence of new, hitherto unseen forces and particle species in new Nature - the clearest index yet that something lurks beyond the Standard Model. What is that something?

4. Are neutrinos their own antiparticles? They certainly fit the bill. The antiparticle of a particle type carries opposite charge, so the first criterion for a self-conjugate particle is that it must be electrically neutral – which neutrinos are. As far as physicists can tell, it's also an elementary particle. This is unlike, say, a neutron, which is electrically neutral but composed of charged quarks. As antiquarks are distinct from quarks, an antineutron is distinct from a neutron.

To seal the deal, physicists need to confirm a third requirement: whether the neutrino has a Majorana mass or a Dirac mass. These terms refer to the

Cosmologists use the fact that neutrinos are key actors in shaping galaxies to set a tighter upper limit on the sum of the neutrino masses at 1.4 x 10^{-7} times the electron mass. This however relies on assumptions about the evolution of the early universe that are hard to test

mechanism by which a neutrino gets its mass: if it follows the Majorana process, then a neutrino would be confirmed to be its own antiparticle. To settle this, physicists are looking for a very delicate natural process called neutrinoless double beta decay: one way that it can occur requires two neutrinos to mutually annihilate themselves.

However, a neutrino is dreadfully hard to catch. Any material used as a detector would be nearly transparent to it. It takes, for instance, a light year's length of metal to stop a single neutrino emitted by the sun. Such elusiveness is why the neutrino took so long to be discovered.

A significant achievement

KATRIN itself closely observes the disintegration of molecular tritium to estimate the neutrino mass. In particular, it focuses on the maximum energies of electrons emitted when tritium decays; these energies carry information on the mass of the neutrino. To set the latest constraint, KATRIN collected data from no fewer than 36 million electrons.

The experiment's feat is also the latest in a long history of similar attempts – beginning in 1991 in Los Alamos in the US and Tokyo, which set a cap on the neutrino mass that was about 20-times weaker than the new KATRIN result.

KATRIN is also not the sole player in the game. For example, observational cosmologists use the fact that neutrinos are key actors in shaping the structure of galaxies to set a tighter upper limit on the sum of the neutrino masses at 1.4 x 10^{-7} times the electron mass. This limit, however, relies on assumptions about the evolution of the early universe that are hard to test, weakening the validity of the conclusions drawn.

Another kind of experiment that can make a statement on neutrino masses makes use of the neutrinoless double beta decay – but this experiment also assumes neutrinos are self-conjugate at the outset.

The KATRIN result, on the other hand, is robust because it rides on no such assumptions. That is a significant achievement to savour in the face of an opponent as formidable as the neutrino.

QUESTION CORNER

A question of gravitas

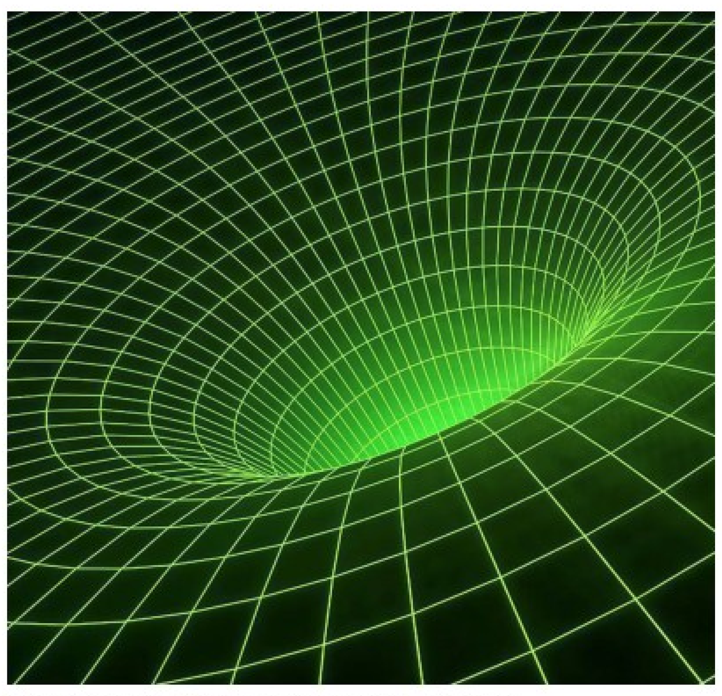
The Hindu Bureau

Q: What is the origin of gravity?

A: For a long time, people wondered what makes the planets go around the sun and why anything thrown up comes down. The English scientist Isaac Newton probed the origins of this mysterious force and came up with the laws of gravitation.

According to these laws, which we would have learnt in school, the force acting between two objects depends on their masses and the distance between them. The mathematics of the laws suggested that the origin of gravity was the object itself. That is, by virtue of its own mass any object may have an influence on another (massive) object. But in his final analysis Newton concluded that massive bodies gravitated at all because god had deemed it so. It wasn't until Albert Einstein published his general theory of relativity that scientists acquired a clearer picture of gravity's origins.

According to this theory, gravity is a property of space and time taken together (to be exact, of four-dimensional spacetime). It isn't technically a force that causes objects to move one way or another.



Gravity is a property of spacetime. JOHNSON MARTIN/UNSPLASH

Instead, the presence of energy and momentum in a region of spacetime has the effect of deforming spacetime there (like when you lay your head on a pillow). Objects moving there may seem to have been deflected from their straight path by a force. This is gravity.

Stampede: Why were senior police officers not arrested, ask RCSPL, DNA executives

Division Bench of HC adjourns further hearing in the stampede case till tomorrow as the Advocate-General seeks time to reply to the nine questions posed to the State government

The Hindu Bureau
BENGALURU

Why were the senior police officers, *prima facie* found guilty of dereliction of duty and placed under suspension, and Chief Minister's Political Secretary, who was removed from the post, not arrested by the police in connection with the June 4 stampede outside M. Chinnaswamy stadium?

This question was asked before Justice S.R. Krishna Kumar of the High Court of Karnataka on Tuesday by senior advocate representing four arrested persons, associated with the Royal Challengers Sports Private Limited (RCSPL), which owns RCB team, and DNA Networks Pvt Ltd, which is the official event manager for RSCPL, during the hearing of the petitions questioning the legality of their arrest.

No documents given

On what basis have the police arrested Nikhil Sosale, Head (Marketing and Revenue), RCSPL; Sunil Mathew, Director, and Kiran Kumar, Event Manager of DNA; and Shamant N.P. Mavinakere, a freelancer with DNA, asked Senior Advocate Sandesh J. Chouta while pointing out that no documents as per the law were given to them.

Neither the names of the petitioners were found in the FIR nor the roles of these four persons were narrated in the remand applications produced before the jurisdictional court, Mr. Chouta argued, questioning why the Government did not order the arrest of senior police officers even after finding them *prima facie* guilty of dereliction of duty when 11 persons died due in stampede.

Meanwhile, Advocate-General Shashi Kiran Shetty, who was on June 9 asked by the court to inform whether the Chief Minister had made a statement to the media that he had ordered arrest of officials of RCB and others, sought time till Wednesday to reply to the court's query and to the arguments put forward on behalf of the arrested persons. The court had asked A-G to confirm on Chief Minister's statement as the petitioners claimed that their arrest was solely on the Chief Minister's directions, which was illegal.

Managing crowd: A policeman tries to control RCB fans outside the M. Chinnaswamy Stadium on June 4. K. MURALI KUMAR

Suo motu case

Meanwhile, a Division Bench, comprising acting Chief Justice V. Kameswar Rao and Justice C.M. Joshi, which on June 5 took *suo motu* cognisance about the death of 11 persons in the stampede, adjourned further hearing till Thursday as the A-G took time reply to the nine questions posed to the State government by the Bench.

Mr. Shetty said that he would file reply to the court in a sealed cover while contending that disclosure of certain aspects of government's reply could be made use of by persons arrested to seek bail. The A-G claimed that the information given to the Bench on June 5 that probe of the stampede cases were transferred to the CID was being used by arrested persons to challenge legality of their arrest.

BJP to launch campaign against Congress govt.

The Hindu Bureau
BENGALURU

The Opposition BJP has decided to launch a Statewide protest campaign against the Congress government by involving the family members of those who lost their lives in the stampede at the M. Chinnaswamy Stadium during the RCB victory celebrations. The party has also demanded the resignation of Chief Minister Siddaramaiah and Deputy Chief Minister D.K. Shivakumar on moral grounds.

As part of the campaign, the BJP has decided to hold a protest against the alleged failure of the government, at Freedom Park in Bengaluru on June 13.

BJP State president B.Y. Vijayendra said the family members of the victims, as well as those pained by the tragedy, would participate in the protest along with party workers in the city.

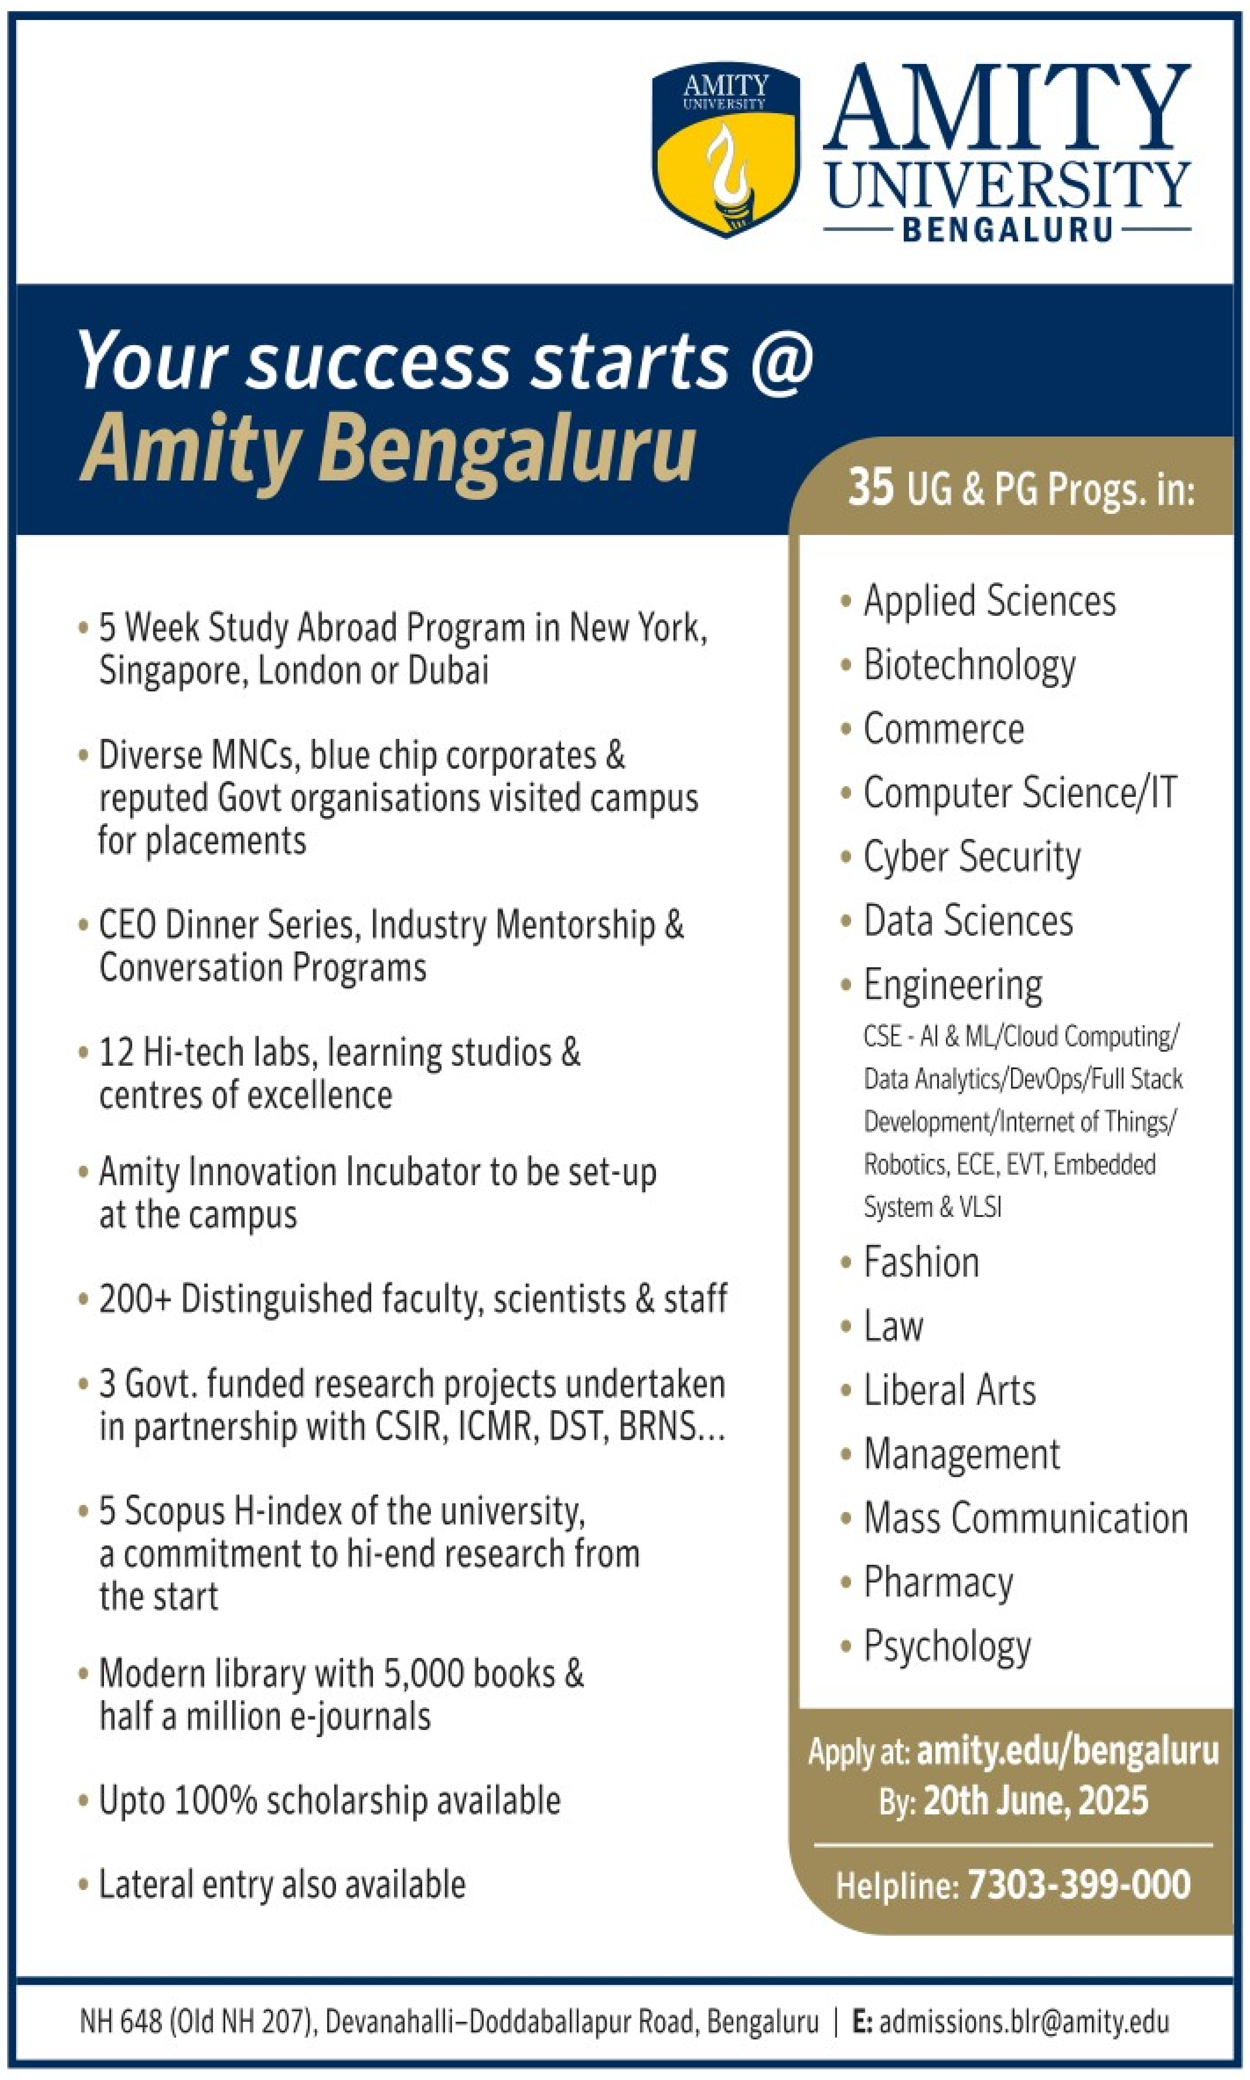
Accusing the government of bungling the felicitation preparations, he maintained that the Chief Minister and the Deputy Chief Minister should be considered as "accused-1 and accused-2", respectively, in this case, while Home Minister G. Parameshwara should be "accused-3".

Meanwhile, Leaders of the Opposition in both Houses of the legislature R. Ashok and Chalavadi Narayanaswamy visited the house of Bhoomik, who died in the stampede, in Hassan and tried to console his father.

Man arrested for harassing women

BENGALURU: The Pulakeshinagar police on Tuesday arrested a 36-year-old unemployed man from Banasawadi for allegedly sexually harassing a 28-year-old advocate and another woman on Friday evening.

Based on a complaint, the police registered an FIR against the accused, identified as Madan.



Police detain Vatal Nagaraj for protesting

The Hindu Bureau
BENGALURU

The Vidhana Soudha police on Tuesday detained Kannada activist Vatal Nagaraj after he, along with his supporters, marched to the Raj Bhavan protesting against the government's handling of the stampede incident.

Mr. Nagaraj walked to the Raj Bhavan but was stopped by the police and taken to the police station from where he was released later. He demanded that the government increase the compensation for the victims to ₹5 crore, and condemned the government's decision to suspend police officials.

"The permission to celebrate both at the Vidhana Soudha and at the stadium was granted by the government. I want to ask them, before deciding on the celebrations, did you consult the senior police officers - no you didn't. You should be the one to take the responsibility for this," Mr. Nagaraj said.

Congress high command 'reprimands' CM, Dy. CM

The Hindu Bureau
BENGALURU

The Congress high command has reportedly reprimanded Chief Minister Siddaramaiah and Deputy Chief Minister D.K. Shivakumar, asking what was the State government's need and urgency to hold the felicitation function, that too without adhering to norms, for Royal Challengers Bengaluru (RCB).

With public anger appearing to be building up against the government and the matter pending before the High Court of Karnataka, the high command told both the leaders that there should be "a clear-cut pro-people attitude on the issue" to repair the dented image of the government.

The high command summoned both leaders to Delhi after the June 4 stampede during the RCB's victory celebrations outside the M. Chinnaswamy Stadium that claimed 11 lives and left 56 injured.

Both Mr. Siddaramaiah and Mr. Shivakumar, who is also the KPCC president, on Tuesday presented an action-taken report before Congress president Mallikarjun Kharge, senior leader Rahul Gandhi, and AICC general secretaries K.C. Venugopal and Randeep Singh Surjewala.

The party's central leaders reportedly chastised Mr. Siddaramaiah and Mr. Shivakumar for holding the felicitation event "in a hurry", according to party sources. The central leaders apparently told both State leaders not to take "hasty decisions" in the future which would embarrass the party.

Briefing the media after the meeting, Mr. Venugopal said the Congress leadership also discussed the current political situation and other issues, including the stampede. "Certainly, we are very much concerned about every human life. An unfortunate incident has happened. The government of Karnataka has already ordered a judicial inquiry to find out what exactly happened," he said.

The Congress government has faced sharp criticism from the BJP and the JD(S), with both parties holding the Chief Minister and his deputy directly responsible and demanding their resignation. They have also sought a special Assembly session to discuss the incident.

The government suspended five senior officers, including Bengaluru Police Commissioner B. Dayananda, for "substantial dereliction of duty," and also transferred ADGP, intelligence. Mr. Siddaramaiah also removed his Political Secretary K Govindraj, MLC, and cases have been registered against representatives of RCB, DNA and KSCA.

The government has constituted a one-man commission of retired high court judge Justice John Michael D'Cunha to probe the incident.

Two held in digital arrest case

The Hindu Bureau
BENGALURU

Following the digital arrest case of a 75-year-old retired engineer, the South-East cybercrime police arrested two men, including an industrialist from Hyderabad, who allegedly received the money in their bank accounts. The police also exposed the link of a casino in Sri Lanka to the cyber fraud which is being probed in detail.

The accused according to the police trapped the victim, posing as CBI and ED officials, and threatened to book him for money laundering three months ago, and forced him to pay ₹4.7 crore over a period of time. The accused even forced him to share property documents which they tried to use as collateral to get personal loans.

Tip-off

The police, based on a tip-off from their Chennai counterparts, approached the victim, who was unaware of the scam and was transferring the money to different accounts.

He had recently transferred ₹10 lakh to the account belonging to the driver of Ishwar Singh, a Hyderabad-based businessman.

Based on the information, a police team tracked down Ishwar Singh who confessed that he had gone to Sri Lanka to gamble in the casino with ₹25 lakh.

After losing ₹15 lakh, he returned to Hyderabad and asked for a refund for the rest of the money from the accused in the casino. The accused asked the victim posing as CBI officials to transfer the money to Ishwar. "He was unaware that the money he received is part of a cyber crime," a police officer said, adding that the money has been seized and returned to the victim.

Meanwhile, the police also detained Ramnarayana Choudhary, an industrialist from Hyderabad, whose account the accused had used to transfer the money. The police found that Choudhary received ₹1.8 crore in his account which was later transferred to different accounts in Guntur and Vishakhapatnam.

People warned

The police said that both Choudhary and Singh were unaware that the money they had received in their accounts belonged to cyber crime. The police have warned people not to share their bank accounts with anyone, while a probe is on to track down the accused and expose the links of cyber frauds and casino in Sri Lanka, said Sarah Fathima, DCP (South-East division).

Erdogan's neo-Ottoman foreign policy

Under President Recep Tayyip Erdogan, Ankara has pursued an Islamist-leaning foreign policy aimed at building stronger ties with Muslim-majority countries. However, being aware of Türkiye's limitations, he has mixed Islamist ideology with pragmatism

WORLD INSIGHT

Stanly Johny

Türkiye, a long-standing Cold War ally of the West, has significantly expanded its presence and influence across West Asia and the Caucasus in recent years. Under President Recep Tayyip Erdogan, Ankara has pursued an Islamist-leaning foreign policy aimed at building stronger ties with Muslim-majority countries and repositioning Türkiye as a regional power – all while maintaining its alliance with the Western bloc. The rise to power of the Islamist Hayat Tahrir al-Sham (HTS) in Syria has helped Ankara expand its reach close to the Israeli border. Türkiye already maintains a military presence in Qatar, the rich Sunni Gulf kingdom, underscoring its growing strategic footprint in the region.

During the recent flare-up between India and Pakistan, Türkiye stood by Islamabad. Is this blend of Islamism with a pro-Western tint helping Türkiye remake itself in a volatile world?

Erdogan's era

When the Republic of Turkey was established in 1923 on the remains of the Ottoman Empire, the country's new rulers adopted sweeping reforms aimed at democratising polity, secularising society and conciliating foreign policy. Mustafa Kemal Ataturk, founder of modern Türkiye, adopted a 'peace at home, peace in the world' foreign policy. After the Second World War, Türkiye joined the western bloc. Its geographical location as a Black Sea basin country with access to West Asia, the Mediterranean and the Caucasus made Türkiye a strategically important ally for NATO. All Turkish leaders, both military dictators and elected leaders, followed this establishment consensus on foreign policy – until the rise of the Islamists.

Mr. Erdogan's AK Party (Adalet ve Kalkınma Partisi) that came to power in 2002 also followed this path in the initial years. The AKP came to power after years of political and economic instability, and Mr. Erdogan's immediate focus was to stabilise the economy. Mr. Erdogan, then Prime Minister, sought close cooperation with the U.S. and integration with the European Union. In the immediate aftermath of the U.S.'s illegal invasion of Iraq in March 2003, Mr. Erdogan wrote in *The Wall Street Journal* that "My country is your faithful ally and friend".

Türkiye would take a more ambitious foreign policy turn in the early 2010s – with the onset of the Arab Spring protests to be precise.

Ideological and historical roots

Ittihad-i Islam (Unity of Islam) was a declared foreign policy doctrine of the Ottoman Sultan Hamid II who reigned from 1876-1909. During this period, Constantinople sought Muslim unity against enemies in the West. The Islamists in Kemal's Türkiye, who were more or less politically marginalised until the rise of the AKP, had always advocated for stronger ties with Muslim nations. Before Mr. Erdogan's rise, perhaps the most influential Islamist voice in Türkiye's politics was that of Necmettin Erbakan (1926-2011). Erbakan, who had served as Prime Minister briefly in 1996-97 and was later banned from politics by the Constitutional Court for violating the country's secular laws, argued that Türkiye should protect its religious values, build closer relations with Muslim

A different path: Turkiye President Tayyip Erdogan at a news conference in Ankara, in 2021. REUTERS

countries and combat western imperialism. For him, the European Union was "a Christian club". Erbakan formed different political parties (of which the Welfare Party was the most prominent one) but never managed to break through Türkiye's political and foreign policy consensus.

When the Welfare Party was banned, Islamist politicians formed the Virtue Party in 1997. One of the leaders of the Virtue Party was Recep Tayyip Erdogan. The AKP was formed in 2001 after the Virtue Party was found unconstitutional. In the 2002 election, Mr. Erdogan did what Erbakan couldn't – he brought the Islamists to power. It was only a matter of time before the AKP turned to Erbakan's foreign policy doctrine.

From theory to practice

"The people's calls and their most humane demands" must be paid attention to, Mr. Erdogan said in February 2011 amid a mass uprising in Egypt against the rule of Hosni Mubarak. By openly backing the protesters, Mr. Erdogan risked unsettling Türkiye's relationship with Arab countries. But when the Mubarak regime fell, Türkiye suddenly found strategic depth in its new approach, and it started seeing street protests in Arab countries as a vehicle for ittihad-i Islam. Then Foreign Minister Ahmet Davutoglu put this policy tilt in a historical perspective in March 2011, saying the mass protests could break "the template drawn by Sykes-Picot" (the Sykes-Picot Agreement was a treaty between the U.K. and France in 1916 where it was decided to divide the territories of the Ottoman Empire following World War I) and bring power to the parties "that truly represent the people" of the region. Türkiye started backing these parties, hoping that their revolutionary ascent could open corridors of influence for Ankara in a region which was ruled by the Ottomans for hundreds of years.

When the Muslim Brotherhood, another Islamist party with which the AKP shares ideological and political similarities, came to power in Egypt, Mr. Erdogan's doctrine was put to practice. When protests broke out in Syria in 2011 against the regime of President Bashar al-Assad, Türkiye backed anti-Assad groups – first the Free Syrian Army and then different Islamist outfits. In Libya, which was divided between two governments – one based in Tripoli in the west and the other in Tobruk in the east – Türkiye supported the Tripoli government dominated by Islamist groups, including the Muslim Brotherhood, after the Gaddaffi regime was toppled by a NATO invasion in 2011.

Assertive yet pragmatic

Mr. Erdogan did not blindly follow ittihad-i Islam. He mixed his Islamist ideology with pragmatism. He was aware of Türkiye's limitations.

It is no longer the Caliphate and doesn't enjoy any politico-religious command over the Muslim world. Geographically, it is only a fraction of what used to be the Ottoman Empire. It is also a treaty ally of NATO. It hosts several Western military bases, including U.S. nuclear weapons at Incirlik. While Mr. Erdogan was ready to risk some friction in Türkiye's ties with the West, he was cautious not to lead those frictions to a break. At the same time, he saw Türkiye's support for Islamist groups as an opportunity to rebuild the country's influence in the Islamic world.

Syria is a case in point. When Mr. Assad, backed by Russia and Iran, started turning the tide of the civil war in 2016, Türkiye offered protection to the HTS, the anti-Assad Islamist group that had taken over Idlib. HTS was formerly Syria's al-Qaeda branch. But Türkiye strongly opposed any military action against HTS. It entered into an agreement with Russia to maintain order on the Turkish-Syrian border. It carved territories on the border, creating a buffer between the Turkish Kurdish regions and the Syrian Kurdish province. And in November 2024, when the Syrian regime was reeling under repeated Israeli strikes, HTS launched an offensive and captured Damascus within 12 days. This further raised Türkiye's profile in West Asia.

Azerbaijan is yet another example. When Armenia and Azerbaijan went to war in 2023, Türkiye backed Azerbaijan against Armenia, a Russian treaty ally. When Russia, preoccupied with its own war in Ukraine, was unable to help Armenia, Azerbaijan, with Turkish support and Turkish-made drones, made quick gains. Türkiye supplied drones to Ukraine, but refused to enforce sanctions on Russia. Its decision to buy Russia's S400 missile defence system had irked Washington. But Mr. Erdogan managed to reset ties and extract concessions from the U.S. when he supported the accession of Sweden and Finland into NATO.

Mr. Erdogan has thus been playing a tricky game – balancing between the West and its rivals through traditional diplomacy, while at the same time reasserting itself in the Muslim world using Islamist foreign policy.

Formidable challenges

While Türkiye's geographical location, its membership in NATO and its Islamist foreign policy allow the country to portray itself as a major force, its Achilles heel is the economy. Mr. Erdogan, who delivered on the economic front in the first decade of his rule, has ever since struggled to keep the ship afloat. Türkiye has experienced a prolonged period of hyperinflation, and the Turkish lira has depreciated significantly in recent years. Amid high inflation and high unemployment, social unrest has spread, frequently leading to violent crackdowns. Mr. Erdogan, who changed the Constitution turning Türkiye's political system into an executive presidency from parliamentary democracy, has amassed huge powers in his own hands. He has suppressed political opponents, independent media, and other voices of dissent. Earlier this year, Turkish authorities arrested Ekrem Imamoglu, the popular Mayor of Istanbul, who is the opposition's candidate for the 2028 presidential election, which Mr. Erdogan can't contest under the current Constitution.

While on the foreign policy front, Mr. Erdogan's bets have paid tactical results as of now, it is to be seen how Türkiye is going to build on these gains for long-term strategic dividends. True, the regime change in Syria is a huge advantage for Ankara, but Syria is far from being stable. So is Libya, where violence resurfaces frequently. In the Gulf, Qatar is Türkiye's powerhouse partner. While Ankara has improved ties with Saudi Arabia and the UAE in recent years, old mistrust still lingers. And in the Caucasus and the Black Sea, Türkiye will have to take Western and Russian sensitives into consideration in its foreign policy decisions. Its support for Pakistan provides Ankara some legroom in South Asia, but Türkiye remains an insignificant player in the subcontinent.

While Türkiye seeks to expand its strategic footprint in different directions, with a neo-Ottoman tilt and within the framework of the western security umbrella, it also risks turning itself into an authoritarian Islamist regime with a weak economy and political instability.

KEYWORD

Thirdspace: how spaces are experienced and remade

Thirdspace tells us that space is not just something we live in; it's something that lives in us. It's where everyday lives play out in all its contradictions. It is also where marginalised communities resist dominant narratives

Rebecca Rose Varghese

Have you noticed how in cities, we see places like Chinatown, Afghan Street, or Bengali corners? These are not the official names of those places, but the moment you enter them, you notice how different they are from the formal city around them. They are culturally vibrant and largely built by and for communities that don't belong to the region or country where the city exists. Such spaces, rich with life and meaning but unaccounted for in maps, are best understood through the concept of Thirdspace.

Thirdspace tells us that space is not just something we live in; it's something that lives in us. Shaped by emotion, identity, power, and resistance, it urges us to see how places such as street corners or protest sites are far more than physical locations. They are lived, remembered, and reimagined.

This concept was introduced by Edward Soja in his book *Thirdspace: Journeys to Los Angeles and Other Real-and-Imagined Places* (1996), which builds on the influential work of French philosopher Henri Lefebvre in *The Production of Space* (1974). Soja expands Lefebvre's idea of spatial triad into what he calls the trialectics of spatiality – a way of seeing space through three interrelated dimensions: Firstspace, Secondspace, and Thirdspace.

Trialectics of spatiality

A city can be measured by its buildings or population density. That's one kind of spatial understanding. But if you think about who planned the city, where certain communities live, and how zoning laws shape who belongs where, you're entering another kind of understanding. Finally, if you ask people how they live, remember, or resist in those places, you will have, yet again, a different understanding of space.

Firstspace (the perceived physical space) refers to the material space we can touch, measure, and map. It includes roads, buildings, parks, rivers, and railway tracks; everything you can record with data. While it seems neutral or objective, it is anything but. The physical placement of slums at city margins or the clustering of communities by religion or caste reflects histories of power and inequality. Firstspace is the focus of statistics, maps, and urban planning. And while it tells us what is there, it doesn't always explain why or for whom it was built.

Secondspace (the conceived ideological space) is how space is imagined and controlled by those with power, including urban planners, governments, and developers. This space is created in blueprints, master plans, zoning laws, and design philosophies. It reflects ideological visions about what space should be. For example, a city plan may declare a neighbourhood as a "commercial zone" or mark certain areas as "unsafe." These decisions are not just technical, they reflect values, biases, and priorities. Colonial maps, gentrification projects, and housing segregation are all examples of Secondspace at work.

Thirdspace (the lived and experienced space) is where people actually live, remember, resist, and build meaning. It blends the physical (Firstspace) and the imagined (Secondspace) and goes beyond them. It's not something you can fully map or plan. Think of a government-assigned refugee colony, perhaps originally called First Main Street, where Afghan migrants live. It was not designed to be anything more than a housing zone. But over time, it transforms into a cultural hub – for instance, a street market during Eid, a place of music, food, and memory. The community itself brings meaning to the place and transforms it. That transformation, that layering of emotion, identity, and politics, is Thirdspace.

GETTY IMAGES

Space and identity

Thirdspace resists easy definition because it's always changing. It's where everyday lives play out in all its contradictions. It is also where marginalised communities, women, and migrants, assert their presence and resist dominant narratives.

Thirdspace gains even more significance when we add the lens of identity, particularly race, class, and gender. Feminist thinkers like Bell Hooks, Doreen Massey, and others have shown us how space is gendered and politicised. Who is allowed in public parks after dark? Why are urban layouts often built around male mobility and safety?

Bell Hooks speaks of the margin not as a place of exclusion, but as a space of resistance and imagination. Feminist perspectives stress intersectionality, urging us to see how gender, race, and class interact within lived experience. Through this lens, Thirdspace becomes a powerful way to understand not just how space is used, but who is erased or included in that usage.

Space in the urban

Although Soja focused primarily on urban contexts, Thirdspace is not exclusive to cities. It can be found wherever people live, resist, and negotiate meaning. A village square, for instance, may serve as a physical space for gatherings (Firstspace), a symbolic centre of tradition and hierarchy (Secondspace), and a site where local customs, gender roles, generational conflicts, and collective memory intersect (Thirdspace). Here, people meet not just to conduct rituals, but also to contest them, reinterpret them, and forge new relationships.

However, Soja emphasises urban contexts because cities are not only where tensions between the three spatialities become the most visible, it is also where they are most resisted. Urban spaces are sites of intense planning, regulation, surveillance, and segregation, making them ideal grounds to study how the 'experience' of space often diverges from its physical form. Cities are also where diverse populations collide, informal economies thrive, and where protest and public culture becomes visible. These layered realities are precisely what Thirdspace seeks to capture.

Think of Greenwich Village in New York. On one level, the village has an 18th-century street pattern and is designated as a historical district, which imposes strict regulations on renovation and physical alterations (Firstspace). It is also home to two major colleges, and urban planners and architects could have long imagined it as a historical and educational hub (Secondspace). Finally, with the presence of the Stonewall Inn, widely recognised as the birthplace of the LGBTQ+ rights movement, the area carries deep emotional, symbolic, and cultural significance. It is associated with hipster culture, Pride, and histories of resistance. (Thirdspace).

Urban theory often leans too heavily on what can be mapped. What Thirdspace brings in is experience. It asks urban planners to understand how space is felt, not just designed. It values murals, street protests, informal markets, things that don't show up in satellite images but define the urban experience.

Resisting non-places

To understand Thirdspace better, it helps to compare it with Marc Augé's idea of "non-places." Non-places are the product of supermodernity – airports, malls, highways, and hotel rooms. These are spaces designed for functionality and transience. You pass through them, but they do not become part of your identity. There is no memory or belonging. They feel sterile, interchangeable, and emotionally vacant. In an airport lounge, no one asks your name. In a hotel lobby, the furniture looks identical regardless of the hotel being in Kochi or New York. These spaces are designed for movement, not memory; they value efficiency over attachment.

Soja's Thirdspace is in many ways a resistance to this flattening. It insists that even in the most alienating environments, people bring meaning. A shopping mall may be a non-place, but when local youth gather there to hang out, share music, or protest against a brand store that funds genocide, it becomes a Thirdspace. Their presence adds friction to the flow, subverts the design, and fills the space with memory, identity, and sometimes, dissent. Thus, Thirdspace not only becomes a critique of non-places but also presents itself as their potential antidote.

Thirdspace remains relevant wherever space is lived, contested, and reimagined, as it allows us to see beyond binaries. In a time of migration, digitisation, and polarisation, it offers a lens to see how we build belonging, memory, and resistance, perhaps in the most unexpected of places. It reminds us that space is never neutral. It is made and remade, and that while it may be planned by the powerful, it is lived and reshaped by the people who live, remember and resist within it. And in that living, there lies the possibility of transformation.

Know your English

K. Subrahmanian
S. Upendran

"...so what you have to do is ... Are you listening to me? Or is your mind woolgathering?"

"Woolgathering! How can you..."

"...if you don't know what it means..."

"...I know what it means. It means 'daydreaming.'"

"Good for you. So, were you woolgathering?"

"I was not woolgathering! But tell me, what is the connection between gathering wool and daydreaming?"

"Good question. I believe in the good old days sheep farmers used to hire women and children to gather wool."

"So they used to remove wool from the sheep. Is that what you're saying?"

"No. These women and children used to remove wool from trees and bushes."

"Remove wool from trees and bushes! You're joking, right?"

"I'm not. You see, when sheep graze they go into bushes, rub their backs against the trees..."

"But what is the connection..."

"...patience, my friend. When they go into the bushes, some of the wool gets caught in the bushes. And it was the job of the women and children to collect this wool."

"You mean they used to go from bush to bush and from tree to tree to see if there was any wool stuck to the branches?"

"That's right. And if there was any wool, they used to gather it."

"Going from one bush to another to gather wool! What a boring job!"

"True. All you did was to move from bush to bush. Sometimes you found wool, sometimes you didn't. It was a pretty monotonous job."

"A job where you didn't have to think at all."

"Exactly! These people didn't have to use their head at all. It didn't matter at all if they let their minds wander."

"And I suppose many of the woolgatherers daydreamed quite a bit to avoid boredom."

"They probably did. That's why woolgathering is associated with daydreaming."

"It makes sense. While we are on the subject of animals, is your boss buying the farm that you looked at last week?"

"For some reason he did a complete flip-flop on that."

"A flip-flop! What does it mean?"

"When you 'flip-flop' on something, you completely change your opinion or belief in it. It's a reversal of your earlier belief or policy."

"It sounds like something that our politicians do very often."

"Exactly! In many countries politicians do flip-flops on issues after hearing from the people."

"In our country, politicians do flip-flops after talking to multinationals!"

"And they become multimillionaires after that. Here's another example. The workers accused the management of flip-flopping."

A quiz on ICC Hall of Famers on the occasion of Dhoni's induction this year

V.V. Ramanan

QUESTION 1
The Hall of Fame was launched in 2009 in association with which body as part of the ICC's centenary year celebrations?

QUESTION 2
There were three Indians in the initial intake of 55 inductees named in the FICA Hall of Fame, which ran between 1999 and 2003. One was Sunil Gavaskar. Name the other two.

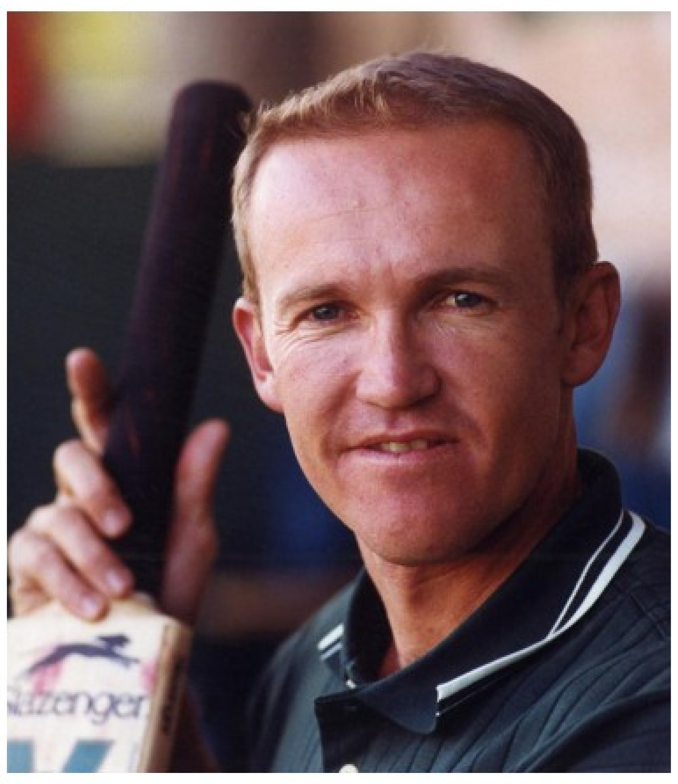
QUESTION 3
Of the 11 Indians in the elite list, two are women cricketers. Name both.

QUESTION 4
The inductees all receive a special commemorative cap. Who was the first to receive his special cap?

QUESTION 5
Who are the only siblings to get this coveted honour?

QUESTION 6
Apart from the latest Test playing nations Ireland and Afghanistan, which other Test nation has no inductees as yet?

QUESTION 7
As per the ICC website, how many players have been inducted into the Hall of Fame?



Visual question:
Name this legend, the only one from his country to make the Hall of Fame. FILE PHOTO

Questions and Answers to the previous day's daily quiz: 1. The number of series India has won playing in England so far. **Ans: Three, in 1971, 1986 and 2007**
2. India's most successful ground in England. **Ans: Lord's**
3. This player has scored the most runs for India playing in England. **Ans: Sachin Tendulkar — 1,575 runs in 17 tests**
4. The two batsmen to score a double hundred on English soil. **Ans: Sunil Gavaskar (221) and Rahul Dravid (217)**
5. This bowler took five wickets in the very first innings in the debut test played by India in 1932. **Ans: Mohammmad Nissar**
6. The only bowler to have taken 10 wickets or more in a Test match in England. **Ans: Chetan Sharma — 10/188 in 1986**
7. The only wicket keeper to effect 5 or more dismissals in an innings. **Ans: Rishabh Pant in his very first Test match in England at Trent Bridge, Nottingham in 2018**
8. The only test that these famous four cricketers played together. **Ans: Bishan Bedi, B.S. Chandrasekhar, EAS Prasanna and S. Venkataraghavan**
Visual: The only non-English cricketer to score most hundreds at Lords's. **Ans: Three centuries by Dilip Vengsarkar — 103 in 1979, 157 in 1982, 126 in 1986**
Early Birds: Tito Shiladitya| Tamal Biswas| Piyali Tuli| Sunil Madhavan| Arjun Debnath
In the answers to the quiz published on June 9, 'Venice' was also part of the answer to Question 2 which was missed out in the June 10 edition. The error is regretted.

Word of the day

Unctuous:
unpleasantly and excessively suave or ingratiating in manner or speech

Synonyms: buttery, fulsome, oily, smarmy, soapy

Usage: *He seemed anxious to make an impact but not in an unctuous way.*

Pronunciation: newsth.live/unctuouspro

International Phonetic Alphabet: /ˈʌŋ(k)t͡ʃʊəs/, /-tjʊəs/

Hebbal flyover: No relief for commuters yet as another deadline goes by

Bangalore Development Authority fixes August 15 as the revised opening date for new ramp

Jahnavi T.R.
BENGALURU

There is no relief for commuters in North Bengaluru as the additional ramp on the loop of Hebbal flyover, which connects traffic coming from K. R. Puram side to Ballari Road, will not be opened until August 15.

The Bangalore Development Authority (BDA), which is implementing the work on the flyover, has missed another deadline for the opening of the flyover. Earlier this year, the authority had said that the loop would be functional by the second week of May. According to the officials of Bengaluru Traffic Police (BTP), the flyover ramp was supposed to be ready by November 2024, and the deadline was then pushed to January, then May-June and now again, to August.

BDA officials said that while the erection of all the girders has been completed, the concretisation work is under way.

"We have completed girder erection and are now laying slabs and concreting it. The concrete will need over 20 days for curing. After that, we must do the asphalting and then put up signages and only then open it to traffic. We are hoping to complete the work by August 10 itself. But even if that does not happen, we will definitely open it on August 15," said a senior engineer of the BDA.

Work still on: The incomplete additional ramp of Hebbal flyover, specifically the loop connecting K.R. Puram side to Bangalore Baptist Hospital side. K. MURALI KUMAR

Commuters complain

With the Hebbal flyover perpetually burdened with an increasing load of vehicles, commuters complain of getting caught in the congestion in the locality irrespective of timings. While peak hour traffic snarls are common, in Hebbal, commuters get stuck even during off-peak hours in the afternoon.

"It took me around 15 minutes to go from Kodigehalli to Hebbal. But vehicles had just stopped moving near the loop which connects to the flyover at around 3 p.m. It was very confusing as I was not expecting traffic at that time. I was tired waiting for the vehicles to move. I checked with my fellow commuters, and they also did not know why traffic was stuck," said Amrutha Varshini, a private employee from Malleshwaram.

Traffic police officials said that Hebbal's traffic woes are usually spoken about more than other hotspots in the city due to airport travellers who take the flyover, as well as active internet users.

Other hotspots

"There are other hotspots like Goraguntepalya and Tumakuru Road that have equally bad traffic problems. That is not to say that there are no issues in Hebbal, but people have to wait a bit for the development to take place and act as a solution," said Siri Gowri, Deputy Commissioner of Police, Traffic, North Division.

She further said that even if the loop of the flyover opens to traffic, it might not be a long-term solution. "Once the loop is open, all the traffic creates a bottleneck near Baptist Hospital as there is also a divider which partitions the main road and the service road and ultimately near Mehkri Circle. We need to see how things play out once it is fully open and if necessary, remove the divider and merge the service road and main road."

Metro rolls out trains wrapped in ads to boost non-fare revenue

The Hindu Bureau
BENGALURU

In a move to ramp up its non-fare earnings, the Bangalore Metro Rail Corporation Limited (BMRCL) has rolled out advertisement-wrapped trains on both the Purple and Green lines of Namma Metro. The initiative, which began on Monday, marks the first time in the 13-year history of Namma Metro that full-body train advertisements have been introduced.

BMRCL has entered into two separate seven-year agreements with advertising firms for this initiative. Mudra Ventures has secured exclusive rights for the Purple Line while Lokesh Outdoor has been granted the same for the Green Line. The contract values are ₹1.26 crore and ₹81.49 lakh, respectively. Letters of Acceptance (LoA) for both companies were issued on January 29.

New resource: It is for the first time in the 13-year history of Namma Metro that full-body train advertisements have been introduced. SPECIAL ARRANGEMENT

According to senior officials at BMRCL, the contracts include permission for full exterior train wrapping and internal advertising. "We expect to generate at least ₹25 crore per year from these contracts," said a senior BMRCL official.

The move comes shortly after BMRCL increased metro fares by up to 71%, a decision that drew public criticism.

The only prior instance of a train being fully wrapped by BMRCL was not for commercial purpose. In March 2022, as part of the government of India's 'Azadi Ka Amrit Mahotsav' campaign, one train was wrapped with visuals and slogans celebrating India's freedom struggle. That project cost around ₹8.5 lakh and took 10 days to complete.

Currently, BMRCL operates 57 six-coach trains across its Purple and Green lines. While this is the first time the corporation is wrapping trains for commercial purposes, metro trains in Delhi, Hyderabad, and Kochi have long adopted this practice. Delhi Metro, for instance, began wrapping its trains with advertisements in 2014.

To enhance non-fare revenue has been a consistent part of BMRCL's strategy. Advertising within stations and coaches, renting out commercial space for outlets, ATMs, and parking, and granting permission for filming inside metro premises are just some of the revenue-generating initiatives the BMRCL has implemented over the years. BMRCL has also introduced promotional kiosks, electric vehicle charging stations, and leasing of space for telecom infrastructure, such as towers and optical fibre cables.

Expert panel to drive Arkavati river revival

The Hindu Bureau
BENGALURU

A high-level committee of experts to spearhead the rejuvenation of the Arkavati through a public-private partnership (PPP) model has been announced.

A release from the Bangalore Water Supply and Sewerage Board (BWSSB) said the river was the primary source of drinking water for Bengaluru from 1936 to 2000.

The decision to form the committee was taken upon the direction of Deputy Chief Minister D.K. Shivakumar at a meeting held on Tuesday at the BWSSB headquarters, chaired by Ram Prasath Manohar, chairman of the board.

"With a basin area of 1,400 sq. km, the Arkavati holds immense potential to be reborn as a sustainable lifeline," the release said.

Dr. Manohar said that water from Yettinahole was intended to mix with the Arkavati waters at T.G. Halli. However, rapid industrial growth, wastewater discharge, and environmental degradation rendered the reservoir's water unfit for consumption.

Decision to re-enumerate castes a setback for CM

Siddaramaiah has been justifying the caste census report, insisting that it was scientifically done and that it would help assess social, economic, educational conditions of various communities

Nagesh Prabhu
BENGALURU

The Congress high command's direction to the party government in Karnataka to hold re-enumeration of castes to address concerns of some communities who complained of being left out of the survey, which was conducted a decade ago, is seen as a setback for Chief Minister Siddaramaiah who has been defending it despite opposition even from within the government.

Meanwhile, Deputy Chief Minister D.K. Shivakumar, who opposed the Socio-Economic and Educational Survey, known popularly as the caste census, welcomed the party central leaders' suggestion on the re-enumeration of caste data. Mr. Shivakumar thanked the MPs, legislators, community seers, and leaders of different communities for expressing their views to the party high command. He said a re-survey would ensure justice to all sections of the communities across the State.

The party high command's direction to the government on the re-enumeration process within a stipulated time is also seen as a victory for the Opposition BJP and JD(S), who had termed it "unscientific" and had been demanding a fresh survey. The report of the caste census conducted in 2015 ran into 50 volumes and the State government had spent ₹165 crore on the survey.

Fresh survey: Deputy Chief Minister D.K. Shivakumar has said a special Cabinet meeting on Thursday will discuss the modalities of the re-enumeration and Chief Minister Siddaramaiah will then announce the time-table.

On several occasions, the Chief Minister had justified the caste census, insisting that it was scientifically done and that it would provide valuable data to assess the social, economic, and educational conditions of various communities. The data would guide government policies and programmes, he had argued, and criticised the Opposition for their misconceptions surrounding the census.

Cabinet and after

Mr. Siddaramaiah chaired a special Cabinet meeting on April 17, 2025, to discuss the caste census conducted by the Karnataka State Commission for Backward Classes. The report was tabled in that Cabinet meeting. Subsequently, Cabinet meetings discussed the data but did not reach a consensus. With apparent differences among Ministers belonging to various communities, the Chief Minister had asked them to give their opinions in writing.

Ministers hailing from the Veerashaiva-Lingayat and Vokkaliga communities claimed that the survey was conducted in an "unscientific" manner and that the population of their respective communities was under-counted. Mr. Shivakumar had backed the Vokkaliga community's demand for a new survey. However, leaders of AHINDA (Kannada acronym for minorities, backward classes and Dalits) demanded that the report be tabled and its recommendations implemented. Brahmins, Reddy Lingayats, and seers of several other communities questioned the data collected 10 years ago and demanded a fresh survey.

Commenting on the party leaders' suggestion for re-enumeration, the Deputy Chief Minister said, "It is an opportunity for people of all communities to enrol their proper figure." He said a special Cabinet meeting on June 12 would discuss the modalities of the re-enumeration and the Chief Minister would announce the timetable.

Mahasabha to extend support to fresh survey

The Hindu Bureau
BENGALURU

The All-India Veerashaiva Mahasabha, headed by veteran Congress MLA Shamanur Shivashankarappa, has decided to extend cooperation to the State government if it conducts a fresh caste survey.

In a press release, it said that AICC president Mallikarjun Kharge, senior leader Rahul Gandhi, and AICC general secretaries K.C. Venugopal and Randeep Singh Surjewala have suggested to the State government to conduct a fresh survey. The mahasabha would provide all support to the government to conduct the survey by using the latest available technology.

The mahasabha had opposed the decade-old caste census and termed it "unscientific", a release issued by H.M. Renuka Prasanna, secretary of the mahasabha, stated.

MUDA 'scam': ED attaches 92 more sites

The Hindu Bureau
BENGALURU

The Directorate of Enforcement (ED) has provisionally attached 92 sites allotted by the Mysuru Urban Development Authority (MUDA) to "entities such as housing cooperative society and individuals who are front or dummy for influential persons, including MUDA officials", under the provisions of the Prevention of Money Laundering Act (PMLA), 2002. As of Monday, the sites have a market value of ₹100 crore.

Earlier in January, the ED had provisionally attached 160 MUDA sites having a market value of approximately ₹300 crore, mostly those registered in the name of realtors and other individuals.

Total value

With this, the total value of assets provisionally attached has gone up to ₹400 crore.

Taking action: A file photo of the Mysuru Urban Development Authority office in Mysuru. The total value of the assets provisionally attached so far has gone up to ₹400 crore.

Though the case pertains to 14 alternative sites allotted to B.M. Parvathi, wife of Chief Minister Siddaramaiah, which the ED has found fault with, it has not attached those sites as she returned them to the authority. But following raids on MUDA offices, the ED expanded the investigation into the case and is probing other instances of alleged illegal allotment of alternative sites as well.

According to a statement issued on June 10, "The ED investigation revealed a large-scale scam in the allotment of MUDA sites by flouting various statutes and Government Orders or guidelines, and by other fraudulent means. The role of ex-MUDA commissioners, including G.T. Dinesh Kumar, has emerged as instrumental in the illegal allotment of compensation sites to ineligible entities or individuals. The evidence with respect to obtaining bribes for making illegal allotments in the form of cash, bank transfer, and movable or immovable properties has been gathered during the course of the investigation.

The *modus operandi* for making illegal allotment involved identification of ineligible beneficiaries and making allotment using fake documents or incomplete documents in direct violation of Government Orders, and also backdating of allotment letters in some cases, the ED claimed. "The gratification received for making these illegal allotments was routed through a cooperative society and bank accounts of the relatives or associates of the officers playing key roles in the allotment process. The gratification thus received was further used to purchase some of these illegally allotted MUDA sites in the name of relatives of MUDA officers," the ED said.

Housing sanction letters distributed

The Hindu Bureau
BENGALURU

Housing and Minorities Welfare Minister Zameer Ahmed Khan on Tuesday distributed housing sanction letters and title deeds to members of the Hakki Pikki and other nomadic communities, sex workers, and families of those who have recovered from leprosy.

In all, sanction letters and title deeds were given to 777 families across Yeshwantpur, Yelahanka, and Rajarajeshwarinagar Assembly constituencies who had been residing without any legal documentation for decades. At Yalachaguppe in Yeshwantpur constituency, 228 families from the Hakki Pikki colony were given documents, along with 259 title deeds in the Madigara Channaiah slum. In the same village, 200 families of sex workers and nomadic communities were granted housing sanction letters, said a release from the Minister's office.

At Matapura Dalit Colony in Rajarajeshwarinagar constituency, 50 housing sanction letters were distributed to families that have persons who have recovered from leprosy.

State identifies six key areas to create 20 lakh jobs in five years

The Hindu Bureau
BENGALURU

Karnataka on Tuesday set a mandate to create 20 lakh new jobs and mobilise ₹7.5 lakh crore investments in the next five years across the State in six high-potential sectors which were collectively identified by the government and the industry.

To spearhead this initiative, which comes post-'Invest Karnataka, 2025', the Department of Large and Medium Industries and Infrastructure Development had announced the launch of 'Uthpadana Manthana', an initiative designed to fast-track the State's vision of becoming India's premier manufacturing hub.

The six priority areas identified are aerospace and defence (including space tech and drones); electronics and semiconductors; capital goods and robotics; auto and electric vehicles; technical and MMF-based textiles, and consumer products such as FMCG, footwear, and toys. Addressing industry leaders, entrepreneurs and policy makers from each of these sectors, Industries Minister M.B. Patil said 'Uthpadana Manthana' reflected a commitment to transform Karnataka into a global manufacturing powerhouse. "This initiative goes beyond policy discussions – it's about working directly with industry leaders to co-create practical, high-impact solutions. Your insights today on improving infrastructure, streamlining clearances, and building talent pipelines will shape our immediate action plan."

Minister for Large and Medium Industries M.B. Patil addressing the press on 'Uthpadana Manthana' in Bengaluru on Tuesday. PTI

The Minister said, "The broader objective of Uthpadana Manthana is aligned with the State's vision to attract ₹7.5 lakh crore in investments and create 20 lakh jobs over the next five years. Our government is also focused on scaling up merchandise exports by leveraging free trade warehousing zones, export-oriented industrial parks, and faster port access."

Recommendations

Leaders from the identified sectors made recommendations to Mr. Patil, and these ideas presented would be consolidated into a government action plan in the next six to nine months. Some of the industry suggestions included integrating elective courses in electronics and semiconductor manufacturing into academic curricula with a focus on hands-on learning; improving port connectivity in Mangalore and Chennai from industrial clusters to ease exports; and streamlining customs clearance procedures to enhance ease of doing business. There was also a call for the development of integrated industrial townships with plug-and-play infrastructure, last-mile connectivity, and social amenities.

NIMHANS launches Yoga-based Extension Services in community intervention programmes

The Hindu Bureau
BENGALURU

To enhance rural mental health care through yoga interventions, NIMHANS on Tuesday launched Yoga-based Extension Services (YES) in its ongoing community intervention programmes at Tirthahalli and Turuvekere in Shivamogga and Tumakuru districts, respectively.

YES will be a six-session, once a month face-to-face programme whenever a patient comes to the primary health centre/hospital for a follow-up, for a 30-45 minute duration. Brochures/videos depicting yoga practice with instructions in local language will be provided to encourage daily practice at home.

Indian Council of Medical Research director general Rajiv Bahl, NIMHANS director Pratima Murthy, and National Medical Commission chairperson B.N. Gangadhar launched the YES programme on Tuesday.

"We expect to observe improvement in symptom severity, disability, social cognition, socio-occupational functioning, and well-being over six months, along with delivery and fidelity (support and challenges) of YES," said Aarti Jagannathan, principal investigator of YES project and additional professor of Psychiatric Social Work at NIMHANS.

The Community Intervention Psychotic Disorders programme in Tirthahalli was started in June 2005 with research grants under the National Mental Health Programme.

BEL signs MoU to offer AI-driven software solutions

The Hindu Bureau
BENGALURU

Defence PSU Bharat Electronics Limited (BEL), Metamind Systems Private Limited, and Persistent Systems Limited have signed a tripartite memorandum of understanding (MoU) to jointly develop and deliver innovative software products, solutions, and service offerings in the domains of data analytics, artificial intelligence (AI), machine learning (ML), and cybersecurity across sectors such as aerospace and defence, healthcare, telecommunications, energy, smart cities, and other technology-driven industries.

The partnership will focus on collaborating and exploring business opportunities in India, the United States, and Latin America.

SWR to upgrade tunnel radio for safer operations on Braganza Ghat

At an estimated cost of ₹12.21 crore, the SWR will introduce world-class communication system in Castle Rock–Kulem section

Darshan Devaiah B.P.
BENGALURU

In a significant move to boost safety and operational efficiency in one of India's most challenging railway sections, South Western Railway (SWR) is set to implement an advanced Tunnel Radio Communication System in the Castle Rock-Kulem stretch of the Braganza Ghat, located on the Karnataka-Goa border within the Western Ghats.

The 26-km section cuts through the Western Ghats, a UNESCO World Heritage Site, and is known for its steep one-in-37 ruling gradient, dense forest cover, and iconic monsoon-fed Dudhsagar Falls. The line, which includes remote stations such as Caranzol, Dudhsagar, and Sonalium, serves both tourists and railway personnel. However, according to SWR officials, the lack of road access and a persistent "radio blackout" inside the 16 tunnels on this route have long posed safety and communication challenges.

Upgrades to come: The railway line between Castle Rock in Karnataka and Goa. FILE PHOTO

Speaking to *The Hindu*, Manjunath Kanmadi, chief public relations officer (CPRO) of SWR, said, "We are installing a cutting-edge radio communication network that brings four separate railway communication channels – VHF, Locotrol, GSM-R, and LTE-R – into every tunnel. This is being done using optical-fibre backbones, high-gain repeaters, and leaky-feeder cables."

The total cost of the project is ₹12.21 crore, and it is expected to be completed by October 2025.

Mr. Kanmadi explained that the system would ensure continuous communication between train drivers, guards, station masters, and control rooms, even inside the tunnels. "This will significantly improve safety during operations in this ecologically sensitive and remote area. Maintenance teams will also be able to call for assistance instantly," the he added.

Officials said the technology mirrors global best practices.

The SWR's approach is similar to those implemented in leading railway systems around the world.

"The U.K.'s Crossrail (Elizabeth Line) has employed leaky-feeder cables and GSM-R for uninterrupted communication inside London's tunnels. In Japan, the Shinkansen network has tested LTE-R and 5G systems for ultra-fast, low-latency train control in tunnels. Metro systems such as the London Underground also use long leaky-feeder antennas to maintain consistent radio coverage. By adopting this world-class architecture, the SWR is joining a group of railways using top-tier communication systems," Mr. Kanmadi noted.

The benefits of the project are that continuous radio coverage will enable quicker emergency responses in the event of a breakdown or landslip.

According to officials, it will also allow better coordination between lead and banking locomotives, which is vital on the steep gradients of the ghats.

Passengers will benefit from safer journeys, and staff will have a more secure and responsive working environment, they added.

Yesterday
In observation made at 4.00 p.m., Sri Vijaya Puram, Andaman & Nicobar Islands recorded an overall air quality index (AQI) score of 282 indicating an unhealthy level of pollution. In contrast, Aizawl, Mizoram recorded a healthy AQI score of 21

Air Quality Code: Poor Moderate Good (Readings indicate average AQI)

SO_2: Sulphur Dioxide. Short-term exposure can harm the respiratory system, making breathing difficult. It can affect visibility by reacting with other air particles to form haze and stain culturally important objects such as statues and monuments.

NO_2: Nitrogen Dioxide. Aggravates respiratory illness, causes haze to form by reacting with other air particles, causes acid rain, pollutes coastal waters.

CO: Carbon monoxide. High concentration in air reduces oxygen supply to critical organs like the heart and brain. At very high levels, it can cause dizziness, confusion, unconsciousness and even death.

PM2.5 & PM10: Particulate matter pollution can cause irritation of the eyes, nose and throat, coughing, chest tightness and shortness of breath, reduced lung function, irregular heartbeat, asthma attacks, heart attacks and premature death in people with heart or lung disease

Woman killed in tiger attack

The Hindu Bureau
MYSURU

A woman was killed in a tiger attack in Beduguli range of Biligiriranganathaswamy Temple Tiger Reserve, in the early hours of Tuesday.

The victim has been idenfied as Rangamma, 55, of Ramayya Podu in Beduguli, Chamarajanagar taluk. The incident took place when Rangamma had gone out to answer nature's call. Another person, Ravi, was injured in another incident the previous night. Mr. Ravi was attacked by the same tiger when he was returning to the village, but was rescued by local villagers after he raised an alarm.

Trapped

Officials launched a combing operation, and within hours managed to trap the tiger. The officials have confirmed that the duo were attacked by the same tiger, as both the incidents occurred near the same place.

Three-year-old pregnant zebra dies at Bannerghatta Biological Park

The Hindu Bureau
BENGALURU

A three-year-old pregnant plains zebra died at the Bannerghatta Biological Park (BNP) zoo on Tuesday morning following an accident.

The BNP officials said that the zebra named Kavya injured herself by crashing into the chain-link mesh fence and succumbed to the shock.

Kavya

"With a heavy heart we would like to inform that in the early hours of Tuesday, we lost our plains zebra Kavya in an accident," Surya Sen A.V., executive director of BNP, said.

The zebra was born on April 4, 2022. She was pregnant and expected to give birth in a few months, he said. "A preliminary investigation suggests external stress from other male zebras or other wild predator entry into the zoo premises, which is under scrutiny," he added. Minister for Forests, Ecology, and Environment Eshwar Khandre has sought a report on the unnatural death.

Mr. Khandre has instructed officials to investigate the cause of the death and to submit a report. He also directed officials to take precautions, ensure the safety of wild animals, and prevent the unnatural death of the animals in captivity.

Arabic, Mahl to continue in Lakshadweep schools: HC

The Hindu Bureau
KOCHI

A Division Bench of the Kerala High Court has ordered that the earlier language policy of studying Mahl and Arabic continue in schools in Lakshadweep as the court feels that the order on the three language formula has been issued by the Lakshadweep administration without conducting any study or consulting the stakeholders.

The Bench comprising Chief Justice Nitin Jamdar and Justice Basant Balaji passed the order recently on a writ petition challenging the decision to exclude Arabic/Mahl as an optional language from the three-language formula (TLF) implemented in schools on the islands.

'Hasty decision'

The petitioner contended that the decision was hastily taken by the Director of Education without consulting the stakeholders and conducting any proper study on its implications on the education system on the islands.

"We are not guided by the impugned order as to how the decision was arrived at or what its implications would be, particularly since there is a change from the existing position prevailing for the last 70 years," the court said.

Observing that its earlier interim order deferring the implementation of the order on the three-language policy will remain in force, the court said it was open to the Union Territory to conduct a study on the local conditions in the context of the prevailing education policies.

Wall against drugs

Strong-willed: Despite rain, the Ernakulam district committee of the Communist Party of India (Marxist) organise a human wall protest against the drug menace in Kerala on Tuesday. H. VIBHU

Burning vessel has 157 containers with hazardous materials

The Hindu Bureau
KOZHIKODE

M.V. Wan Hai 503, the Singapore-flagged vessel that caught fire nearly 88 nautical miles off the Beypore coast in Kozhikode on June 9 is carrying flammable solids and liquids, its cargo manifest shows.

According to the cargo manifest, there are 157 containers with hazardous substances on the ship. They are flammable liquids, included in Class 3 of hazardous materials; flammable solids, which are part of Class 4.1; spontaneously combustible solids, which are part of Class 4.2; and substances either in liquid or solid form that can damage human health, which are part of Class 6.1. The classification of hazardous materials is done by the International Maritime Organisation.

M.V. Wan Hai 503, the Singapore-flagged vessel that caught fire off Kozhikode.

The containers contain flammable resin solution, environmentally hazardous benzophenone, nitro cellulose with alcohol, flammable printing ink, among others. It also has 2,000 tonnes of marine oil and 240 tonnes of diesel, the list shows.

The presence of approximately 2,000 tonnes of fuel oil and 240 tonnes of diesel in tanks located adjacent to the fire zone on the ship increases the risk of operation.

The vessel is drifting approximately at 1.0 nautical mile in a southerly direction posing imminent threat of explosion .

The immediate concern remains containing the drift of the vessel away from the Indian coast and considering the magnitude of fire, connecting a towline will remain extremely challenging and alternative options are being considered with the Indian Navy and the Indian Coast Guard. Similarly, approximately 10-15 containers have been sighted adrift in a southeasterly direction by a Coast Guard aircraft. The estimated speed of drift is 1-1.5 knots. If unmitigated, these may reach the coast around June 12.

(With inputs from Thiruvananthapuram bureau)

WPI's support for UDF in Nilambur bypoll triggers political row

The Hindu Bureau
THIRUVANANTHAPURAM

The Welfare Party of India's (WPI) declaration of support for the Opposition United Democratic Front (UDF) in the high-stakes Nilambur Assembly byelection in Kerala has sparked a political slugfest between the opposing campaigns over the touchy question of "courting communal forces for electoral gain."

CPI(M) State secretary M.V. Govindan said in Malappuram on Tuesday that the WPI was the "Islamist Jamaat-e-Islami's political arm" and its unconditional support for the UDF highlighted the Opposition's desperation to seek the help of fundamentalist outfits on either side of the religious spectrum to bolster its "faltering" campaign.

Mr. Govindan said the "Jamaat-e-Islami-Congress-BJP rainbow concord" in Nilambur was the latest example of majority and minority communal forces working in conjunction against the LDF, with the IUML playing second fiddle.

"The Hindu majoritarian Rashtriya Swayamsevak Sangh (RSS) and Jamaat-e-Islami share a symbiotic relationship. Their ideological politics of hate and divisiveness surcharge their respective ideologies. For the UDF, the Sangh Parivar's and Jamaat-e-Islami's support is an ill wind that blows no good," he added.

Poll papped: UDF candidate Aryadan Shoukath during a campaign in Nilambur. SAKEER HUSSAIN

Asked whether the CPI (M) had no ideological compunction about accepting the support of the People's Democratic Party (PDP) headed by the 2008 Bengaluru serial blast case accused Abdul Nasir Maudany, Mr. Govindan replied:"The PDP, unlike the RSS and Jamaat-e-Islami, is not a party which disavows the Constitution and aspires to create a theocratic totalitarian State. The PDP is a victim of revanchist politics. It is ideologically committed to secularism and parliamentary democracy".

Satheesan's charge

Leader of the Opposition V D. Satheesan termed Mr. Govindan's stance on the WPI's unconditional support for the UDF in Nilambur as "double-faced."

He stated that the LDF had welcomed the Jamaat-e-Islami's support in the 2009 Lok Sabha elections and later in the 2011 Assembly elections. The CPI (M) had previously disavowed Mr. Maudany and claimed that the LDF government in 1998 preserved communal peace in Kerala in the wake of the Coimbatore serial bomb blasts by arresting Mr. Maudany and handing him over to the Tamil Nadu police.

"The CPI(M) has always displayed the characteristics of an ideologically unmoored and brazenly transactional political chameleon. It has no misgivings about the PDP or Jamaat-e-Islami as far as they back the LDF," Mr. Satheesan said. Mr. Satheesan said the WPI had supported the UDF of its own volition. The Jamaat-e-Islami had changed its political line in 2019, underscoring that the Congress was the sole bulwark for secularism at the national level.

7 die of COVID in last 10 days; toll now 11 in Karnataka

The Hindu Bureau
BENGALURU

The COVID-19 death toll in Karnataka rose to 11 on Tuesday with two more fatalities reported in the last 24 hours. All the 11, except one, are male SARI (Severe acute respiratory illness) patients.

With 67 new cases, the total number of COVID positive cases in Karnataka touched 1,287 since January this year.

With 817 of them discharged from hospitals, the total number of active cases stood at 459.

THE HINDU

Maximum Mumbai

The city needs long-term solutions to its transportation needs

The railways have proposed automatic sliding doors with ventilation louvres in all Mumbai suburban trains by next year in response to the Mumbra train tragedy on Monday – four people died and nearly a dozen others were injured. Sliding doors could potentially force people inside and prevent footboard travel, a factor in the accident. They could ensure that passengers do not get down at unscheduled stops and put themselves in danger of being mowed down by passing trains. The proposed vestibules connecting the coaches may also help to evenly distribute the crowds. As in Japan, each station may then need a few enforcers who could shove the crowds in so that the doors could shut and the trains move. While footboard travel is indeed a dangerous safety issue, it is only an outcome of the dangerous overcrowding in Mumbai trains. For vast numbers of people, the trains offer the least expensive travel option. Not too long ago, the dangers of overcrowding resulted in the infamous stampede at the Elphinstone Road station bridge in 2017. Multiple deaths are common along the three arteries that are the lifelines of Mumbai - the Central, Harbour and Western railway lines. Many are hit by trains while crossing tracks instead of using roads or bridges. While rail safety is an immediate issue that needs to be addressed, it is also time city leaders engineer inexpensive, alternative travel options to the trains.

Mumbai's trains have been seen as an inevitable part of the extreme urbanisation that the city represents and romanticised by literature. But they are simply not humane modes of transport. The suburban train system has undergone little change over the decades though the city has boosted its roads and enabled more vehicular traffic. Two-wheelers that were a rarity a few decades ago are now common. While the Metro promises to decongest the city to an extent, these services price out the lower classes. Bus services could be enhanced for routes connecting shorter distances. Along with doubling efforts to change the structuring of the city from a north-south network with commuter movements dictated by times, planners should consider expanding ferry transport – a cheaper and possibly more eco-friendly mode of transport to a city bound by the sea. Broadly speaking though, stampedes such as the one in Bengaluru, fire accidents in congested areas, and train tragedies such as the Mumbai one only highlight how unprepared India is to handle the consequences of urbanisation and the thrust to overturn the engagement of the vast majority of the people with agriculture.

Polarised Poland

Pro-Europe liberals and populist conservatives are at war

When Donald Tusk's diverse coalition came to power in Poland in 2023, ending the eight-year rule of the right-wing Law and Justice Party (PiS), the veteran centrist promised "to chase away the darkness". Two years on, with the Tusk government still struggling to deliver on key reforms, Polish voters have elected a conservative backed by PiS as the country's next President. Karol Nawrocki, a 42-year-old historian and former boxer with little political experience, won the June 1 presidential run-off with 50.89% votes, narrowly defeating the liberal Mayor of Warsaw, Rafal Trzaskowski, who secured 49.11%. Mr. Nawrocki, endorsed by Donald Trump and his MAGA movement, presented himself as an outsider populist, and promised a 'Poland first' approach that echoed Trumpian rhetoric. During its rule (2015-23), the PiS had implemented sweeping reforms that were aimed at tightening its control over state institutions and media, and recasting the Polish society along its ideological lines. It curbed abortion rights, overhauled education and filled the judiciary with party loyalists, often clashing with the European Union. Mr. Tusk attempted to roll back some of these measures, but met with strong opposition from the outgoing President, Andrzej Duda, also a PiS ally. As legislative logjam derailed Mr. Tusk's reform agenda, Mr. Nawrocki capitalised on public resentment, attacking the Polish establishment and Brussels.

While Poland's presidency is largely ceremonial, Mr. Nawrocki's victory could significantly impact its politics. First, the President can veto laws passed by Parliament or send them to the constitutional court, now packed with judges appointed by the PiS government. In a post-election rally, Mr. Nawrocki said the Tusk government was trying to achieve a "monopoly" of power and vowed to prevent it, in a sign of what is to come. As the government does not have the three-fifths majority in Parliament to override presidential vetoes, Mr. Tusk could face further gridlock. Second, Mr. Nawrocki's victory is a morale boost for Poland's Eurosceptic right and may strengthen the alliance between the populist movements across the Atlantic. Despite his campaign rhetoric to oppose Ukraine joining NATO, he is unlikely to change Poland's foreign policy core – be it its political and security alliance with the West or its opposition to Russia. But on social and economic policies, he is likely to follow the PiS's right-wing conservatism. Third, the election result could exacerbate internal tensions within Mr. Tusk's ideologically broad coalition which threaten to reduce Mr. Tusk to being a lame duck Prime Minister. All this points to a turbulent phase for Poland, where a politically polarised and socially divided nation braces for a prolonged tug of war between the pro-European centrists and ascendant populist conservatives.

The hazards of going global on India-Pakistan issues

T.P. Sreenivasan

is a former Ambassador of India, who has specialised in multilateral diplomacy. He is the only Indian diplomat who has served at the Ambassadorial level at the United Nations in New York, Vienna and Nairobi and headed the UN Division in the Ministry of External Affairs

Operation Sindoor and subsequent events thereafter have, once again, highlighted the futility of bilateral and multilateral diplomacy in resolving differences between India and Pakistan. An entangled web of frozen ideas has enveloped the situation making it impossible to separate the different strands. The developments following the Second World War and the evolution of the Cold War have also impacted heavily on the situation. Thus, any initiative, however sincere and logical it may be, will be hampered by the existing literature formulated by the United Nations and other international bodies, not to speak of Pakistan's stubborn position that Kashmir is the core issue. It is for this reason that Pakistan finds the smokescreen of resolutions and concepts relating to Jammu and Kashmir (J&K), terrorism, self-determination, non-proliferation and peaceful settlement of disputes spread over the last 70 years or more.

For instance, in the briefing given to India's seven teams of special envoys sent out to various countries after Operation Sindoor, the very first point they were asked to assert was that J&K is an integral part of India. Most countries, particularly those which do not follow developments closely, would look up the literature and the UN maps and find that there is an inscription on UN maps depicting the India-Pakistan border, particularly in the region of J&K. The inscription says, "Dotted line represents approximately the Line of Control in Jammu and Kashmir agreed upon by India and Pakistan. The final status of Jammu and Kashmir has not yet been agreed upon by the parties." Sometimes, there is a more general disclaimer regarding boundaries on the map such as: "the boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the United Nations." Therefore, most countries would not make a commitment on the question of borders. At best, they would tell us that a bilateral solution, as envisaged in the Simla Agreement, would be desirable.

India's stand on terror

Equally complex is India's position on terrorism. More than 30 years ago, India introduced in the UN General Assembly, a draft for a Comprehensive Convention against Terrorism, which was dismissed as an anti-Pakistan move in which others were not interested. A one man department against terrorism in Vienna was nothing more than a research post. It did not even define terrorism because of the dictum that one man's terrorist is another man's freedom fighter. The support that India had given to fighters in Africa and Sri Lanka was pointed out as an example of the difficulty in defining terrorism. The only thing that the UN could do was to keep the definition of terrorism as vague as possible.

The shocking events of 9/11 (2001) brought terrorism, which was considered to be confined to West Asia and South Asia, centre stage in the United States and Europe and it appeared that decisive action would be taken to deal with the menace globally. But after hectic activity in the political and legal bodies of the UN to finalise binding laws, the focus shifted to U.S. military action in Afghanistan, which resulted in the ouster of the Taliban government. The war in Afghanistan was meant to root out terrorism, but after decades of conflict, the U.S. fled the country, leaving the Taliban in power.

Several controversial concepts in the United Nations can weaken India's push to fight terror being fostered across its borders

The UN's approach

The UN Security Council has established several mechanisms to combat international terrorism, that are primarily centred around the various resolutions. Under these all member-states are obliged to take various economic and security measures to prevent the commission of terrorist acts. The Counter-Terrorism Committee of the Security Council was authorised to monitor the implementation of the overall plan. As for action against terrorists, this can be covered under Article 51 of the UN Charter, which recognises the inherent right of self defence if an armed attack occurs against a member-state. Though the application of this right in the case of terrorist attacks is complicated, it can provide a basis for a state to take action against terrorist groups that have attacked it. India's position about surgical strikes on terrorist infrastructure will be judged as to whether such action is proportionate and in accordance with international humanitarian law.

The Security Council's approach to counter-terrorism recognises that it requires a comprehensive "whole-of-society" approach that respects human rights and the rule of law. It emphasises international cooperation, the importance of addressing the conditions conducive to terrorism, and the need to prevent and counter violent extremism. In these circumstances, it will be hard for India to get a clear endorsement of its actions against terrorism. India does bring up terrorist attacks to the Security Council, but the Counter Terrorism Committee has not taken a clear position on the right of nations to treat a terrorist attack as an act of war – the new doctrine advanced by India.

The ceasefire along the Line of Control (LoC) and India's restraint in crossing the LoC even in conflict situations are the other factors which are likely to come into play in any discussion in the Security Council or other international fora on India's strategic strikes. India's special envoys may have faced these questions in discussions even with friendly countries.

The issue of hyphenation

When India took the issue of Pakistan's invasion of Kashmir to the UN, it was a pure case of aggression which should have been considered under Chapter VII of the Charter. But as it happened , the issue was discussed under Article VI on Pacific Settlement of Disputes. Consequently, several extraneous ideas were incorporated in the agenda. leading to western countries hyphenating India and Pakistan on every issue. When Pakistan and India acquired nuclear weapons, Kashmir was considered a nuclear hot spot. India has a non-first use doctrine, while Pakistan threatens to multiply its conventional military capability.

India has an established position that any bilateral discussion would only be on terrorism and the status of Pakistan Occupied Kashmir. Therefore, diplomacy at the bilateral level or multilateral level is unlikely to be effective. Pakistan will continue to internationalise the Kashmir issue, but India should refrain from seeking international intervention or support. The reports of the special envoys will indicate, if anything, that such efforts are futile, given the history of the evolution of "the India-Pakistan question" in the Security Council.

India has nothing to gain by raising its concerns internationally as its narrative has got entangled in several controversial concepts in the UN. India's only option is to ensure its security by appropriate military action as long as Pakistan continues its policy of inflicting a thousand cuts on India to gain Indian territory.

India's legal bridge is one of reciprocity, not roadblocks

Shivang Tripathi

is a Senior Research Fellow at the Faculty of Law, Banaras Hindu University, Varanasi

Shaiwal Satyarthi

is a Professor at the Faculty of Law, University of Delhi

In May this year, the Bar Council of India (BCI) implemented the Bar Council of India Rules for Registration and Regulation of Foreign Lawyers and Foreign Law Firms in India (hereinafter 'rules'). While many within the legal profession lauded the rules, a few law firms based in the United States have voiced strong objections, calling the rules a "non-trade barrier" and a "deliberate move to exclude or freeze out" U.S. law firms from engaging with the Indian legal ecosystem.

However, such criticism reflects a limited appreciation of the statutory mandate of the BCI and an inadequate understanding of India's comprehensive regulatory framework governing its legal affairs. On the contrary, the rules strike a balance by facilitating the entry of foreign practitioners and firms while upholding professional standards and safeguarding the interests of stakeholders within the Indian legal profession.

The criticism

First, it is contended that the rules create a 'non-tariff trade barrier' by imposing procedural restrictions on U.S.-based law firms and legal professionals, thereby attempting to 'freeze out' their entry into the Indian legal landscape. Second, it is alleged that the interests of the U.S. were overlooked during global consultations preceding the framing of the rules, making it difficult for U.S. law firms and professionals to comply with the stipulated mandates. Third, the requirement to disclose details such as the 'nature of legal work' and 'client identity' is said to conflict with the American Bar Association (ABA) Model Rules on client confidentiality. Fourth, the regulations governing fly-in, fly-out provisions have been criticised for being inconsistent with the principle of reciprocity, as they impose duration-based, disclosure-based restrictions not similarly applied to Indian counterparts operating in the U.S. Fifth, the contention is that the rules have been introduced as a surprise move, providing no transition period for adjustment, thereby placing U.S. firms and professionals at a disadvantage. Finally, it is argued that the rules could adversely impact U.S.-India bilateral trade and legal engagement, as they may discourage Indian corporations from undertaking transactions involving U.S. laws, owing to a dearth of legal professionals who are skilled in U.S. laws.

Criticism of the 'Bar Council of India Rules for Registration and Regulation of Foreign Lawyers and Foreign Law Firms in India' is unfair

A reality check

First, the BCI is not a trade body, but a statutory body to maintain standards of professional conduct and safeguard the interests of legal professionals across India. Second, constitutionally and technically, the practice of law cannot form part of a trade agreement, as it is governed under Entries 77 and 78 of the Union List, unlike entries dealing with trade and commerce under the Seventh Schedule of the Constitution of India. Second, In *Bar of Indian Lawyers Through Its President Jasbir Singh Malik vs D.K. Gandhi* (2024), it was held that it was a contract of personal service, thereby segregating it from trade and business practices. Third, India recently chose not to include legal services in the United Kingdom-India Free Trade Agreement, despite facing significant international pressure. This reflects India's consistent position that legal services require a distinct regulatory framework.

Fourth, the impugned rules do not bar foreign law firms and practitioners but liberalise the Indian legal ecosystem, albeit in a structured and regulated manner. For instance, Rules 3 and 4 permit foreign law firms to operate in India, subject to registration and compliance with ethical and professional conditions. Further, the fly-in, fly-out model, under the proviso to rule 3(1), allows temporary visits, subject to an aggregate stay not exceeding 60 days within a 12-month period. Fifth, Indian legal professionals lack universal access to the U.S. legal system and are subjected to rigorous, state-specific, examination-based licensing regimes. The reciprocity requirement under the rules, subjecting the U.S. counterparts to similar regulatory compliances, merely establishes equivalence. Sixth, rule 4(h), which mandates a certificate of 'good standing at the bar', has been flagged by U.S. stakeholders as problematic, owing to its decentralised ecosystem. However, this limitation stems from the U.S. regulatory structure and cannot be attributed to the BCI or India.

Notably, rule 6 of chapter III allows for flexibility, empowering the BCI to verify such credentials holistically and on a case-by-case basis, thereby ensuring an accommodating approach, subject to an adherence to basic ethical and professional standards. Seventh, the requirement to disclose the nature and the extent of legal work does not dilute client confidentiality, as the objective is to obtain general information about the legal work or transaction. This ensures that the activities of foreign legal professionals remain within the permitted contours of legal practice in India.

There has been debate and discussion

Finally, the criticism regarding lack of consultations or a transition period before the operationalisation of the rules holds no ground. Debates and discussion have been ongoing for over two decades, encompassing expert committee reports, global consultations, and key judicial decisions such as *Lawyers Collective vs Bar Council of India* (2009) and *Bar Council of India vs A.K. Balaji* (2018) which have collectively laid the foundation for the present regulatory framework.

Far from being a barrier, the rules aim to create a cooperative bridge liberalising the Indian legal landscape in a measured manner, while safeguarding professional integrity, client confidentiality, and upholding the vital principles of reciprocity and ethical accountability.

LETTERS TO THE EDITOR

Eleven years in office

The description of the 11 years of rule under the Modi government as a "golden" period is mere rhetorical flourish (Inside pages, "Modi provided a responsible and accountable govt.: Nadda", June 10). Catch-phrases, acronyms and alliterations have been liberally used to construct and sell the narrative of "good governance". The Modi government has changed the political complexion of the country and has erased the fine line between democracy and majoritarianism. Rising unemployment and inflation reflect its performance on the economic front. The government has conveniently forgotten its promise to create two crore jobs every year. The blatant misuse of central agencies to target political opponents has tarnished the government's public image.

The step-motherly treatment of "single engine" governments and favouritism towards "double engine" governments have shown the central government's inability to rise above party politics.

G. David Milton,
Maruthancode, Tamil Nadu

There is absolutely no doubt that under Prime Minister Narendra Modi, the NDA-led government has scored high in development. In almost every sector, the achievements are remarkable and inspiring. At the same time, it is a pity that the fire in Manipur is being allowed to burn.

N. Mahadevan,
Chennai

A fallout

Donald Trump and Elon Musk are alpha personalities, with transactional world views and individual ambitions, and who demand control over their narratives. While Mr. Trump seeks dominance in the media, politics and public perception, Mr. Musk does the same, albeit in the tech and innovation spaces. By straying into politics, he set up a wild ego clash. Given this innate fragility, the 'bond' could sustain only so long as mutual benefit was seen to accrue.

R. Narayanan,
Navi Mumbai

Television today

Gone are the days when television serials had good value-based content, which could be watched by the entire family ('Open page' – "Tyranny of soaps", June 8). These days, serials are scary to watch, with most being aired for several months. There need to be checks before serials are aired. With most serials occupying prime time, there is characterisation that shows women in a bad light. Even killings are justified in the plot. TV serials reach one's home directly and are watched by the young and the old. The impact on people needs to be examined.

Why cannot the script writers think of plots that motivate and inspire every group of people?

Balasubramaniam Pavani,
Secunderabad

The shadow of apps

Online exploitation and abuse are on the rise, with children and youngsters increasingly being exposed to online content of an explicit nature. Young minds are bound to be corrupted, with their behaviour, academic performance and emotional well-being being severely affected. Moral values are on the decline and students are losing focus. We risk a future of growing crime and violence. Why are governments silent about the widespread availability of undesirable apps?

Dr. Arunachalam,
Nagercoil, Tamil Nadu

The endgame in the Russia-Ukraine war

On June 1, Ukraine executed 'Operation Spiderweb' drone strikes on Russian bases. They sent shock waves just ahead of the second round of peace talks in Istanbul and NATO's Eastern Flank summit in Vilnius.

As the Russia-Ukraine war is in its fourth year, with mounting human and economic costs and rising global pressure for a diplomatic resolution, an endgame is in place. The revival of the Istanbul peace process and renewed engagement by key international players have reoriented attention towards diplomacy. Yet major questions persist: Will Ukraine's audacious strikes shift the war's trajectory? Can Ukraine endure the prolonged conflict? And can the main actors – Ukraine, Russia, the U.S., NATO, and the European Union – overcome entrenched divisions to forge a durable peace?

K.B. Usha

Associate Professor at the Centre for Russian and Central Asian Studies, School of International Studies, JNU, New Delhi

The return of diplomacy

As peace talks stalled under U.S. President Donald Trump, the Istanbul peace process was cautiously revived by Russian President Vladimir Putin. Two rounds of talks on May 16 and June 1 saw prisoner swaps and draft ceasefire terms exchanged. However, deep divisions remain, with both sides presenting largely irreconcilable conditions that hinder meaningful progress.

Russia's 'Special Military Operation' could have ended in Istanbul negotiations in 2022, but a possible peace deal failed as Ukrainian President Volodymyr Zelenskyy walked away from it. Ukraine chose to continue fighting as it hoped for NATO membership and Western leaders pledged funding, weapons, and training.

U.S. President Donald Trump, prioritising his 'America First' and 'Make America Great Again' agenda, views the Ukraine war as a complex foreign policy challenge and seeks a swift end to it. His envoy, Keith Kellogg, and Secretary of State Marco Rubio acknowledged it as a dangerous "proxy war between nuclear powers – the United States, helping Ukraine, and Russia", and began Russia-Ukraine talks in February 2025. Mr. Trump sees no common ground or trust between Russia, Europe, and Ukraine, making an end to the Russia-NATO proxy war difficult. Acting as both participant and mediator, he believes a breakthrough is urgently needed.

Mr. Trump's three months of shuttle diplomacy have sparked hope for peace. The peace framework addresses both sides' concerns. Ukraine won't join NATO, will gain security guarantees, accept a ceasefire, and territorial concessions. Sanctions on Russia will be lifted, and the present frontline will be frozen.

Ukraine-Europe peace terms include a permanent ceasefire, no limits on Ukraine's military, and a U.S.-backed security guarantee akin to NATO's Article 5. Sanctions would ease gradually after achieving lasting peace, while occupied territories remain unrecognised. European leaders' 'Coalition of the Willing' meetings, led by the U.K. and France, seek a 'reassurance force' to monitor the peace accord's implementation.

Russia demands addressing the war's root causes, Ukrainian neutrality, NATO-membership ban, demilitarisation, denazification, and troop withdrawals. It also seeks ceasefire guarantees that Ukraine won't regroup and receive Western munitions. If the West does not accept these terms, Mr. Putin warns of imposing terms militarily.

In February, Mr. Trump proposed to initiate denuclearisation talks with Russia and China, considering the Ukraine war's potential for nuclear escalation and the expiry of the NEW START Treaty with Russia in 2026. Russian experts see this as a honey trap, reminiscent of former U.S. President Ronald Reagan's trick with the Soviet Union's President Mikhail Gorbachev. Kremlin remains sceptical of Western intentions and views Russia's nuclear power as a necessary deterrent.

The broader Western posture is to continue supporting Ukraine until Russia is strategically defeated. In 2022, the European Parliament and the NATO Parliamentary Assembly designated Russia a 'state sponsor of terrorism,' complicating direct diplomatic engagement, while former U.S. President Joe Biden said 'no' to such a toxic 'terrorist' label for Russia.

Mr. Trump's interest in ending the war is due to avoiding damage to America's reputation. He wants to deal with China and engage in the West Asian and Indo-Pacific region. The Ukraine war tests Europe's global autonomy, but its Russophobic stance hampers dialogue by framing Russia as an existential threat and exposing racism and militarisation.

The West is waging a proxy war in Ukraine and, as is the case with any proxy in history, Ukraine's agency to decide the course of war is limited. Escalation risks are rising as Ukrainian drones allegedly targeted Mr. Putin's convoy in Kursk on May 20, 2025. Earlier incidents included bridge bombings in Kursk, drone attacks near Moscow, and a threat to the Victory Day parade. In response, Russia has escalated its military campaign, aiming to create a 'security buffer zone' along the Ukraine border. Mr. Putin warned that rejecting current peace terms would make any future peace "more painful."

A fragile endgame

Ukraine's deep strikes into Russia, likely aided by Western intelligence, risk escalation. Under its nuclear doctrine, Russia may retaliate if sovereignty is threatened. Operation Spiderweb escalates Russia's 'Special Military Operation' into a full-scale war. Though humiliated, Russia's engagement in peace talks signals a real interest in ending the conflict. In such a scenario, diplomacy must be bold, realistic, and inclusive, addressing deep security fears and historical grievances. Without this, peace will be fleeting.

> Diplomacy must be bold, realistic, and inclusive, addressing deep security fears and historical grievances. Without this, peace will be fleeting

The difficult task of keeping everyone happy

The Congress's commitment to social justice comes with challenges

STATE OF PLAY

R. Ravikanth Reddy
ravikanth.ramasayam@thehindu.co.in

The recent Cabinet expansion in Telangana reflects the Congress's promised commitment to social justice. By inducting three Ministers – Gaddam Vivek and Adluri Laxman from the Scheduled Caste (SC) group and Vakiti Srihari from the Backward Classes (BC) group – as well as leaders from socially and economically backward communities for various posts, the party has attempted to realign its power structure to better represent historically marginalised groups. However, this has not come without friction, particularly from the dominant Reddy community, which feels ignored despite its numerical and political clout in the Assembly.

Of the seven BC MLAs in the Congress, three have been given Cabinet posts and two have been appointed as chief whip and whip. Among Ministers, Ponnam Prabhakar is from the Goud community, Konda Surekha belongs to the Padmashali community (with her husband hailing from the Munnuru Kapu community), and Vakiti Srihari comes from the Mudiraj caste. Pradesh Congress Committee chief A. Mahesh Kumar Goud is a Goud from the BC community. BCs enjoy more representation not just in the Cabinet, but also in key political roles.

Additionally, with the inclusion of Mr. Vivek and Mr. Laxman, the number of SC leaders in the Cabinet has increased to four. They are split equally between the Mala and Madiga sub-groups. This balance is critical in a State where internal divisions within SC communities have influenced political equations, particularly the Madiga Reservation Porata Samiti. Deputy Chief Minister Mallu Bhatti Vikramarka, a Mala, holds the Finance portfolio, while former Deputy Chief Minister Damodar Raja Narsimha holds the Health portfolio.

Dissatisfaction

Despite this progressive outlook, Congress has triggered dissatisfaction within its largest and historically most influential support base, the Reddy community. In the 119-member Assembly, 43 MLAs are from the Reddy community. Within the Congress, 26 of the 64 MLAs are from the Reddy community.

Those who have been left out include strong aspirants such as Komatireddy Rajgopal Reddy, P. Sudarshan Reddy, T. Rammohan Reddy, and Malreddy Ranga Reddy.

Mr. Rajgopal Reddy, who played a key role in boosting the Congress's prospects by jumping ship from the Bharatiya Janata Party (BJP) before the elections, feels particularly aggrieved, especially since his political ally, Vivek Venkatswamy, was inducted into the Cabinet. Both leaders were promised a berth. When Mr. Rajgopal Reddy, Mr. Venkatswamy, and Ponguleti Srinivas Reddy from the Bharat Rashtra Samithi (BRS) entered the Congress at around the same time, it created the perception that the BJP was losing ground and that the Congress was the only alternative to the BRS.

No one can deny impact of these leaders on the overall performance of the party even though Revanth Reddy, who was then PCC chief, strongly built an anti-BRS narrative. The BJP, which was looking strong, lost steam when Mr. Rajgopal Reddy and Mr. Venkatswamy exited the party at a crucial juncture. Mr. Rajgopal Reddy's brother, Komatireddy Venkata Reddy, is a Minister and hails from Nalgonda – a Reddy bastion. While being progressive in its politics, the Congress would also do well in ensuring that its traditional support base, the Reddy community, is kept happy.

Issues to be addressed

While the Congress's caste arithmetic may have worked, the representation of regional and minority members leaves much to be desired. Key districts such as Hyderabad, Ranga Reddy, and Nizamabad have gone not represented in the Cabinet. Muslims, and Lambadas among the tribal communities, have also been left out.

There is no Muslim MLA in the Congress fold. The party has only one Muslim MLC, Amer Ali Khan. To bridge this gap, Congress is considering fielding a Muslim candidate from Jubilee Hills in the coming by-election. The names of Mohd Azharuddin, a cricketer, and Faheem Qureshi, a confidante of the Chief Minister, are being floated.

To compensate for the absence of the Lambada community, the Chief Minister nominated Ram Chander Naik, an MLA from Dornakal, as Deputy Speaker. This complements the appointment of Gaddam Prasad Kumar, a Dalit, as Speaker. As a result, in Telangana, both the presiding officers of the Assembly belong to the SC and ST communities, respectively.

Why the Alcaraz-Sinner final is among the most epic battles

Lasting an extraordinary 5 hours and 29 minutes, the match is the second-longest Grand Slam final in the Open Era

DATA POINT

Vignesh Radhakrishnan

Grand Slam finals carry an unmistakable aura. When a Slam final stretches into a five-setter, it signifies an enthralling contest between evenly matched rivals. Add multiple tie-breakers into the mix, and the sense of parity intensifies, turning the match into an absorbing duel between superior equals. These epic battles become historic.

No fan can forget two such memorable men's tennis finals from the recent past. The longest Grand Slam final ever in the Open Era – a gruelling 5-hour, 53-minute battle between Novak Djokovic and Rafael Nadal at the 2012 Australian Open – remains unmatched to this day. Djokers' celebration, during which he tore off his shirt, remains etched in every tennis fan's memory. Equally unforgettable is the memory of both the players, their legs trembling, at the trophy presentation, until someone brought them chairs.

The 2019 Wimbledon final between Djokovic and Roger Federer stood out for different reasons. Lasting 4 hours and 57 minutes, it became the first Slam final to feature three tie-breaks in the Open Era. The sight of Djokovic squatting on Centre Court and eating grass in triumph signalled not just victory, but also a poignant end to Federer's legendary pursuit.

Sunday's showdown at Roland Garros between World No. 1 Jannik Sinner and World No 2 Carlos Alcaraz has earned its place among the greatest Slam finals. Lasting 5 hours and 29 minutes, it is the second-longest Grand Slam final in the Open Era (**Chart 1**).

The gripping encounter also featured three tie-breaks – only the second time in Open Era Grand Slam finals (**Chart 2A**). However, the number of tie-breaks should be viewed with caution, as rules have varied across years and Grand Slams.

What truly stood out on Sunday was Alcaraz's extraordinary comeback from being two sets down. To underscore just how rare this feat is: Sinner had only once before lost a match after winning the first two sets since 2021; that was against Djokovic at Wimbledon 2022. Indeed, in the Open Era, the number of times a player who was two sets behind and then went on to become the champion in a Grand Slam final is only eight (**Table 3**).

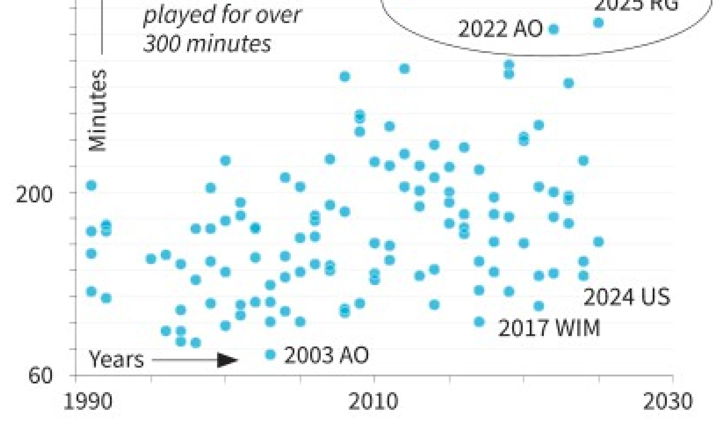
Incredibly, the most recent occurrence before this was by Sinner himself, who fought back to win the 2024 Australian Open after trailing Daniil Medvedev by two sets. Medvedev, unfortunately, has experienced this twice – previously it was in 2022, against Nadal, in the Australian Open final.

On three defining measures – a marathon encounter, multiple tie-break drama, and an unforgettable comeback – the latest Roland Garros final emphatically earns its place among the greatest championship matches ever played.

With 38-year-old Djokovic's last Slam win happening in 2023, and Nadal and Federer now retired, tennis fans are eagerly turning their gaze towards Sinner and Alcaraz – the emerging rivals still in their 20s. Since 2024, Sinner has dominated the tour, winning 91 out of 99 matches (a 92% win rate), while Alcaraz, during the same period, has managed to win 91 out of 109 matches (a win rate relatively lower at 83%).

Yet there's a twist. Since 2024, Alcaraz and Sinner have faced off five times – including three finals – and each time the Spaniard has emerged victorious. Sinner reached 12 finals in this period, winning all nine in which his opponent wasn't Alcaraz (**Table 4**). While few have managed to solve the Sinner puzzle, Alcaraz, despite faltering against others, has maintained a flawless record against the Italian in the last 18 months.

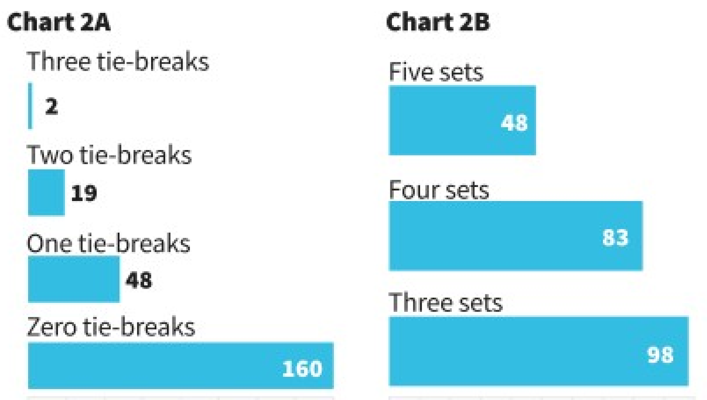
Chart 1: The length in minutes for 122 Grand Slam Finals (data from 1991 to 2025)



In the charts
AO: Australian Open
WIM: Wimbledon
RG: Roland-Garros
US: US Open

Each circle corresponds to a final. The higher the dots, the longer the finals. Interestingly, in recent years, matches have been relatively longer

Charts 2A & 2B: The number of finals that featured three/two/one/zero tie-break sets (Chart 2A) and the number of finals that featured five/four/three sets (Chart 2B) in the Open Era



SOURCE: TENNIS ABSTRACT

Table 3: The eight other Grand Slam finals in the Open Era in which a player lost the first two sets, but eventually won

Year	Slam	Winner	Loser	Score
1974	Roland Garros	Bjorn Borg	Manuel Orantes	2-6 6-7(4) 6-0 6-1 6-1
1984	Roland Garros	Ivan Lendl	John McEnroe	3-6 2-6 6-4 7-5 7-5
1999	Roland Garros	Andre Agassi	Andrei Medvedev	1-6 2-6 6-4 6-3 6-4
2004	Roland Garros	Gaston Gaudio	Guillermo Coria	0-6 3-6 6-4 6-1 8-6
2020	Us Open	Dominic Thiem	Alexander Zverev	2-6 4-6 6-4 6-3 7-6(6)
2021	Roland Garros	Novak Djokovic	Stefanos Tsitsipas	6-7(6) 2-6 6-3 6-2 6-4
2022	Australian Open	Rafael Nadal	Daniil Medvedev	2-6 6-7(5) 6-4 6-4 7-5
2024	Australian Open	Jannik Sinner	Daniil Medvedev	3-6 3-6 6-4 6-4 6-3

Table 4: The 12 finals that Jannik Sinner reached since 2024, with the winners and losers mentioned

Date	Tournament	Winner	Loser
26-May-2025	Roland Garros	Carlos Alcaraz	Sinner
7-May-2025	Rome Masters	Carlos Alcaraz	Sinner
13-Jan-2025	Australian Open	Sinner	Alexander Zverev
11-Nov-2024	Tour Finals	Sinner	Taylor Fritz

FIFTY YEARS AGO JUNE 11, 1975

Regular looting of rail wagons at Waltair

Visakhapatnam, June 10: Railway wagon parts, coal and pig iron are the major articles stolen from wagons stationed at the marshalling yard in Waltair.

At Kancharapalem, behind every alternate hut one can find heaps of coal and iron. The two km. stretch of the marshalling yard between Kancharapalem and NAD Colony is the vulnerable area for the miscreants. Some residents say the looters carry the booty unchecked by the Railway Protection Force both during night and day.

In recent raids conducted by the railway authorities, five lorry-loads of iron and steel were recovered from some of the local roiling mills. The detection of stolen property or the apprehension of miscreants has its own hazards. In one incident, an Assistant Security Officer, was surrounded by a gang of 40 men armed with sticks and knives. The timely arrival of the RPF men saved him. Instances have been narrated of how some of the loyal employees, who tried to prevent wagon-looting, were beaten up by the looters while the co-employees remained silent spectators. Top officials do not rule out the possibility that some of the employees are accomplices to the looting.

The Chief Commercial Superintendent South-Eastern Railway held discussions here on May 31 with the local and South Central Railway officials on the looting of wagons and decided to intensify the patrolling of the yard and trains. It was resolved to run block trains with full wagon-loads of iron and steel and arrange for escort till the train reached the destination.

A HUNDRED YEARS AGO JUNE 11, 1925

A hospital for Europeans?

"The Madras Mail", the representative organ of the European community in Madras, in the course of a leading article under the caption "Mystery of a Madras hospital", denies the truth of the rumour that the Royapettah Hospital is to be converted into one for Europeans. "It is preposterous," it says, "that with all the beauty spots of Madras open to it, with the glorious official bungalows on the Adyar waiting to be seized, this party (of Europeans) should have chosen a place so dusty and noisy for the housing of the European sick."

India's population hits 146.39 crore: UNFPA

Replacement level TFR is the rate needed for each generation to replace the previous generation's population.

The UN report says that millions of people are not able to realise their real fertility goals. Calling this the "real" crisis, and not overpopulation or underpopulation, the report calls for the pursuit of reproductive agency – a person's ability to make free and informed choices about sex, contraception and starting a family – in a changing world. India's youth population remains significant, with about 24% of the population in the age bracket of 0-14 , 17% in the age bracket of 10-19, and 26% in the age group of 10-24. Further, the report estimates that 68% of the population in India is of working age (15-64 years).

The elderly population (65 and older) currently stands at 7%, a figure that is expected to rise in the coming decades as life expectancy improves, it adds, confirming the projections the government in India has been working with.

The UN report says that as of 2025, life expectancy at birth is projected to be 71 years for men and 74 years for women.

Blaze on cargo vessel sparks oil spill alert

Flames were reported from the mid-ship area and container bay just ahead of the accommodation block. Though the forward bay fire has been brought under control, thick smoke is reportedly rising from the vessel. The ship is tilting approximately 10 to 15 degrees to its left, and a number of containers have reportedly fallen overboard, with 10 to 15 of them spotted adrift on a course toward the Kerala coast.

Coast Guard ships *Samudra Prahari* and *Sachet* are carrying out firefighting and boundary cooling operations at sea. Another Coast Guard vessel *Samarth*, with a team of salvors – who are trained in salvaging ships and cargo – is being deployed from Kochi to support the ongoing efforts. A Coast Guard Dornier aircraft also conducted an aerial survey of the site.

INCOIS has activated its Search and Rescue Aid Tool to track the possible drift patterns of containers, debris, or people who may have gone overboard.

Of the 18 crew members rescued on Monday, six have been admitted to a private hospital in Mangaluru, Karnataka, including Lu Yanli and Sonitur Haeni, who were critically injured.

(With inputs from Mangaluru bureau)

Don't withhold RTE funds over NEP row: HC

"Therefore, funds payable to the State Government representing the Central Government's share towards discharging the RTE obligations need not be linked to NEP 2020," it said.

Since the Tamil Nadu government had already filed a civil suit before the Supreme Court demanding release of SSS funds of ₹2,151.59 crore, the judges said: "We are not in a position to issue any binding direction in this regard," and stopped with issuing a direction to the Centre to merely "consider" delinking the RTE component from the SSS funds and disbursing the amount accordingly.

T.N. cannot 'wiggle out'

On the other hand, taking note of various judicial precedents, the Division Bench directed the State government to reimburse the private schools, which make admissions under the RTE Act. "The State government has an obligation to reimburse private unaided schools. Non-receipt of funds from the Union Government cannot be cited as a reason to wriggle out of this statutory obligation," the court observed.

The orders were passed while disposing of a public interest litigation petition which sought a direction to the State government to commence the RTE admissions for the academic year 2025-26 without any delay. Additional Advocate General J. Ravindran told the court that the State government was unable to reimburse the private schools on time due to non-receipt of Central funds.

Meitei group lifts shutdown in Manipur

Earlier, Manipur government officials stated that Mr. Kanan Singh had been arrested in connection with a 2020 arms smuggling case. Mr. Singh had been dismissed from his position as a head constable in the Manipur Police.

Meanwhile, the five districts comprising the Imphal Valley – Bishnupur, Kakching, Imphal East, Imphal West, and Thoubal – showed signs of returning to normalcy on Tuesday morning.

There were reports of clashes between protestors and security personnel on Monday night. Such incidents were reported from the Khurai Lamlong area of Imphal East district, Tera (Imphal West), and Nambol (Bishnupur).

Security forces fired several rounds of tear gas shells and rubber bullets to disperse the mobs, who put up roadblocks and attacked police vehicles. Two policemen sustained injuries in Nambol.

U.P. played down Kumbh stampede deaths: BBC

The Hindu Bureau
NEW DELHI

At least 82 people were killed in four incidents of stampede at Maha Kumbh in Uttar Pradesh's Prayagraj on January 29, against the State government's official claim of 37 deaths, a report by *BBC News Hindi* claimed.

The report said the families of at least 26 victims were given bundles of ₹5 lakh each by government officials but their names were not counted among those who died in the stampede. The kin of 37 others who were officially declared dead were given a compensation of ₹25 lakh each through cheques or in their bank accounts.

Several families from across the country told the BBC that they were made to sign on papers which said their family member has died due to sudden fall in health. They shared photographs of cash bundles and the letters they were made to sign by U.P. government officials.

Samajwadi Party president Akhilesh Yadav accused the U.P. government of lying about the toll and said those who provide "false statistics" were not worthy of public trust.

Won't tolerate abuse of visas, violation of law, says U.S. Embassy

The statement comes a day after a video shared online showed an Indian student being restrained by security personnel at an airport in Newark

Kallol Bhattacherjee
NEW DELHI

The United States "will not tolerate abuse of visas and violation of U.S. law", the U.S. Embassy said on Tuesday. The remarks came a day after a video shared online showed an Indian student being restrained by security personnel at the Newark Liberty International Airport, which prompted discussion on the strict immigration rules prevailing in the U.S.

"The United States continues to welcome legitimate travelers to our country. However, there is no right to visit the United States. We cannot and will not tolerate illegal entry, abuse of visas, or the violation of U.S. law," the U.S. Embassy said in an announcement shared on social media platform X.

MEA takes up issue

Official sources here said that the issue of the Indian student being dealt with by security personnel in Newark airport has been raised formally by the Ministry of External Affairs with the U.S. Embassy in New Delhi. The Indian Embassy in Washington DC and the Indian Consulate in New York too are in contact with American authorities regarding the case.

The Hindu was told that the details of the case were yet to be fully known. "We have so far not received any details about the incident or the circumstance, the flight he had to board or boarded, and his final destination. We continue to follow the matter," an official said on Tuesday.

The video that went viral was shared by Kunal Jain, a non-resident Indian who filmed a young Indian student "being deported from Newark Airport" on Sunday night.

Mr. Jain said the student, who appeared to be from Haryana, was "handcuffed, crying, treated like a criminal". "He came chasing dreams, not causing harm. As an NRI, I felt helpless and heartbroken. This is a human tragedy," he added.

Visuals of shackled Indian citizens were circulated when several hundred Indians were repatriated from the U.S. earlier this year in special flights.

Tough measures: The video prompted discussion on the strict immigration rules prevailing in the United States. ISTOCKPHOTO

'Multidisciplinary skills crucial for job opportunities'

The Hindu Bureau
CHENNAI

Experts on Tuesday emphasised the importance of acquiring multidisciplinary skills for expanding career opportunities and world views, building character, and fostering empathy and intellectual humility.

They were speaking at a webinar on "Beyond boundaries: how multidisciplinary learning prepares for a complex world", organised jointly by the SRM Institute of Science and Technology and *The Hindu*.

Vinay Kumar, Pro Vice-Chancellor at SRM Institute of Technology, said the National Education Policy (NEP) had provided the biggest fillip to multidisciplinary education in India.

"While multidisciplinary education is still in the developmental stage and not fully evolved, every institution is coming up with its own method of providing multidisciplinary courses," he said, adding that such education also expands employment opportunities.

Aruna Sankaranarayanan, Visiting Faculty at the School of Education, Azim Premji University, said disciplinary boundaries are artificial. Stating that there are commonalities between disciplines that seem disparate on the surface, she gave the example of mathematics and art. "Both deal with shapes, sizes, symmetry and proportion," she said. She spoke of how people with multi-disciplinary skill sets have succeeded in their careers.

"Venki Ramakrishnan did a Ph.D. in physics, moved to biology, and finally won a Nobel Prize in chemistry. Similarly, Steve Jobs pursued a course in calligraphy, which later helped him design the logo of the Macintosh interface," she said.

The speakers also spoke about the role of technology in facilitating multi-disciplinary learning and the opportunities and challenges of artificial intelligence (AI). This webinar can be viewed at https://bit.ly/THSRMCC3

Honeymoon murder: businessman's wife and other accused to be produced in court today

The Hindu Bureau
GUWAHATI

Pained by the portrayal of their town and Meghalaya as crime-prone and an unsafe place for tourists, the people of Sohra (Cherrapunji) on Tuesday paid floral tributes to, and held a candlelight vigil for Raja Raghuvanshi, the businessman from Indore murdered during a honeymoon trip on May 23.

They also organised a rally demanding an apology from certain mainstream media houses and individuals for accusing the locals of putting the lives of Raja and his 24-year-old wife Sonam in peril. The recovery of Raja's body from a deep gorge on June 2 led to a twist in the tale of the "missing" couple, with Ms. Raghuvanshi accused of murdering her husband.

Sonam Raghuvanshi has been accused of plotting her husband's murder during their vacation in Meghalaya. PTI

The solemn event in Sohra and adjoining villages, whose tourism business was temporarily impacted by the Indore couple's case, happened hours before the accused were brought to Shillong, about 60 km away, from Uttar Pradesh and Madhya Pradesh on a transit remand.

"All the accused persons, including Sonam Raghuvanshi, will be produced before a court on Wednesday. They will also be taken to Sohra to reconstruct the crime," said Vivek Syiem, the Superintendent of Police of the East Khasi Hills district.

Six-day remand

The Meghalaya Police obtained a six-day remand for the four men caught in Indore (Madhya Pradesh) and Lalitpur (Uttar Pradesh). The remand for Ms. Raghuvanshi, who surrendered to the police in Ghazipur, was for three days.

At Sohra, grief for Raja turned into indignation at some television channels, online commentators, and social media users, including those from the Raghuvanshi family, abusing the people of Meghalaya when rescue workers were searching for the "missing" Indore couple. The badmouthing intensified after Raja's body was recovered.

"We demand an unconditional apology from the national media houses and individuals on social media who spread false and defamatory content about Sohra and its people. If no apology is issued within the next 24 hours, we will not hesitate to file FIRs and pursue legal action," a spokesperson of Hima Sohra (traditional body) said.

Gavin Miguel Mylliem, the MLA of Sohra, underscored the community's pain and outrage during the candlelight vigil. "This is a tragedy that has deeply shaken us all. Raja was a guest in our land. The people of Sohra welcomed him with open hearts, and what happened to him is not a reflection of this place," he said.

Goa CMO's suspension taken back after outcry

The Hindu Bureau
MUMBAI

The Maharashtra Senior Resident Doctors' Association (MSRDA) on Tuesday wrote a letter to Prime Minister Narendra Modi condemning the public suspension of Chief Medical Officer (CMO) Dr. Rudresh Kuttikar at Goa Medical College & Hospital (GMCH) by Goa Health Minister Vishwajit Rane.

Though the suspension was later revoked by Goa Chief Minister Pramod Sawant after a meeting with Goa Association of Resident Doctors (GARD), MSRDA said the incident has left a severe blow to the morale and dignity of government doctors. By Tuesday evening, the doctors withdrew their protest after getting a memorandum signed by the CM.

'NSG defused drones with explosives at Jammu airport after Op. Sindoor'

Vijaita Singh
NEW DELHI

The National Security Guard (NSG) played a key role in defusing eight kilograms of explosives dropped by two drones at the Jammu civilian airport in the aftermath of Operation Sindoor, NSG Director-General Brighu Srinivasan said on Tuesday.

The NSG has been deployed for anti-Naxal operations in Gadchiroli district of Maharashtra along with the State police, Mr. Srinivasan said. This is the first time that the NSG has been deployed in a Left Wing Extremism-affected area amid the Union government's push to end Naxalism by March 2026.

The NSG is an elite counter-terror and counter-hijack force deployed during terrorist attacks in civilian areas, and also provides security cover to VVIPs. The force draws 100% of its strength from the Central Armed Police Forces (CAPF), and Army personnel on fixed deputation.

In the recent past, 17 religious sites, 21 nuclear installations, and 14 sensitive locations had been surveyed by the NSG, and their 3-D maps prepared, Mr. Srinivasan said. The NSG conducts counter-hijack and counter-terrorism exercises round the year in coordination with the State police, and 180 anti-air hijack exercises were held in 2024, he said.

"Last month, counter-terrorist exercises were conducted along with J&K Police and Indian Railways, and in future, train intervention exercises will be intensified," the Director-General said.

He was speaking at the inauguration of the 23rd edition of the NSG's Counter-Terror International Seminar under the theme "Forging collaboration and innovation to counter terror threats and address the complexities of modern terrorism".

"In January this year, on the instructions of the Ministry of Home Affairs, a security audit of Inland Waterways Cruise Liners was done, and anti-hijack exercises were conducted on cruise liners on the Ganga and Brahmaputra rivers," he said.

A specialised operations training centre is under construction at Manesar in Haryana at a cost of ₹140 crore.

Delegations from more than 17 foreign countries, including the U.S., Russia, Japan, Israel, Germany, and Indonesia, are participating, along with senior officials from the State police, the CAPF, the Indian Army, intelligence agencies, and think-tanks.

The NSG signed a memorandum of understanding with various State police forces, laying the foundation for a first-of-its-kind unified counter-terrorism coordination framework, institutionalised joint training, and first responder interoperability.

National Security Guard Director General Brighu Srinivasan at the seminar. PTI

PACL case: ED files additional charges

The Hindu Bureau
NEW DELHI

The Enforcement Directorate has filed a supplementary prosecution complaint against Harsatinder Pal Singh Hayer, son-in-law of the then Pearls Group chairman-cum-MD Nirmal Singh Bhangoo, and others in the PACL case involving ₹48,000 crore.

The case is based on an FIR registered by the CBI against PACL India Limited, PGF Limited, Nirmal Singh Bhangoo (who passed away in August 2024), and others. A special Delhi court took cognisance of the complaint on June 9. Mr. Hayer was arrested by the ED in March.

According to the ED, PACL, PGF Limited, Nirmal Singh Bhangoo and others were involved in fraudulent investment schemes to deceive investors.

Members of multi-party delegations put forward India's voice, says Modi

The Hindu Bureau
NEW DELHI

Lauding efforts: Prime Minister Narendra Modi with members of multi-party delegations in New Delhi on Tuesday. ANI

Prime Minister Narendra Modi hosted members of the multi-party delegations, part of India's diplomatic outreach in various capitals across the world following Operation Sindoor, at his official residence on Tuesday, telling them that the delegation by their very make-up and strong advocacy reinforced India's message of unity in fighting terror.

According to those present at the meeting, Mr. Modi spoke individually and in groups with the members of the multi-party delegations, and asserted that the success of the delegations should lead to a better operationalisation of inter-parliamentary friendship forums existing between India and other countries to do more for the country.

Members shared their experiences with Mr. Modi. The Central government has already praised the work of the seven delegations comprising over 50 persons, mostly current MPs.

"Prime Minister Modi was quite well briefed already with the response received by the delegations, and spoke about his own experiences with regard to these countries. For example, India's warm diplomatic relationship with Saudi Arabia was in evidence when members visited that country," an MP present at the meeting said.

'Friendship groups'

"Inter-parliamentary friendship groups were also mentioned by Prime Minister Modi, who felt that these were important to reinforce the India story in a united, bipartisan way," another MP told *The Hindu*.

Mr. Modi spoke of the interaction in a post on social media platform X. "Met members of various delegations who represented India in different countries and elaborated on India's commitment to peace and the need to eradicate the menace of terrorism. We are all proud of the manner in which they put forward India's voice," he said.

Former parliamentarians and former diplomats were also part of the delegations that visited 33 foreign capitals, and the European Union. External Affairs Minister S. Jaishankar has already met the delegations and lauded their efforts in conveying India's strong stand against Pakistan-sponsored terrorism.

How can Pak. lead the fight against terror, asks Rajnath

Defence Minister questions UN decision to appoint Pakistan as vice-chair of its counter-terrorism committee; says the country has sheltered 9/11 mastermind as well as global terror organisations

Devesh K. Pandey
NEW DELHI

Warm welcome: Defence Minister Rajnath Singh with Uttarakhand Chief Minister Pushkar Singh Dhami on Tuesday. ANI

Defence Minister Rajnath Singh on Tuesday expressed shock over a recent United Nations Security Council (UNSC) decision to name Pakistan as the vice-chair of its counter-terrorism committee, stating that it raised serious questions on the intentions and policies of the international organisations.

Stating that the same committee had been set up after the 9/11 terror attacks in the U.S., he said Pakistan had sheltered the mastermind of that attack. "Its land has been used as a refuge by global terrorist organisations. There, terrorists like Hafiz Saeed and Masood Azhar roam around openly, and senior officers of Pakistan Army attend the funerals of terrorists. Now, the same country is expected to lead the global community against terrorism. This raises serious questions on the intentions and policies of the international system," he said at an event in Dehradun, also attended by Uttarakhand Chief Minister Pushkar Singh Dhami.

The Defence Minister called upon the global community/organisations such as the United Nations to think on issues like terrorism "more seriously", noting that the goal of global peace, progress, and prosperity could be achieved only by ending terrorism. He said the common people of Pakistan were of the same view, but the "rulers" there had put that country on the path of destruction, said a government release.

'Stop funding Pak.'

Mr. Singh urged the international community to stop foreign funding to Pakistan, saying: "Funding Pakistan means funding the infrastructure of terrorism." He said the international community should put strategic, diplomatic, and economic pressure on Pakistan to deal with terrorism.

The Defence Minister said that under the Prime Minister Narendra Modi-led government over the past 11 years, there was a decisive shift in the approach towards issues of national security. "...and the world witnessed this shift during Operation Sindoor," he said.

'PoK will join us'

Following the removal of special status to Jammu and Kashmir, Pakistan could not tolerate peace and progress in J&K and carried out the terror attack in Pahalgam, he said. "Despite Pakistan's best efforts, it has not been able to stop development in Kashmir. The Udhampur-Srinagar-Baramulla railway link is a shining example of the government's relentless pursuit of progress in J&K. Soon, PoK (Pakistan-occupied Kashmir) will join us and say 'I, too, am Bharat'," he said.

He advised Pakistan to seek India's help if it was unable to take action against terrorism on its soil, stating that the Indian armed forces were capable of executing counter-terror operations on either side of the border.

CPI(M-L) likely to contest nearly 45 seats in Bihar

The Hindu Bureau
PATNA

The Communist Party of India (Marxist-Leninist), an ally of the Opposition *Mahagathbandhan* (grand alliance) in Bihar, is planning to contest nearly 45 of the 243 seats in the Assembly election this year. The party will launch a campaign, "*Badlo Sarkar-Badlo Bihar* (Change the government, change Bihar)", across the State soon.

Addressing presspersons here on Tuesday, CPI (M-L) general secretary Dipankar Bhattacharya said: "Our party has been making preparations to contest 40-45 Assembly seats in the upcoming election. In the coming days, there would be talks on seat sharing and the agendas on which the *Mahagathbandhan* would contest the polls."

In the 2020 Assembly election, the party won 12 of the 19 seats it contested. The CPI(M-L), the CPI, and the CPI(M) together won 16 of the 29.

The CPI contested six seats and the CPI(M) four. Both won two each. In the 2024 Lok Sabha election, the CPI(M-L) won two of the total 40 seats.

Why no action on notice against Justice Yadav: Sibal

The Hindu Bureau
NEW DELHI

Former Law Minister and Rajya Sabha member Kapil Sibal on Tuesday claimed that any motion to impeach Justice Yashwant Varma on the basis of the Supreme Court's in-house inquiry would be "unconstitutional".

Mr. Sibal also asked why the Chairman of the Upper House, Jagdeep Dhankhar, had not taken any action on the notice for moving an impeachment motion against Allahabad High Court Judge Shekhar Kumar Yadav. He alleged the government was trying to save the judge, who had reportedly made "communal" remarks in 2024.

Mr. Sibal pointed out that Parliamentary Affairs Minister Kiren Rijiju had reached out to different parties to move an impeachment motion against Justice Varma, who has been indicted by a three-member committee.

"I have learnt that they [the government] are saying that they don't want to refer the matter under the Judge's Inquiry Act, and they want to remove him on the basis of [the] in-house report that has been forwarded to the President of India. I warn this government that if they try that, it will be entirely unconstitutional," Mr. Sibal said.

Pakistan is in the grip of a military-terrorist nexus, says head of all-party team

The Hindu Bureau
NEW DELHI

Strong message: The all-party delegation led by BJP MP Ravi Shankar Prasad in Germany. FILE PHOTO/ANI

Pakistan is in the grip of a military-terrorist nexus, with Generals of the Pakistan armed forces using terrorism as a proxy to maintain their relevance, Bharatiya Janata Party MP Ravi Shankar Prasad said here on Tuesday. He said that Pakistani Field Marshal Asim Munir was speaking the language of fascism.

Addressing a press conference after his return as the head of a multi-party delegation that visited Italy, France, Belgium, the United Kingdom, Germany and Denmark, Mr. Prasad said that the delegation gave a historical context to India's actions concerning Operation Sindoor.

"Pakistan is not only a state in denial, but the military-terrorist nexus has become a deadly combination," he said.

"When we talked about history, we talked about how Pakistan is in the hands of Generals... The world needs to understand that Pakistan is in the grip of a military-general nexus whose dirty job is done by the terrorists and terrorist camps," he added.

He said the delegation spoke about a speech by now Field Marshal Asim Munir ahead of the Pahalgam terror attack, which mentioned how Hindus and Muslims were "different" and that the creation of Pakistan was on the basis of that difference, and that future generations of that country must be told of it. He said these were the words of a "jihadi general" and that "Asim Munir was speaking the language of fascism", which should ring alarm bells in European capitals.

'We are not aggressors'

He emphasised that India had never been the aggressor in any conflict. "We have fought conventional wars (with Pakistan), but we were never the aggressors. We made it clear that we are not against the people of Pakistan," he said.

Mr. Prasad stated that all Indian governments had made genuine attempts to foster good relations with Pakistan. "Prime Minister Modi called Nawaz Sharif [former Pakistan Prime Minister] for his swearing-in ceremony, went to his granddaughter's wedding too and then Uri [attack] happened and we gave a befitting reply; then, similarly with Pulwama, and now this [Pahalgam]," he said.

The delegation led by Mr. Prasad included BJP MPs Daggubati Purandeswari, Gulam Ali Khatana, and Samik Bhattacharya; former BJP MP M.J. Akbar; Congress MP Amar Singh; Shiv Sena (UBT) MP Priyanka Chaturvedi; AIADMK MP M. Thambidurai; and former diplomat Pankaj Saran.

Operation Sindoor was launched on May 7 in response to the April 22 terrorist attack in Pahalgam by Pakistan-sponsored militants that claimed 26 lives.

Initiate proceedings to elect Deputy Speaker, says Kharge in letter to Modi

The Hindu Bureau
NEW DELHI

In a letter to Prime Minister Narendra Modi on Tuesday, Congress president Mallikarjun Kharge said that keeping the position of the Deputy Speaker of the Lok Sabha vacant "does not augur well for India's democratic polity and is also in violation of well laid out provisions of the Constitution".

He urged the Prime Minister to initiate the process of electing a Deputy Speaker. His letter comes ahead of the Monsoon Session of Parliament, which is set to begin on July 21.

"Dear Prime Minister, I am writing to bring to your kind attention the highly concerning matter in regard to the prevailing vis-a-vis the vacancy of the Deputy Speaker in the Lok Sabha," he said.

"Article 93 of the Constitution of India mandates the election of both the Speaker and the Deputy Speaker of the House of the People. Constitutionally, the Deputy Speaker is the second-highest presiding officer of the House after the Speaker," he added.

He pointed out that traditionally, the Deputy Speaker has been elected in the second or third session of a newly constituted Lok Sabha and that from the first to the 16th Lok Sabha, every House has had a Deputy Speaker. It has been a well-established convention to appoint the Deputy Speaker from among the members of the principal Opposition party, he said. "However, for the first time in Independent India's history, this position has remained vacant for two consecutive Lok Sabha terms," he said.

Though the principal Opposition party has not proposed any name at this stage, Kodikunnil Suresh, MP from Kerala, is seen to be a front-runner, if the government agrees to fill the post.

Upendra Kushwaha bats for delimitation, says caste enumeration will benefit NDA

The Hindu Bureau
NEW DELHI

The National Democratic Alliance will benefit from the Union government's decision to enumerate caste as part of the Census exercise, said Rashtriya Lok Morcha chief Upendra Kushwaha on Tuesday, adding that delimitation was a constitutional right.

Mr. Kushwaha, a Rajya Sabha member, said at a press conference after members of the All India Kalwar Kalal Kalar Association joined the RLM.

"The Union government has already announced the caste census, the Centre will get the credit. Congress was in power for a long time. Why did they not conduct a caste census? [RJD chief] Lalu [Prasad] Yadav was a powerful Minister at the Centre, he could have pressured the government to undertake it," he said. He reiterated his demand for delimitation, arguing that opposing it was equivalent to opposing the Constitution.

Without naming anyone, he noted that some Chief Ministers from the southern States was asking people to increase population, which is against the national policy.

"I saw that a southern Chief Minister has urged people to increase their population... The government of India wants to control the population, this is against the declared policy of the country," the RLM leader said.

INBRIEF

Tourist activities launched at Shipki-La mountain pass

In a bid to promote tourism, Himachal Pradesh Chief Minister Sukhvinder Singh Sukhu on Tuesday launched border tourism activities at Shipki-La, a motorable mountain pass situated at an altitude of 3,930 metres, bordering India and China in the tribal district of Kinnaur. "We have eased restrictions for the tourists to enjoy the beauty of Shipki-La and the tourism activities here would strengthen the economy of the local people along with boosting tourism in the region," he said.

Axiom-4 mission: weather is 85% favourable for launch

The weather is 85% favourable for the launch of the Axiom-4 Mission (Ax-4) crew, SpaceX has said. The crew, including Indian astronaut Group Captain Shubhanshu Shukla, will be launched aboard SpaceX's Dragon craft to the International Space Station. "Weather is 85% favourable for liftoff, with teams continuing to monitor high-winds in the ascent corridor," SpaceX said in its latest update. The targeted time of launch is 5.30 p.m. IST on Wednesday. The mission was postponed for the second time on Monday, when bad weather prevented its launch on Tuesday. Once docked, the astronauts will spend about 14 days aboard the space station, conducting microgravity research and outreach events.

New 'weight-loss' drugs have lower impact in real life: study

Patients discontinuing treatment or using lower dosages result in less favourable outcomes than what was witnessed in the controlled setting of clinical trials, find researchers in Ohio

Ramya Kannan
CHENNAI

A recent study done in the U.S. showed that semaglutide and tirzepatide – injectable GLP-1 drugs for obesity – produce lower weight loss in a real-world setting than during the clinical trial, because patients discontinue treatment or use lower maintenance dosages.

The results were published by researchers from the Cleveland Clinic, Ohio, U.S., in the peer-reviewed journal *Obesity* on June 10. Semaglutide and tirzepatide are FDA-approved medications for the treatment of Type 2 diabetes and chronic weight management and are now also available in India.

Hamlet Gasoyan et al accessed electronic health record data from a large health system in Ohio and Florida to identify adults with overweight or obesity without Type 2 diabetes who started with injectable semaglutide or tirzepatide between 2021 and 2023. They recorded early discontinuation (within three months) and late discontinuation (within 3-12 months) along with weight reduction.

The constant follow-up to ensure continuation of treatment in a clinical trial is missing in real life, doctors say. GETTY IMAGES

The researchers observed that treatment discontinuation and use of lower maintenance dosages might reduce the likelihood of achieving clinically meaningful weight reduction in patients on these drugs.

Researchers also identified the factors associated with higher odds of achieving a weight loss of 10% or more, after one year of treatment – continuing medications or discontinuing late (vs early), taking a high maintenance dosage, getting tirzepatide (vs semaglutide) and being female (vs male).

Commenting on the results of the study, V. Mohan, senior diabetologist, and chairman, Dr. Mohan's Diabetes Specialties Centre, Chennai, who has initiated patients on weight-loss drugs, says: "The findings are not surprising because in a randomised clinical trial (RCT), there is constant follow up with the participants to continue with the drug regimen. On the other hand, in the real world, especially if patients buy their own medication, they often stop the drug. Even otherwise, compliance rates in real world are much poorer than in an RCT. The bottom line is that these drugs work as long as they are taken. That is how it is with most drugs; if you stop statins, for instance, cholesterol levels go up; if you stop anti-diabetic drugs or BP drugs, the sugar and BP go up."

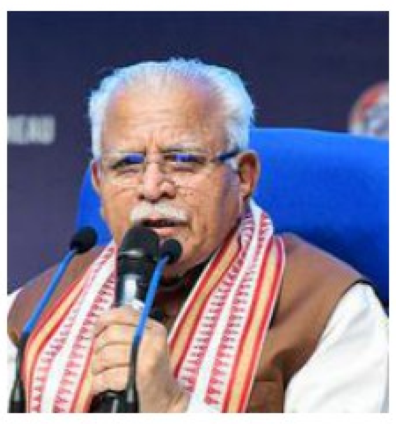
'A reality check'

Anoop Misra, who heads Fortis C-DOC Hospital for Diabetes and Allied Sciences in Delhi, says: "This study gives us a reality check of weight loss and blood sugar-lowering effects of these drugs. It is important to note that discontinuation of such drugs is likely to be more in India, driven also by cost concerns. Non-compliance to diet and exercise are additional reasons to be considered in India which may cause lower weight loss."

"Our findings about the real-world use patterns of these medications and associated clinical outcomes could inform the decisions of healthcare providers and their patients," Dr. Gasoyan said.

Pollution Board to decide on future of FGD units: Minister

Jacob Koshy
NEW DELHI



Manohar Lal Khattar

The Union Power Ministry will wait for the Central Pollution Control Board (CPCB) to decide on whether flue gas desulphurisation (FGD) units should be mandatory for all coal-fired thermal power plants, Union Power Minister Manohar Lal Khattar said at a press conference on Tuesday.

On June 4, *The Hindu* reported on a meeting in April involving a high-powered panel of experts, chaired by Principal Scientific Adviser Ajay Sood. The group recommended that India do away with its policy of mandating equipment, including FGD units, in coal-fired thermal power plants (TPPs).

While 92% of India's 600 TPPs have not yet installed FGD units, the recommendation exempts about 80% of them from installing such equipment. So far, the government has granted three extensions since 2017, the latest being in December 2024, for plants to comply by 2027-2030.

The FGDs are an additional piece of equipment required to be retrofitted in TPPs to cut harmful sulphur dioxide emissions resulting from burning coal. Sulphur dioxide emissions can also hover in the atmosphere and form aerosols of sulphates that, on the one hand, can somewhat temper the heat from global warming, but also exacerbate particulate matter pollution and respiratory diseases.

"Scientific institutions such as CSIR (Council of Scientific and Industrial Research), IIT (Indian Institute of Technology) Delhi have studied this. The sulphate aerosols from these coal plants aren't to the extent that they affect human health...it is less than 5%. On the contrary, it is necessary that some of it remain in the atmosphere," Mr. Khattar said.

New NCERT textbooks don't carry 'poverty and colonised' narratives, says panel member

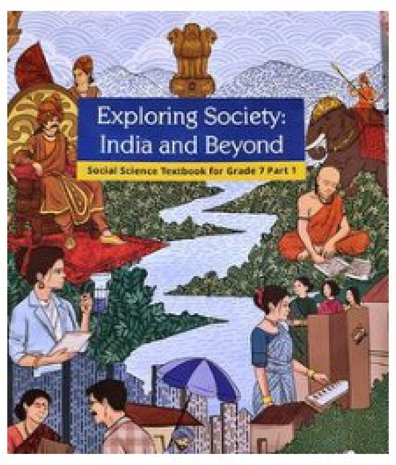
Maitri Porecha
NEW DELHI

The new social science textbooks developed by the National Council of Educational Research and Training (NCERT) have broken away from the "old poverty and colonised narratives", said Sanjeev Sanyal, member of the Prime Minister's Economic Advisory Council (PM-EAC) and Chairperson of NCERT's Curricular Area Group Economics, on Tuesday.

"The new NCERT textbooks for Class 7 are out... Note that the images are clear and in colour, the economics section teach[es] ideas using modern examples, and history tries to focus on storytelling rather than dates. I am sure these too will be changed with iterations, but we have broken away from old poverty and gratefully colonised narrative," he said on X.

Mr. Sanyal further said that the economics segment in the old textbooks (from 2012) was "deliberately" designed for "povertarian narratives". "Images from Partition-time refugee schools, all technology was steam engines, the chapter on markets was about how fair price shops and how shopkeepers were 'hoarding', and the chapter on finance was all about women's self-help groups," he said.

The Hindu had reported that the new social science textbook for Class 7 – *Exploring Society: India and Beyond* – has combined previously separate textbooks on history, geography and social and political life (which also had a section on economics).



The new book combines earlier books on history, geography and social and political life.

Digital money in

The new book deals with economics in Theme E in two chapters – From *Barter to Money* and *Understanding Markets*.

The *From Barter to Money* chapter goes into the basic details of barter system, the history of money, coinage system during the Chalukyas, Cholas, and goes on to discuss use of digital money, including systems of net banking and United Payments Interface. The second chapter, *Understanding Markets*, also delves into the history of markets by featuring a section on Karnataka's historical Hampi Bazaar, and goes on to explain how modern markets work.

In comparison, the previous NCERT textbook for Class 7 focused only on contemporary agrarian markets, dedicating a section to weavers' cooperatives.

It included exercises like writing a letter to the Minister on what students think should be the proper payment to workers, after providing graphics on the current situation of labour charges in the garment industry.

While the old textbook is replete with multiple examples, the new textbook too, delves into a similar exercise in the context of a modern-day setting where a family would bargain with a vegetable seller to lower the price of vegetables, but would go to supermarkets and end up buying it at a slightly higher price.

Similarly, Mr. Sanyal also mentioned that while the economics sections of Classes 6 and 7 textbooks had been revised, his team was now looking at revising Class 8 books.

What's missing

The economics section in old NCERT textbooks of Class 6 was distinctly divided into two chapters – *Rural Livelihoods* and *Urban Livelihoods*. The *Rural Livelihoods* chapter touched upon daily wage workers working in paddy fields of rural Tamil Nadu. An entire section was dedicated to farmers being in debt, on the hardships faced by people living in fishing villages, and so on.

In comparison, one of the chapters in the new Class 6 textbook's economics section begins with a quote from Kautilya's *Arthashastra*, with a segment on the dairy cooperative revolution and Amul's role in Gujarat. While the old Class 6 textbook had detailed case studies on farmers and debt, the new textbook does not include these details.

DGCA to conduct radio communication exam for pilots from November

Jagriti Chandra
NEW DELHI

The exam for testing the radio communication skills of aspirants to the aviation sector will be administered by the Directorate General (DGCA) of Civil Aviation starting November, according to a senior official of the Ministry of Civil Aviation.

In the past, the examination has been plagued by malpractices and arbitrariness, forcing many to either pay hefty bribes or take the exam overseas.

The conduct of the exam – taken by pilots, aircraft maintenance engineers and flight dispatchers for procuring a licence for Radio Telephony Restricted (Aeronautical) – will shift from the Wireless Planning and Coordination Cell (WPC) of the Ministry of Electronics and Information Technology (MEITY) from November so that all the tests come under the administrative control of the DGCA. "The move will ensure a single-window clearance for pilot aspirants and other personnel as well as streamline the exam taking process," a senior official of the Ministry of Civil Aviation said, speaking on the condition of anonymity.

The Ministry has now appointed a committee to prescribe a syllabus for the RTR exam, and will notify rules shortly.

Bribery allegations

The exam has long been dreaded by the pilot community because of rampant corruption, including alleged bribery and swapping of answer papers.

This was partly fuelled by inconsistencies such as a lack of a published syllabus and trained personnel for conducting the exam.

One aspiring pilot recounted paying ₹2 lakh as a bribe, while another said he flew to Canada to appear for the RTR exam as it sees a large number of rejections in India. The cost of flight tickets was less than the bribe he may have had to pay, he said.

"The DGCA must ensure that the transfer of the exam doesn't merely result in a shift from one corrupt control centre to another. It must follow the International Civil Aviation Organization's Annexe 1 Standards and Recommendations for licensing of personnel as India is the only country that makes life miserable for aviation personnel by conducting multiple exams. There is an opportunity for India to ensure our pilots remain within the country," said Mohan Ranganathan, a former examiner on Boeing 737s.

FAITH

Azhvar's disciple

Kani Kannan was Tirumazhisai Azhvar's disciple, and an ardent devotee of Vishnu, said V.S. Karunakaracharier in a discourse. Kani Kannan had his ashram in Kancheepuram. He was so engrossed in dhyana, that he never got round to cleaning his ashram. But when Kani Kannan was immersed in meditation, an old woman swept his ashram every day. When he opened his eyes and learnt of her service, he asked her what she wanted. The old woman said she wanted her youth back. Kani Kannan granted her the boon she wanted, and she became a lovely teenager! The King of Kancheepuram fell in love with the young girl that the old woman had become, and married her. Over the years, the king aged, but she did not. When the king learnt of the secret of his queen's eternal youthfulness, he asked Kani Kannan to give him the same gift of youth. But Kani Kannan refused. The angry king exiled him, and Kani Kannan had to leave Kanchi.

When Tirumazhisai Azhvar came to know of this, he said to the reclining Lord of Tiruvekha: "Kani Kannan is leaving. And I, the fearless poet, am leaving too. You too roll up your snake bed and follow us." The Lord did as He was told! With the departure of the Lord, Kanchi was plunged into darkness. When the king came to know the reason for the sudden darkness, he realised his mistake and requested Kani Kannan to come back. Tirumazhisai Azhvar then said to the Lord, "Kani Kannan is returning to Kanchi and so am I. You spread your serpent bed again." And the Lord promptly spread the snake Adisesha, who served as His bed, and went back to His reclining position in Tiruvekha.

INBRIEF

TVS Motor unveils Apache with OBD2B compliance

Two and three wheeler manufacturer TVS Motor Company has unveiled 2025 TVS Apache RTR 200 4V range of motorcycles, now OBD2B compliant and equipped with advanced technology, superior performance and improved safety features. The new range of the motorcycle is available at all the company dealerships with prices starting at ₹1,53,990 (ex-showroom Delhi). The unveiling marks 20 years of Apache range of motorcycles, which already has six million riders worldwide. PTI

Pantomath Group arm unveils ₹2,000-cr. Bharat Bhoomi Fund

The Wealth Company Asset Management Pvt. Ltd., a part of the Pantomath Group, has announced a ₹2,000-crore Bharat Bhoomi Fund – a ₹1,000-crore Category II AIF with a ₹1,000-crore greenshoe option under its fifth Bharat Value Fund Series, targeting the realty sector. With a robust pipeline of about 1,200 acres across six projects, Bharat Bhoomi Fund is well-positioned to deploy capital with speed, prudence and precision, the company said. PTI

Garment maker Pearl Global to invest ₹250 crore in FY26

Apparel maker Pearl Global, which has 24 manufacturing facilities in nine countries, is looking at $1 billion revenue by 2030. The New Delhi-based company registered $530 million in FY25 and is looking at about 15% growth every year. Pearl Global has planned a ₹250-crore capital investment this year, with the majority going to Bangladesh, MD Pallab Banerjee said. The firm has opened one plant in Bihar and will upgrade its facilities in Chennai and Bengaluru.

Maruti Suzuki cuts near-term EV production amid rare earths crisis

Reuters
NEW DELHI

Maruti Suzuki has slashed near-term production targets for its maiden electric vehicle e-Vitara by two-thirds because of rare earths shortages, a document showed, in the latest sign of disruption to the auto industry from China's export curbs.

India's top carmaker, which said on Monday it had not seen any impact yet from the supply crisis, now plans to make about 8,200 e-Vitaras between April and September, versus an original goal of 26,500, according to a company document seen by *Reuters*.

It cited "supply constraints" in rare earth materials that are vital in making magnets and other components across a range of hi-tech industries.

Output target

Maruti Suzuki still plans to meet its output target of 67,000 EVs for the year ending March 2026 by ramping up production in subsequent months, the document said.

China's curbs on some rare earth exports have rocked the global auto industry, with companies warning of severe supply chain disruptions.

While some companies in the United States, Europe and Japan are seeing supplies easing as they secure licences from Beijing, India is still waiting for China's approval amid fears of production stoppages.

Equity MF net inflows dip to one-year low at ₹19,013 crore

Cooling down of returns comes amid increased volatility owing to tariff announcements and Indo-Pak. tension, making investors tread with caution, according to industry experts

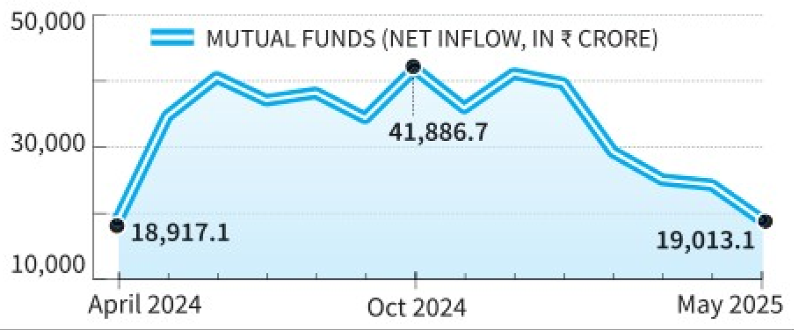
Ashokamithran T.
MUMBAI

Net inflows into large cap mutual fund schemes halved to ₹1,250.4 crore in May, according to data from the Association of Mutual Funds in India (AMFI).

Mid cap schemes dipped 15.25% to ₹2,808.7 crore, while net inflows into small cap funds fell 20% to ₹3,214 crore in May 2025. The reduced inflows coincided with a three-month low monthly return in Nifty 50. The index was

New low

May marks the 5th consecutive month of decline in equity funds inflows and a nearly 22% drop compared with April 2025



SOURCE: CMIE

up just 1.7% by the end of May. This was 3.5% in April and 6.4% in March.

This cooling down of returns comes at a time of increased volatility owing to tariff announcements and tensions between India and Pakistan, which may have created caution among investors, according to industry experts.

"Equity inflows moderated to ₹19,013 crore this month, reflecting cautious investor sentiment amidst market volatility," said Venkat Chalasani, CEO, AMFI.

SIPs remain flat

Systematic Investment Plans' (SIP) contribution stayed more or less flat at ₹26,688 crore in May 2025. The number of contributing SIP accounts too stayed at 8.6 crore in May.

Mumbai Metro One secures arbitration award against MMRDA

The Hindu Bureau
MUMBAI

Mumbai Metro One Pvt. Ltd. (MMOPL), a subsidiary of Reliance Infrastructure Ltd. (RIL), has secured an arbitration award against Mumbai Metropolitan Region Development Authority (MMRDA), a state government entity.

According to a filing by RIL, the Bombay High Court has directed MMRDA to deposit ₹1,169 crore into MMOPL's account within four weeks.

RIL said the proceeds will be used to reduce MMOPL's debt.

Reliance Infrastructure said the proceeds will be used to reduce MMOPL's debt

"The Bombay High Court, after noting that no case was made out for an unconditional stay, passed an order directing the MMRDA to deposit the entire awarded amount–approximately ₹1,169 crore [inclusive of accrued interest as of May 31, 2025] – with the Registry of the court on or before July 15, 2025," RIL said in a filing.

FSDC looks to enhance cybersecurity, ease compliance burden

The Hindu Bureau
NEW DELHI

The Financial Stability and Development Council (FSDC) chaired by Union Finance Minister Nirmala Sitharaman, on Tuesday examined various ways to enhance the cyber resilience framework of the financial sector and ease the compliance burden.

"In light of the analysis of cybersecurity regulations, sectoral preparedness, and the recommendations of Financial Sector Assessment Programme (FSAP) 2024-25, the FSDC considered strengthening the cyber resilience framework of the Indian financial sector through a financial sector-specific cybersecurity strategy," the Finance Ministry said.

The FSDC also looked into ways to implement past decisions, such as reducing the amount of unclaimed assets in the financial sector, and seamless refund of such assets to the rightful owners.

The FSDC also discussed prescribing common know-your-customer (KYC) norms and simplify the process, including for NRIs, in the Indian securities market.

'Targeted policy intervention to boost green mining vehicles'

Lalatendu Mishra
MUMBAI

India requires targeted and well-defined policy interventions to drive the adoption of alternative Heavy Earth Moving Machinery (HEMM) in mining operations, according to the "Study on Adoption of Cleaner Vehicles for the Indian Mining Industry".

The study was undertaken by the Sustainable Mining Initiative, a division of the Federation of Indian Mineral Industries in association with Deloitte which prepared a detailed report.

"India requires a coherent policy framework that integrates technology-specific incentives, regulatory enablers, infrastructure development and demand-side interventions," as per the report.

Cost, a deterrent

Emphasising green HEMMs were significantly more expensive upfront compared with conventional equipment, it said high initial capital outlay was a major deterrent.

"To address this, targeted incentives such as capital subsidies, premium rebates linked to fleet size, and upfront payment relaxations are critical to de-risk adoption," it said.

"Power subsidies for charging infrastructure and reduced financing costs can further accelerate early deployment. Over time, star rating reforms, production-linked incentives and mandatory adoption clauses can drive scale, lower costs, and mainstream cleaner HEMM usage across the sector," it said.

"These coordinated efforts will provide sustained policy and infrastructure support for fully decarbonized HEMM sector."

India's mining equipment market generated $6.4 billion in revenue in 2024

Stating by 2035, the number of HEMMs would see a significant increase across categories, the report said, "This significant growth in HEMM deployment, driven by increased production targets and supportive government initiatives, also brings with it a sharp rise in fuel consumption and associated CO_2 emissions."

As thousands of high-capacity machines are added to mining fleets, the environmental footprint of operations would expand substantially.

Need for transition

"This underscores the urgent need to transition towards alternative fuel HEMMs – such as those powered by electricity, hybrid systems or hydrogen.

"Proactive adoption of cleaner technologies is critical to ensuring the sector's growth aligns with India's sustainability and net-zero commitments. It is therefore paramount for the country that key gaps in adoption of cleaner fuel HEMMs must be addressed through targeted interventions," it stated.

As per industry analysis, India's mining equipment market generated $6.4 billion in revenue in 2024 and is likely to grow at a CAGR of 6.5%, reaching $11.34 billion by 2033.

Israel deports Thunberg after intercepting Gaza-bound aid boat

AP

Israel deported campaigner Greta Thunberg on a flight to Sweden via France, after detaining her along with other activists aboard a Gaza-bound aid boat. Of the 12 persons on board the *Madleen* carrying food and supplies for Gaza, five French activists were taken into custody after they refused to leave Israel voluntarily. AFP

YANGON

Myanmar guerrillas claim to have shot down junta's aircraft

AP

Myanmar guerrillas claimed to shoot down a junta jet on Tuesday, declaring a rare victory over the Air Force which has kept them at bay in a grinding civil war. The military denied their claim, saying the plane crashed near the village of Min Taing Pin around mid-day because of "sudden engine failure" while on a "practice flight". AFP

U.K., four allies impose sanctions on Israeli Ministers Ben-Gvir, Smotrich

The Cabinet members were sanctioned 'for inciting violence against Palestinians in the West Bank', according to a joint statement by the U.K., Australia, Canada, New Zealand and Norway; Tel Aviv expressed 'outrage' over the countries' move

Sriram Lakshman
LONDON

The U.K, along with Australia, Canada, New Zealand and Norway, has sanctioned two Israeli Ministers, Itamar Ben-Gvir and Bezalel Smotrich, on Tuesday, "for inciting violence against Palestinians in the West Bank". While the move was focused on the West Bank, a joint statement from the countries said it could not be viewed in isolation from the "catastrophe" in Gaza.

Pressure points: Itamar Ben-Gvir, left and Bezalel Smotrich will be subject to an asset freeze and travel ban by the U.K. REUTERS

"There must be no unlawful transfer of Palestinians from Gaza or within the West Bank, nor any reduction in the territory of the Gaza Strip," the statement said.

With regard to the U.K., both Ministers will immediately be subject to an asset freeze, travel ban and be disqualified from the directorship, management, formation or promotion of a British company.

The move comes as pressure mounts on the government of U.K. Prime Minister Keir Starmer to change tack and adopt a stronger position against Israel's actions, particularly its military operations in Gaza and restrictions on humanitarian aid reaching the strip.

Last month, the U.K. announced sanctions against certain Israeli settlers in the West Bank and the suspension of trade talks with Tel Aviv. Last week, former Labour leader Jeremy Corbyn led a group of MPs in introducing a Bill in parliament calling for an independent inquiry into the U.K. government's role in the Israel-Gaza conflict since October 2023.

Israeli Foreign Minister Gideon Sa'ar said the Israeli government had been "informed" of the U.K.'s decision to sanction its Ministers . Mr. Sa'ar said it was "outrageous" that elected representatives could be subject to these kind of actions and that a special meeting would be held next week to decide on a response .

The sanctioning countries emphasised that the move did not undermine their "unwavering" commitment to Israel's security and their condemnation of the October 7, 2023 attack on Israel by Hamas. The actions of Mr. Smotrich and Mr. Ben-Gvir had undermined Israel's security, the statement said.

School shooting in Austria's Graz leaves at least 10 dead

Associated Press
GRAZ

A former student opened fire at a school in Austria's second-biggest city on Tuesday, killing 10 persons and injuring many others before taking his own life, authorities said.

There was no immediate information on the motive of the 21-year-old man, who had no previous police record. He used two weapons, which he was believed to have owned legally, police said.

Moment of horror: Policemen headed to the school in Graz in southeastern Austria where the shooting took place on Tuesday. AFP

"Today is a dark day in the history of our country," Austrian Chancellor Christian Stocker said in Graz, a city of about 3,00,000 people in southeastern Austria.

He called it "a national tragedy that shocks us deeply" and said there would be three days of national mourning.

Special forces were among those sent to the BORG Dreierschützengasse high school, about a kilometre from Graz's historic centre, after calls at 10 a.m. reporting shots at the building.

Interior Minister Gerhard Karner said the gunman had been a student at the school and had not completed his studies. He did not specify when the man left the school or at what age.

Mr. Karner said on Tuesday afternoon that six of the dead were women and three men. He said 12 persons were wounded. The state hospital in Graz later said that a tenth victim, an adult woman, had died of her injuries.

Trump sends Marines along with Guards to Los Angeles

Associated Press
LOS ANGELES

Another 2,000 National Guard troops along with 700 Marines are headed to Los Angeles on orders from U.S. President Donald Trump, escalating a military presence local officials and Governor Gavin Newsom don't want and the police chief says creates logistical challenges for safely handling protests.

Civil unrest: Protesters jump over a fence to avoid being held by the police during the protests in Los Angeles on Monday. AP

An initial 2,000 Guard troops ordered by Mr. Trump started arriving on Sunday, which saw the most violence during three days of protests driven by anger over Mr. Trump's stepped-up enforcement of immigration laws. Monday's demonstrations were far less raucous, with thousands peacefully attending a rally at City Hall and hundreds protesting outside a federal complex.

Mr. Trump has described Los Angeles in dire terms that Mayor Karen Bass and Mr. Newsom say are nowhere close to the truth. They say he is putting public safety at risk by adding military personnel even though police say they don't need the help.

Los Angeles Police Chief Jim McDonnell said in a statement he was confident in the police department's ability and that the Marines' arrival without coordinating with the police department would present a "significant logistical and operational challenge" for them.

Israel strikes schools to exterminate Gazans: UN

Agence France-Presse
GENEVA

An independent United Nations commission said on Tuesday Israeli attacks on schools, religious and cultural sites in Gaza amount to war crimes and the crime against humanity of seeking to exterminate Palestinians.

The UN Independent International Commission of Inquiry on the Occupied Palestinian Territory accused Israeli forces of committing "war crimes, including directing attacks against civilians and wilful killing, in their attacks on educational facilities. In killing civilians sheltering in schools and religious sites, Israel committed the crime against humanity of extermination," it said.

Three killed, 13 injured as Russia strikes two Ukrainian cities with missiles, drones

Associated Press
KYIV

Russia attacked two Ukrainian cities with waves of drones and missiles early on Tuesday, killing three persons and wounding at least 13 in what President Volodymyr Zelenskyy called "one of the biggest" strikes in the three-year-old war.

Wave of attacks: People walk past a damaged building following Russian drone strikes on Ukraine's capital Kyiv on Tuesday. AFP

The attack struck Kyiv and the southern port city of Odesa. In an online statement, Mr. Zelenskyy said that Moscow's forces fired over 315 drones, most of them Shaheds, and seven missiles overnight.

"Russian missile and Shahed strikes are louder than the efforts of the U.S. and others around the world to force Russia into peace," Mr. Zelenskyy wrote, urging "concrete action" from the U.S. and Europe in response to the attack.

A maternity hospital and residential buildings in the southern port of Odesa were damaged in the attack, regional head Oleh Kiper said. Two persons were killed and nine injured, according to the regional prosecutor's office.

Another person was killed in Kyiv's Obolon district, regional head Tymur Tkachenko wrote on Telegram. "Russian strikes are once again hitting not military targets but the lives of ordinary people," he said.

The fresh attacks came a day after Moscow launched almost 500 drones at Ukraine in the biggest overnight drone bombardment in the war.

HAPPY HUNTING GROUND

Australia and South Africa have a formidable record at Lord's

AFP

Lord's holds no demons for both Australia and South Africa ahead of the WTC final. Australia has not lost at Lord's for 10 years. South Africa has lost only once at Lord's in seven post-apartheid Tests while winning five and drawing one. The last appearance resulted in an innings victory inside three days against England in 2022.

GOOD FUN

Always an even battle between bat and ball at Lord's, reckons Smith

REUTERS

At Lord's, there's always sort of something going on. There's always something going off for the bowlers, particularly if the clouds roll in. And then when the clouds are out, it can be really nice to bat. It's a cool game playing here in England. It should be a fun week — Australia's veteran batter Steve Smith.

LONG-AWAITED DUEL

The finalists meet for the first time in the current WTC cycle

AP

World Test Championship finalists Australia and South Africa didn't meet in the current cycle. Their last series was in 2022-23, when Australia clinched the three-match series 2-0 at home under Pat Cummins. The Aussies won in Brisbane and Melbourne while the New Year's Test in Sydney was drawn.

CHALLENGE AT NO. 3

'Mulder can take comfort in the fact that the guys are backing him'

GETTY IMAGES

He (Wiaan Mulder) has an opportunity in a pressure situation and he can take comfort in the fact that the guys are backing him and we just want him to go out and play his natural game — South Africa captain Temba Bavuma on picking all-rounder Mulder to bat at No. 3 in the WTC final.

Proteas up against mighty Australia

The ruthlessness the Aussies bring to the biggest stage is in marked contrast to South Africa's; Labuschagne to open with Khawaja

WTC FINAL

Associated Press
LONDON

When it comes to major cricket finals, Australia is in a league of its own.

Only Australia has won all four men's global trophies. It is hard to beat in finals, having won 10 of 13 across the 50-over World Cup, 20-over World Cup, Champions Trophy, and World Test Championship. And let's not get started on the women's team, which is even more dominant.

The men go for world title No. 11 from Wednesday in the WTC final against South Africa at neutral Lord's.

That ruthless focus Australia brings to the biggest stages is in marked contrast to South Africa's, a perennial underachiever. South Africa has won just one major title, the Champions Trophy in 1998, when most of the current Proteas were toddlers.

Cannot underestimate

An experienced squad — average age 29-and-a-half — compensates with a bond that can't be underestimated, a determination to have each other's backs.

That showed often in the 2023-25 WTC cycle as the Proteas, who used 30 players, more than any other team, found a run-scorer or wicket-taker at just the right time.

They won their last seven Tests and were first to qualify for the final.

Australia already was a veteran team when it won the 2023 final by crushing India by 209 runs at The Oval.

Ten of that 11 are back in the squad. Only the retired David Warner is missing.

Medium-pacer Josh Hazlewood was injured and didn't feature, but he's replaced one of the 2023 stars, Scott Boland in the playing XI.

Hazlewood overcame a shoulder injury to spearhead Royal Challengers Bengaluru to a first Indian Premier League title last week with 22 wickets in 12 matches.

Warner's permanent replacement at the opening slot still hasn't been settled. Marnus Labuschagne, who has opened only once since 2016, will partner Usman Khawaja at the top of the order in the final.

All-rounder Cameron Green still has three hundreds for Gloucestershire in a comeback from lower spine surgery which sidelined him for six months. But he's not ready to bowl.

It may not matter. Australia has four of its top 10 all-time leading wicket-takers in Nathan Lyon (553, third), Mitchell Starc (382, fifth), captain Pat Cummins (294, eighth), and Hazlewood (279, 10th).

Star batter Steve Smith turned 36 last week and hasn't played in the top flight since March, just like Khawaja, Lyon, Boland, and wicketkeeper Alex Carey. But they're entrusted with the knowhow to switch on when it counts.

Smith has four hundreds in his last five Tests, and passed 10,000 career runs, almost as many as the South Africans. At Lord's he averages 58.

Khawaja and Labuschagne will have to face fearsome South Africa pacer Kagiso Rabada. Khawaja will have his hands full. The left-hander has fallen to Rabada five times in 10 matches.

Milestone alert

Rabada, with 327 wickets, is three away from tying Allan Donald for fourth place on South Africa's all-time list.

Rabada will have the company of left-armer Marco Jansen, who took 29 wickets in six matches in the cycle.

The third seamer will be Lungi Ngidi, who was one of eight South Africans at the IPL. South Africa just like Australia has announced its playing XI.

Middle-order batter David Bedingham, South Africa's leading scorer in the cycle, has recovered from a broken toe sustained in April.

The playing XIs:
Australia: Pat Cummins (Capt.), Usman Khawaja, Marnus Labuschagne, Cameron Green, Steve Smith, Travis Head, Beau Webster, Alex Carey (wk), Mitchell Starc, Nathan Lyon and Josh Hazlewood.
South Africa: Temba Bavuma (Capt.), Aiden Markram, Ryan Rickelton, Wiaan Mulder, Tristan Stubbs, David Bedingham, Kyle Verrynne, Marco Jansen, Keshav Maharaj, Kagiso Rabada and Lungi Ngidi.
Umpires: Chris Gaffaney (NZ) and Richard Illingworth (Eng).
TV umpire: Richard Kettleborough (Eng).
Fourth umpire: Nitin Menon (Ind).
Match starts at 3 p.m. IST.

ThunderBlades lose, face an anxious wait

UTT

Amol Karhadkar
AHMEDABAD

It was a battle between a side that had to win big to put other teams in contention for the knockouts under pressure and a team that was fighting to avoid the wooden spoon.

While Kolkata ThunderBlades crumbled, Ahmedabad SG Pipers ended its Ultimate Table Tennis season with a tag of the party-pooper.

Fingers crossed

Pipers' 8-7 win on Tuesday means that ThunderBlades must keep their fingers crossed for the next two league games.

With Goa Challengers and Dabang Delhi TTC having sealed a place in the semifinals, ThunderBlades had to win at least nine games to put the other three contenders under real pressure.

But Ankur Bhattacharjee threw away a great start against Germany's Ricardo Walther. Leading 8-1 and 9-4, Ankur took it slightly easy, and the seasoned Walther then exposed his opponent's weakness on the forehand corner to run away with the game and the match.

Adriana Diaz then had to beat Ayhika Mukherjee with a 3-0 margin to keep ThunderBlades on course for a semifinal spot. But Ayhika's long-pimples on both sides trapped Diaz in the opening game as the Indian opened up the gap in favour of the Ahmedabad outfit. Leading 5-4 at the end of the mixed doubles, ThunderBlades banked their hopes on Aruna Quadri blanking SFR Snehit, and Selenadeepthi Selvakumar to repeat the feat against debutant Yashini Sivashankar in an all-Tamil Nadu battle.

But Snehit turned the tables on Quadri with his aggressive forehand to win 3-0. Yashini gave ThunderBlades the last laugh by winning the third game despite failing to convert three game points in the first.

Winning start: Pipers' Walther relied on his experience to trump Ankur. VIJAY SONEJI

The result: Kolkata ThunderBlades lost to Ahmedabad SG Pipers 7-8
(Ankur Bhattacharjee lost to Ricardo Walther 10-11, 5-11, 11-10; Adriana Diaz bt Ayhika Mukherjee 10-11, 11-8, 11-1; Diaz & Ankur bt Ayhika & Walther 11-10, 8-11, 11-7; Quadri Aruna lost to S.F.R. Snehit 10-11, 9-11, 8-11; Selenadeepthi Selvakumar bt Yashini Sivashankar 11-10, 4-11, 11-10).

The standings:
Dempo Goa Challengers 44 points (5 matches) Qualified, Dabang Delhi TTC 39 points (4) Q, Kolkata ThunderBlades 36 (5), Jaipur Patriots 32 (4), U Mumba TT 32 (4), Stanley's Chennai Lions 29 (5), PBG Pune Jaguars 28 (4), Ahmedabad SG Pipers 22 (4).

Wednesday's match:
Jaipur Patriots vs PBG Pune Jaguars (7.30 p.m.).

India pays the penalty for missed opportunities

ASIAN CUP QUALIFIER

Press Trust of India
KOWLOON

Intense: The teams fought hard to get the better of the other. AIFF

A profligate Indian football team suffered 1-0 defeat to host Hong Kong after an injury-time goal by Stefan Pereira in a crucial 2027 AFC Asian Cup Qualifier match at the Kai Tak Sports Park here on Tuesday.

The referee awarded Hong Kong the penalty after custodian Vishal Kaith came out of the goal-line and tried to palm the ball to safety, only to end up hitting Michael Udebuluzor. Pereira (90+4) shot to the right of Kaith, who was also shown a yellow card.

Earlier, coach Manolo Marquez kept out Sunil Chhetri from the starting XI. India did create a few chances in the first half, even though Hong Kong enjoyed more possession. But, as has been the trend in recent times, lack of finishing let the Blue Tigers down.

Ashique Kuruniyan shot the ball wide from a close range after Liston Colaco ran down the left to provide him a nice cross in the 35th. Kuruniyan missed another chance to break the deadlock minutes into the second half. Soon after, coach Marquez brought on Chhetri alongside Naorem Singh in place of Kuruniyan and Brandon Fernandes.

In the 81st minute, Lallianzuala Chhangte found Chhetri with a cutback inside the box, but the veteran was not able to connect well.

The result:
Hong Kong 1 (Pereira 90+4) bt India 0.

INBRIEF

Ruturaj to play for Yorkshire in Div. One and One-Day Cup

Indian batter Ruturaj Gaikwad will join Yorkshire for five matches of the County Championship's Division One as well as the One-Day Cup. Ruturaj will link up with the Yorkshire squad ahead of its County match against Surrey at Scarborough in July and will remain with the team until the end of the season, the club said on its website.

Race walker Priyanka notches up her first win of the season

India's Priyanka Goswami notched up her first victory of the season, taking the top spot in women's 10km event in 47m 54s at the Austrian race walking championships at Innsbruck on Monday. In the men's 35km race walk, Sandeep Kumar finished second, clocking 2:38:45 while Ram Baboo was third in 2:41:47.

Bopanna drops out of top-50 in men's doubles after 15 years

Rohan Bopanna, who is still playing solidly in doubles at 45, has lost his place in the top-50 for the first time in 15 years, while a string of early exits on the ATP circuit has taken a toll on Sumit Nagal's singles ranking as he is now placed 233rd, his lowest in almost two years after a drop of 63 places.

Indians' rankings (top five): Singles: Sumit Nagal (233), Sasikumar Mukund (430), Karan Singh (445), Aryan Shah (483), Dev Javia (621). **Doubles:** Yuki Bhambri (35), Rohan Bopanna (53), N. Sriram Balaji (72), Rithvik Bollipalli (72), Vijay Sundar Prashanth (100).

Manchester City signs Algeria left-back Ait-Nouri

Manchester City signed Algeria left-back Rayan Ait-Nouri from Wolverhampton for a reported fee of €37 million on Monday. City has been deploying Nathan Ake and Josko Gvardiol at left-back in recent seasons. Ait-Nouri joined Wolves from French team Angers in 2020.

Sumit Nagal crashes out in the opening round

Sixth seed Sumit Nagal was beaten 6-4, 7-6(4) by Geoff Blancaneaux in the first round of the €145,250 Challenger tennis tournament in Lyon, France.

The results: €751,630 ATP, Stuttgart: Doubles (pre-quarterfinals): Santiago Gonzallez (Mex) & Austin Krajicek (USA) bt Yuki Bhambri & Robert Galloway (USA) 7-6(5), 7-6(5).
€145,250 Challenger, Lyon, France: Singles (first round): Geoff Blancaneaux (Fra) bt Sumit Nagal 6-4, 7-6(4).
$15,000 ITF men, Luan, China: Doubles (pre-quarters): Parth Aggarwal & Siddharth Vishwakarma bt Xing Dao Chen & Zhenxiong Dong (Chn) 6-3, 6-1.
$15,000 ITF women, Tashkent, Uzbekistan: Doubles (pre-quarterfinals): Pooja Ingale & Jeong Moon (Kor) bt Kira Batakina & Polina Kaibekova 6-3, 6-4; Mia Horvit (USA) & Aruzhan Sagandykova (Kaz) bt Vanshita Pathania & Sonali Patil 6-3, 6-0; Akanksha Nitture & Soha Sadiq bt Nigina Alimova & Zlata Chinnova (Uzb) 6-3, 6-2.

Hockey Karnataka trials for sub-junior women's team

Hockey Karnataka will conduct selection trials for the State sub-junior women's team ahead of the 15th Hockey India Sub Junior Women National Championship 2025, to be held in Ranchi from July 3 to 14. The trials will be held at the Hockey Stadium, Shanthinagar on 14 June (9.30 a.m. onwards). Players born on or after January 1, 2009, are eligible.

Igor Tudor confirmed as Juventus coach

Igor Tudor will be Juventus coach next season, the Serie A club's new general manager Damien Comolli confirmed on Tuesday, after failing to snatch Antonio Conte from Serie A champion Napoli. "Igor Tudor will be our coach for the 2025-26 season. We're working together," Comolli told reporters during a press conference.

De Bruyne secures Belgium's victory over Wales in seven-goal thriller

Italian coach Spalletti signs off with a positive result against Moldova; Haaland's goal lifts Norway past Estonia; Croatia thrashes Czech Republic

FIFA WC QUALIFIERS

Agence France-Presse
PARIS

Belgium held off a battling Wales and Italy gave sacked coach Luciano Spalletti a winning send-off in World Cup qualifying on Monday.

Elsewhere Manchester City star Erling Haaland's goal lifted Norway past Estonia, Luka Modric was among the scorers in Croatia's 5-1 rout of the Czech Republic, and the Faroes Islands left it late to down Gibraltar 2-1.

Giacomo Raspadori and Andrea Cambiaso scored in each half as Italy beat Moldova 2-0 to inject a smidgeon of pride back in the Azzurri camp after last week's 3-0 thrashing by Norway which cost Spalletti his job.

The Italians trail Norway by nine points in European qualifying Group I by nine points and are at risk of missing out on a third straight World Cup. Only top spot in each group guarantees automatic qualification with Italy's best hopes appearing to rest on finishing second and reaching the play-offs.

"When you're the national team coach you have no excuses, it's you who selects the squad," said Spalletti.

"It's the coach who has to make the difference and unfortunately I wasn't able to do that."

Over in Brussels, Belgium raced to a three-goal lead over Wales courtesy of Romelu Lukaku, Youri Tielemans and Jeremy Doku inside half an hour.

Wales rallied through a Harry Wilson penalty, Sorba Thomas and Brennan Johnson to stun the side ranked eighth in the world.

But De Bruyne rode to his nation's rescue, as he has so often in a stellar career, by steering in Tielemans' perfect cross in the 88th minute.

It left Wales sitting second in Group J, one point behind North Macedonia, 1-0 winner over Kazakhstan, and three in front of Belgium, which has two games in hand.

Saviour: De Bruyne's late strike gave Belgium full points. REUTERS

The results:
Group I: Estonia 0 lost to Norway 1 (Haaland 62), Italy 2 (Raspadori 40, Cambiaso 50) bt Moldova 0.
Group J: Kazakhstan 0 lost to North Macedonia 1 (Trajkovski 33).
Belgium 4 (Lukaku 15-pen, Tielemans 19, Doku 27, De Bruyne 88) bt Wales 3 (Wilson 45+7-pen, Thomas 51, Johnson 69).
Group L: Croatia 5 (Kramaric 42, 75, Modric 62-pen, Perisic 68, Budimir 72-pen) bt Czech Republic 1 (Soucek 58), Faroe Islands 2 (Frederiksberg 71, Johannesen 86) bt Gibraltar 1 (Scanlon 23).

BENGALURU ROUND-UP

Rishav's ton does it for Century Cricketers

Rishav Appachu Manavatira scored a hundred (104) as Century Cricketers secured the first-innings lead over Vijaya CC and won the KSCA (Group I) second division tournament for Sri M.A.T. Acharya Shield. Century made 367 for four and Vijaya, in reply, folded for 155 with P. Harshith Gowda (four for 29) starring.

The scores (final): Century Cricketers 367/4 in 90 overs (Rishav Appachu Manavatira 104, Harshawardhan Khuba 85, Shishir Bhavane 60, B. Dheemanth 48) bt Vijaya 155 in 46.5 overs (Rahul Vernekar 57, Lavish Kaushal 33, P. Harshith Gowda 4/29, Madhav P. Bajaj 3/25).

All smiles: Century Cricketers team after securing the KSCA (Group I) second division tournament for Sri M.A.T. Acharya Shield.

Siddharth, Nitish sizzle

Siddharth Kailash Gaikwad (5/45) and Nitish Arya (134) starred for Swastic Union CC (1) as it hammered BUCC (1) by 10 wickets in the KSCA (Group I) U-16 inter-club tournament.

The scores (pre-quarterfinal): BUCC (1) 205 in 47.2 overs (Ryan Aaron Minj 50, Siddharth Kailash Gaikwad 5/45) lost to Swastic Union CC (1) 206/0 in 24 overs (R. Rohith Reddy 59 n.o., Nitish Arya 134).
Hammonds 125 in 39.1 overs (Aryaman Goel 34, Eshan Manigandan 3/25) lost to Swastic Union CC (2) 128/4 in 17.4 overs (R. Nithin 46 n.o., J. Sukruth 31).
Social Cricketers 147 in 45.1 overs (Athreya Bhat 30, Shaurya Tandon 41, Kush Kumar Jha 3/28) lost to Bangalore SC 151/4 in 29.1 overs (Ekansh Roul 30, Arush Jain 68 n.o.).
Herons 255/6 in 50 overs (Anirudh Venkata Rayasam 38, V. Niraj 66, Vineet Pravin Patil 93) lost to Engrades 258/9 in 49.5 overs (D. Sanju Kumar 52, Nirv Bisht 33, Tarun Rajesh 77 n.o., Sunay Veer 4/40).
Merchants CC (1) 87 in 35.2 overs (Siddharth Vasisht 39, P. Monish 5/29) lost to Vultures 91/3 in 19.5 overs (Arnav N. Manchale 40 n.o.).
Young Lions Club 256/8 in 47.4 overs (R. Shivaraj 118, D. Bhargav 68) bt FUCC, KGF 167 in 36.1 overs (Rushan Hyder 32).
Vijaya 256/7 in 50 overs (Yuvaan Porwal 54, Saad Rayyan Khan 50, Hruthik Kumar 43, Panshul Sharma 43, Saad Rayyan Khan 50) bt Neptune 207 in 44.3 overs (Milind Dutta 53, Ashrith S. Reddy 48, Milind Dutta 53, Mohammed Arhaan Khan 43, Manish V. Patil 5/30).
Rajajinagar Cricketers 178 in 49.2 overs (Arnav Ravindra Dere 40, Chavanth R. Gowda 4/40, M. Neeraj 30) lost to Mount Joy 180/7 in 35.2 overs (Vidhan Loyalka 55, Syaamantak Anirudh 50 n.o., M. Neeraj 4/27).

Manoj-inspired Black Moon blanks Basaveshwara Nagara

Manoj Kumar managed a double hat-trick as Black Moon FC hammered Basaveshwara Nagara FC 18-0 in the KSFA C-division football league. In another match, Annsh SC defeated Bangalore Footies 2-1.

Other results: KSFA U-21 YPL: BPSS drew with Star Soccer FC 2-2; BIFA bt Playsmart FC 4-1.

Blue Star HC-B thumps Hoysala HC

Blues Star HC-B thrashed Hoysala Hockey Club 9-0 in the 94th Travancore Cup Hockey Tournament on Tuesday.

The result: Blues Star 9 (Shreyas 6, Rajdeep 8, Kaveri 14, Aravind 21, Karthik 36, 47, Shaan 38, Pavan 45, Malik 49) bt Hoysala 0.

KSBA 'A' retains title

KSBA 'A' breezed past MLRF to retain the Century Club Chandra Bhatia inter-club snooker title held recently. The KSBA 'A' team scored a 540-403 victory in the title clash.

M.L. Laxman and Keerthana Pandian, both representing the champion side, won the highest-break and the player-of-the-tournament awards respectively.

Samarth shines for Hoops 7

Samarth scored 20 points as Hoops 7 BC beat HBR BC 79-50 in a boys' match in the State Junior Basketball Championship on Tuesday.

Other results: Boys: MNK Rao Park BC bt Mysore District-A 93-72; **Girls:** Mandya District bt Bangalore Vanguards 61-54; Mysore District-A bt Vivek's SC 41-25.

Elavenil secures bronze

Elavenil Valarivan won the bronze medal in women's air rifle in the shooting World Cup in Munich on Tuesday. The 25-year-old, who had qualified in second place with a high score of 635.6, missed the chance for a better medal by 0.2 point as she slipped from the lead position with a penultimate shot of 9.8. That was the only blip for Elavenil.

It was the first bronze in a World Cup for the former world No.1, who has four gold and a bronze in her kitty.

The 18-year-old junior World champion, Wang Zifei of China, who shot a world record 637.9 in qualification in a strong field of 167 shooters, beat Korean Kwon Eunji by 0.1 point for the gold.

Varun Tomar made the men's air pistol final in the second place with a score of 585.

The results: 10m air rifle: Women: 1. Wang Zifei (Chn) 252.7 (637.9 WR); 2. Kwon Eunji (Kor) 252.6 (635.6); 3. Elavenil Valarivan 231.2 (635.9); 15. Ananya Naidu 632.4; 60. Arya Borse 628.2. **RPO:** Ramita Jindal 632.6; Meghana Sajjanar 630.9.

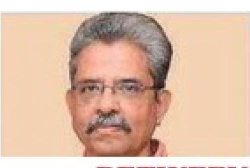
Elavenil.

Imola makes way for a street circuit in Madrid

A new street circuit in Madrid will make its debut on the Formula 1 schedule in September 2026, replacing the Emilia-Romagna Grand Prix at Imola. F1 announced its schedule for 2026 on Tuesday, setting the first Grand Prix at the new Madring track in the Spanish capital for Sept. 13.

The schedule: March 8: Australia (Melbourne); **March 15:** China (Shanghai); **March 29:** Japan (Suzuka); **April 12:** Bahrain (Sakhir); April 19: Saudi Arabia (Jeddah); May 3: Miami; May 24: Canada (Montreal); **June 7:** Monaco; **June 14:** Catalonia (Barcelona); **June 28:** Austria (Spielberg); **July 5:** British (Silverstone); **July 19:** Belgium (Spa-Francorchamps); **July 26:** Hungary (Budapest); **August 23:** Netherlands (Zandvoort); **Sept. 6:** Italy (Monza); **Sept. 13:** Spain (Madrid); **Sept. 27:** Azerbaijan (Baku); **Oct. 11:** Singapore; **Oct. 25:** United States (Austin); **Nov. 1:** Mexico (Mexico City); **Nov. 8:** Brazil (Sao Paulo); **Nov. 21:** Las Vegas; **Nov. 29:** Qatar (Lusail); **Dec. 6:** Abu Dhabi (Yas Marina).

The concentric circles of guilt in a sports-loving city



BETWEEN WICKETS
Suresh Menon

For no fault of the players, RCB's first IPL title will always be associated with death and disaster. Rajat Patidar and his boys deserved better, as did the lakhs of fans who turned up that Wednesday morning to share in the triumph. Sport is a life-affirming activity, and to die in its support goes against the natural order of things. Eleven fans died, and no amount of buck-passing will make a difference to their families and loved ones.

I have lived in Bengaluru for more years than anywhere else, starting from primary school. But you don't have to be a local to feel the terrible weight of the human disaster. Especially one which with some foresight and common sense could have been avoided. A marketing opportunity for one group, a photo-op for another saw the death of innocence in a sports-loving city.

Accountability usually works in a series of concentric circles. Steadily, depending on the public reaction, it moves from the outermost circle which is the least to blame and moves towards the centre.

There are, of course varying degrees of guilt, starting from the outermost circle, which was quickly brought into the picture by the Deputy Chief Minister (DCM) when he said the crowds were "uncontrollable." This is the politician's first line of defence – the people did it.

But this is not an issue likely to disappear, especially since the politicians appeared to be more keen on posing with the players than on dealing with the situation.

Does the DCM deserve the benefit of the doubt when he claimed that inside the stadium he did not know about the stampede outside? No official told him? The politicians belong to the innermost circle – is the momentum of the accountability strong enough to get to them?

Lack of communication

Letters emerging from top police officials warning of the dangers of the lack of preparation for controlling huge crowds suggest that ultimately decisions were taken to which they were not privy.

The lack of clear communication between the organisers (there is still some confusion about who these were, the government, the Karnataka State Cricket Association or RCB, or all three at different times and venues) and the public was, in the end, fatal. Crowds respond to rumours; they contain professional trouble-makers, some fuelled by drink. Many seek a shared kinship amidst unemployment and marginalisation.

There is too the culture of the IPL itself, which encourages over-the-top reactions. Irrational, overplayed and illogical, it is one of sport's techniques to put "bums on seats", as the boxer Muhammad Ali memorably put it. Or bums on couches before the television. Rivalry, individual as well as among teams, is encouraged. Remember the famous slap in the early years, when Harbhajan Singh, an India player, slapped Sreesanth, another India player? There is no such thing as bad publicity, those officials believed, but now they have overplayed their hand.

'Celebration' and rotten behaviour

If cricket fans in India have become indistinguishable from football fans in Europe, the culture of the IPL has something to do with this.

'Celebration' – whether on New Year's Eve or at festivals – seems a free pass to rotten behaviour, physical abuse of women, and perhaps an outlet for many frustrations.

Anonymity in a crowd is of the kind that social media guarantees, so is the entitlement. Perhaps the refusal to listen to authority or follow instructions comes from the same mindset. That, of course, ought not to stop authority, from the politicians to the police from doing their job of keeping everybody safe.

Would lakhs have turned up to greet the Karnataka team had they won the Ranji Trophy? It seems that most of India's fans are not so much cricket lovers as cricketer lovers. Social media has fed into the interminable hunger for news of personalities, building the players up in the process and putting them out of reach of the everyday.

But those questions will have to await another day. For the moment, it is important to sift the essential from the incidental. Senior policemen have been suspended, an RCB official faced arrest, two office-bearers of the Karnataka State Cricket Association have resigned. But who among the inner circle knowing the possible consequences gave the go-ahead? Check the photographs.

Pooran. FILE PHOTO

Pooran retires from international cricket

Press Trust of India
PORT OF SPAIN

Star West Indies batter Nicholas Pooran on Tuesday stunningly announced his retirement from international cricket at the age of 29 without specifying any reasons but insisted that "much thought and reflection" had gone into taking the call.

His decision came days after he opted out of selection for the T20I series against England.
